

A&M Moms Meet

The Federation of Mothers' Clubs met here Saturday for a projects planning conference. Above left, Mrs. Earl Rudder, wife of President Earl Rudder, Mrs. Ellsworth S. Lorms, Federation president from San Antonio, and Mrs. Ralph Plumlee, vice president of the Federation from Dallas, discuss plans for the coming year. More than 35 women throughout the state attended the meeting.

Bryan C of C Directors Hear Rose Tell Values of TEES

Nearly one million dollars has been placed into the Bryan-College Station economy due to the work of the Texas Engineering Experiment Station, according to a speech by Dr. Aaron Rose to the Bryan Chamber of Commerce Board of Directors Tuesday.

Rose also said the employees of the station made their impact on the community as well. He commended them for their work in the community in church and civic affairs. He said such people tend to attract industries and make the community grow.

"It is necessary that these people become a part of the community and help it in its growth program," Rose added.

Rose said the 70 to 80 people of the 140-man staff of the station who hold bachelor's degrees or

doctorates add considerably to the community. Rose stated that all but \$218,000 of the \$711,000 in salaries paid out by the station would probably be spent in the community.

Dr. Robert G. Cochran, head of the Nuclear Science Center and the Department of Nuclear Engineering, told the directors that 10 graduate students were enrolled in courses in his department and that 13 or 14 seniors have

registered for senior level work. Cochran said the center plans to get permission from the Atomic Energy Commission to increase the power of its reactor. The increase would be from 100 kilowatts to five megawatts, making it the largest operation in the United States.

Rose said the Engineering Experiment Station is doing its best to fulfill the needs of the engineering area in Texas.

Employee's Club Announces Plans

The Employee's Dinner Club has announced its schedule of events for the year.

The schedule includes three dinner dances and two refreshment dances during the year, the first of which will be held in the Ballroom of the Memorial Student Center Thursday, Oct. 15, at 7:30 p.m. The price for a season ticket is \$9.50 per person, or tickets may be obtained to each of the dances at \$3.00 for dinner dances and \$1.50 for the refreshment dances.

KENT

(Continued from Page 1) employment. He was professor of mathematics at Lambuth College in the summer of 1930. In 1930 and 1931 he was graduate assistant in mathematics at the University of Arkansas and from 1931 until 1933 he held the same position at Ohio State University. At Fort Smith, Ark., Junior College, he was professor and head of the Department of Mathematics. He served the same post at Arkansas Polytechnic College in Russellville, Ark., from 1935 until 1936. In 1936, Kent joined the Department of Mathematics at A&M. He has been with that department for 23 years. During that period of time, he has been research assistant for the A&M Engineering Experiment Station during the summer of 1946. In 1948, Kent supervised the reconstruction of the Guion Hall stage. During the summers of 1949 and 1950, he served as research fellow in astronomy at Yerkes Observatory at Williams Bay, Wis.

Kent resides at 823 S. Rosemary Drive, Bryan, with his wife, Pauline Elizabeth, and his son, David. His daughter, Christopher, is a student at the University of Texas.

Many Topflight Entertainers Highlight Texas Prison Rodeo

Inmate contestants, plus a host of the nation's topflight television and recording stars will be the bill of fare for the 28th annual Texas Prison Rodeo here in the prison's \$1,000,000 stadium each Sunday in October.

Big name stars such as James Arness, of the TV series, "Gunsmoke," along with Johnny Cash, popular country-style singer, open the 1959 series on Oct. 4. Dale Robertson of "Tales of Wells Fargo," and Tommy Sands, sensational singing idol of the teenage crowd, appear on Oct. 11, while Steve McQueen of "Wanted—Dead or Alive," teams with singer Johnny Horton of "The Battle of New Orleans" fame on Oct. 18. For the Oct. 25 performance, prison rodeo officials say they will produce two additional nationally-known stars for the closing of the 1959 series.

In addition, there will be other outside acts, rodeo clowns, inmate entertainment groups and mounted quadrilles from Pasadena and Bellville. The Houston Range Riders also will appear and for the first time the rodeo will feature a girl's barrel race event.

H. H. Coffield, Rockdale businessman, who serves as chairman of the Texas Board of Corrections and its rodeo committee, said, "We are doing everything possible to present the best entertainment feature found anywhere."

"We are of the opinion that a well-rounded show will attract more people to this unusual rodeo which benefits around 12,000 inmates of the Texas Prison Depart-

ment of Corrections." Coffield explained that net proceeds from rodeo ticket sales are placed in the prisoners' welfare fund which is used to supply rehabilitative services not furnished by the Texas Legislature.

Reserve seat tickets at \$2.40 and \$4.40 each, tax included, may be obtained by writing Rodeo Ticket Office in Huntsville, enclosing check or money order.

Foreign Students Honored Tonight In MSC Reception

Foreign students and exchange visitors will be honored in a reception in the Assembly Room of the Memorial Student Center Wednesday evening at 7:45.

The reception is being held by President and Mrs. Earl Rudder, the American Association of University Women, the Pan-American Roundtable and the Campus Study Club.

Dr. M. T. Harrington, Chancellor of the A&M College System, and approximately 25 faculty members have been invited to attend the annual reception.

Says Placement Annual

Job Opportunities Up In More Varied Fields

The recruiting picture for 1959-60 promises more opportunities for more people in more varied fields than ever before, according to the new edition of the "College Placement Annual," being released today by Director of Placement W. R. Horsley.

The annual is an official, non-profit publication listing the job opportunities normally made available by the more than 1,700 participating companies. A&M is one of nearly 600 colleges and universities throughout the United States and Canada where it is being distributed. Copies for personal or reference use are available at the Placement Office, located in Room 210 of the YMCA.

In 1959-60, as in most years in recent history, engineers will find themselves most in demand among the recruiters. Close to two-thirds of the companies listed in the annual are interested in hiring some type of engineer, and cumulative totals show more than 3,600 company openings for engineers of various types.

Mechanical engineers, for the third year in a row, will be the most popular—some 800 companies list openings for them—but the twin specialties of electrical and electronic engineering are close behind. The third most desirable man, in the eyes of the recruiters

at any rate, will be the chemist. In the most startling jump in demand revealed by the annual, the number of companies offering openings in that field went from 396 in 1959 to 672 this year.

Fields with futures, as measured by the number wanting personnel in those categories, are selling, specified by 613; accounting, 516; chemical engineering, 472; and business administration, 459. Industrial engineers, though still sought-after, found the demand for their services falling slightly, from 481 last year to 431. And, smaller in number but reflecting changing occupational trends, the number of firms seeking mathematicians grew from 177 to 193, and the number seeking electronic computing per-

sonnel continued to increase. In all, 236 occupations are either referenced or cross-referenced in the book.

Articles in the opening section of the annual give tips on many aspects of recruiting and job-hunting, including writing resumes, interview do's and don'ts, and training programs. Others offer help in self-analysis, making job decisions and ways to use the placement bureau.

95 Attend First Bryan CAP Meet

The first meeting of the year was held last night by the Bryan Civil Air Patrol with 50 senior members and 45 cadets present.

The Bryan commander is Lt. Lee Piranio; the adjutant, James Ward Boyce; ISO, Billy Jay Barfield; commandant of cadets, Butch Sullivan; training officer, John L. Smith.

The first planned practice mission is scheduled for Oct. 31.

The Outer Banks of Cape Hatteras, N. C., where the pirate Blackbeard met a violent death, is also the place where Wright Brothers flew the first airplane on Dec. 17, 1903.

Special Mass Set Here Tomorrow

A special mass will be held in St. Mary's Chapel tomorrow at 5:15 p.m. in honor of the Holy Ghost, Catholic Chaplain Father Charles Elmer, announced today.

The mass will be offered especially for the students asking assistance of the Holy Spirit in their studies and God's guidance in their activities.

All Catholic students and professors are urged to attend.

Redden Joins Journalism Staff Here

Joseph E. Redden has joined the Department of Journalism teaching staff with the rank of assistant professor, according to Donald D. Burchard, department head.

A veteran of nine years of newspaper experience in Georgia and Texas, Redden has also taught in the college journalism field for seven years. His newspaper work started with the Atlanta (Ga.) Georgian and for four years he was employed by the Houston Chronicle as copy editor.

In addition to his news experience, he has also taught at the University of Houston, Hardin Simmons University and Ouachita College. He holds the bachelor and master degrees from Hardin Simmons and has completed work for the doctorate at North Texas State College.

Redden's field of specialization will be in editing and feature writing. He is married and has one daughter who is in the fifth grade at A&M Consolidated Elementary School.

Room Applications To Be Filed Friday

Meeting room applications for student organizations and clubs will be accepted in the Social and Educational Office of the Memorial Student Center beginning at 8 a.m. Friday, according to Mrs. Ann Keel, MSC social director.
