Four Special Drills Slated During October

Four special drills are scheduled during October for the Corps of Cadets, Col. Frank S. Vaden, assistant commandant, announced Monday.

The first special drill will be Friday. All the drills will be from 5:15 to 6 p.m.

Col. Vaden explained that the extra drills are necessary before the home football game march-ins and Corps trips because regular drill periods will not be devoted to unit formations until later in the semester.

Another special drill will be held Friday, Oct. 9. Both of the first two drills will be practice marches at Kyle Field.

The third special drill, Thursday, Oct. 15, will be practice for the Corps trip to Fort Worth, Oct. 17.

The final scheduled special drill will be another Kyle Field march-in practice on Oct. 23.

Col. Vaden said that uniform for all of the extra drills will be fatigues and all units will participate in the drills.

Omit Obscene Reading

City Council Passes Street Work Repair

The College Station City Council last night passed a special ordinance, assessing the repair work on Walton and Kyle Streets at \$3 a foot.

Ran Boswell, city manager, said the ordinance was in accordance with the contract released recently to the Jarbet Construction Co. of San Antonio. The bid by the San Antonio firm was \$96,770.87 and Boswell said the work would begin in the near future.

Omit Obscene Literature

Also on the agenda for the monthly council meet was a discussion on the elimination of pornographic literature in the College Station area. Boswell said that the council plans to contact the Bryan City Commission and form plans to "eliminate pornographic or obscene literature from the newsstands."

In addition, the council determined to send Boswell to the annual City Managers' meet in St. Louis, Mo., next month. The conference is set for Oct. 25-28, but it has not yet been determined what transportation Boswell will take.

Second Move

The move by the council is only the second in the mass street repair work getting underway in College Station.

Battalion Requests Club Information

All clubs and organizations on the campus are asked to furnish The Battalion with a list of their present officers and a short description of the purposes and activities of the groups.

This information will be printed in The Battalion as space permits and will be printed in the order in which it is received in The Battalion.

Please bring or mail this information to The Battalion, on Ground Floor, YMCA.

The improvement program, still in the embryonic stage, has work being completed on Lee Ave., in southern College Station, running near A&M Consolidated High School. Work on Lee is the only street repair project that has been or is underway.

Work on Lee is expected to be completed soon. Curbs and gutters are being set, making ready for the base material.

Other Firms

Two other firms also submitted bids on the repair work at Walton and Kyle. B&W Construction Co. of Bryan bid \$99,692.36 and the Moore Bros. Construction Co. of Lufkin bid \$146,316.15. The Jarbet Co. bid was low by almost \$3,000.

The hearing tonight was set in accordance with the state statutes of Texas, allowing those who possess property near the streets soon to be under repair a chance to be heard.
