

The Four Lads, 'Most Happy Fella' To Headline Town Hall Presentations

With entertainment topped by the voices of the fabulous Four Lads, this year's Town Hall lineup should be one of A&M's best yet.

The 1959-60 Town Hall calendar is as follows:

October 19—The Four Lads backed by Shep Fields and his orchestra. This group is undoubtedly one of the most popular singing groups to appear on the campus. The program will include vocals supplied by the Four Lads and Shep Fields' orchestra.

November 3—"A Most Happy Fella," a long time success on Broadway. It will star Carolyn Maye as "Rosabella." The musical includes the big hit song "Standing on the Corner Watching All the Girls Go By." The musical will be presented by a New York company making the first national tour with the hit Broadway cast.

November 23—Fred Waring's Orchestra and Chorus in "Stereo Festival." This will be the third singing, dancing, and musical presentation Waring has made on the campus. The attendance at his previous concerts set all time high attendance records for musical attractions. The orchestra and chorus will include fifty singers, instrumentalists and comics.

February 11—Sixty-five singers, dancers and musicians from Vienna, Austria, in "Vienna on Parade." "Vienna on Parade" is something entirely different from the American concert stage. Last year this attraction made a trans-continental tour of the United States and was received with such wide acclaim that another tour was arranged with the Austrian government. The attraction is backed by the Austrian Deutschermeister Band and presents a company of 65 soloists, chorus and dancers. It will cover Austrian polkas to Strauss waltzes.

March 4—Ballet Russe de Monte Carlo. This ballet attraction has consistently been a terrific box office attraction throughout the world. Annually it gives approximately 200 performances in over 100 cities. The Ballet Russe de Monte Carlo came to A&M in 1957 and was a sellout attraction. The Ballet undoubtedly will furnish top notch entertainment to the Bryan-College Station area as well as the students at A&M.

All in all the billing for 1959-60 is nothing short of "great."

A student general admission season ticket to Town Hall is included in the Student Activity fee and will be issued at registration. Reserved student season tickets will be available for \$2 and will be sold at the Memorial Student Center the Monday after registration on a first-come-first-served basis.

Non-student season tickets will go on sale at the MSC at 8 a.m. Wednesday, Oct. 7 on a first-come-first-served basis. Each purchaser Wednesday morning will be limited to four reserved seat tickets. Non-student general admission season tickets will be \$7 and non-student reserved seat season tickets will cost \$9.

Students who do not pay the Student Activity fee may buy a general admission season ticket for \$4.50. Student wife tickets will also be \$4.50.

All A&M Students Must Take P. Ed.

With the addition of G. Rollie White Coliseum and its adjoining buildings in 1955, the physical education facilities at A&M and the resulting physical education program have become among the best in the state.

pledged to provide "physical education for all," the department offers a wide range of activities from volleyball to an adaptive program for those who cannot participate in the regular program.

Students in all curricula are required to take at least four semesters of physical education. A student registers for one of a great many activities offered per semester. The purpose of instruction in these activities is to teach the student, through practical application, the fundamental knowledge and skills of at least two activities of which he will be able to participate in adult life.

A few of the activities are boxing, wrestling, handball, bowling, gymnastics, fencing and life saving. There are many others.

Social Whirl

Tonight

The Aggie Wives Bridge Club will meet in the MSC at 7:30 p.m. Hostesses will be Elton Foster and Pat Sprayberry.

New officers of the club for the fall semester include: Elton Foster, president; Kay Hurley, vice president; Frances Mills, secretary; Lellen Tenney, treasurer; Nancy Rudderow, reporter; and Barbara Machamehl, council representative.

U.S. OIL

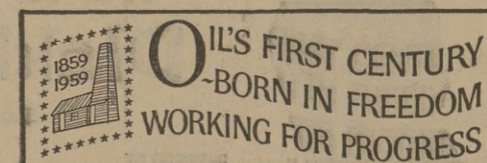

*Indispensable in our way of life...
vital to our national defense*

In the 100 years since the drilling of the first oil well in the United States, the usefulness of petroleum has been often demonstrated in many ways . . . It is an economical and efficient source of energy and a raw resource convertible through petrochemistry into innumerable useful materials. . . It is indispensable in our way of life, and vital to the national defense.

It is comforting to know that today's reserves are ample for today's needs. And if incentives to undergo the heavy risks involved are continued, there is no doubt that more oil will be discovered and produced to replace the oil we use . . .

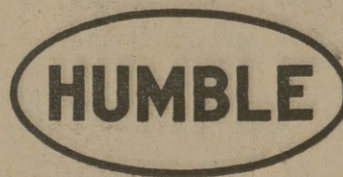

The United States has found, produced, refined, and used more oil than any other nation. This has made petroleum products a feature of the abundant American life. Americans use more petroleum products than any other people on the globe.

The past is prologue to the future. During its second century, oil can serve you and your grandchildren, and the nation, as well or better than ever before.

The Humble Company, incorporated in 1917, has participated in the development of new and better ways to find and produce oil, and in the research that has improved petroleum products and discovered countless new uses for oil and natural gas. Humble is a major producer of U. S. oil, with production extending all across the southern tier of states from

Florida to California. Marketing operations are carried on in Texas, New Mexico and Arizona. Humble's Baytown refinery, near Houston, is one of the great refineries of the world. (Humble Pipe Line Company, a major transporter of crude oil and finished products, operates more than 9000 miles of pipe lines in Texas.)
