

Cadet Colonel

Bill Heye, electrical engineering major from San Antonio, will assume command of the Corps of Cadets this fall as Cadet Colonel of the Corps. Heye served as corps sergeant major during the latter part of the term last spring.

\$17,000 Grant Given Research

The A&M Research Foundation recently received a \$17,000 grant for the National Science Foundation to support research in the Department of Oceanography and Meteorology.

The grant will support a two-year study of the reef environments and the carbonate deposits of Campeche Bank for a better un-

derstanding of the relationship of the deposits, biology and the water mass.

Dr. R. G. Bader, associate professor of oceanography, is the principal investigator and Brian Logan, department research scientist, is the associate investigator.

The first list of appointments of cadet officers has been announced by President Earl Rudder. Remaining appointments will be made sometime after Oct. 1, according to Col. Joe E. Davis, commandant of the college.

Following is the list of the appointments that have been released:
