

Moonwatch Leader

Jack Kent, mathematics and space science professor here and director of the A&M Moonwatch Team, sits in front of a display featuring three award certificates recently

presented to the team. The display is in the library on the college campus. Awards were made for diligence in tracking and reporting artificial satellites.

Graduate and Postdoctoral

Science Academy to Aid Selection of Fellowships

The National Academy of Sciences-National Research Council has again been called upon to advise the National Science Foundation in the selection of candidates for the Foundation's program of graduate and postdoctoral fellowships.

The foundation plans to award approximately 1,100 graduate and 125 postdoctoral fellowships in these two programs during the 1960-61 academic year.

Committees of outstanding scientists appointed by the Academy-Research Council will evaluate applications of all candidates; final selection will be made by the Foundation and awards announced on March 15, 1960.

Open only to citizens of the United States and awarded solely on the basis of ability, the fellowships may be applied to advanced

study in the mathematical, physical, medical, biological, and engineering sciences, including anthropology, psychology (excluding clinical psychology), and the following social sciences: geography, mathematical economics, econometrics, demography, information and communication theory, experimental and quantitative sociology and the history and philosophy of science.

They are open to college seniors, graduate and postdoctoral students, and other individuals with equivalent training and experience.

All applicants for graduate (pre-doctoral) awards will be required to take an examination designed to test scientific aptitude and achievement. This examination administered by the Educational Testing Service, will be given on

Jan. 16, 1960, at designated centers throughout the United States and certain foreign countries.

The annual stipends for graduate fellows are as follows: \$1,800 for the first year; \$2,000 for the intermediate year; and \$2,200 for the terminal year. The annual stipend for postdoctoral Fellows is \$4,500. Limited allowances will also be provided to apply tuition, laboratory fees, and travel.

Further information and application materials may be obtained from the Fellowship Office, National Academy of Sciences-National Research Council, 2101 Constitution Ave., N. W., Washington 25, D.C. The deadline for the receipt of applications for regular postdoctoral fellowships is December 22, 1959, and for graduate fellowships, January 1, 1960.

Former Aggie All American To Attend Dance Festival

Manning Smith, a native of College Station and former all-American gridiron star for A&M, will be one of the featured members of the star-studded staff of nationally known personalities at the First Quadricentennial Square and Folk Dance Festival to be held in Pensacola, Fla., Oct. 30-31.

Prior to entering the dancing field, Smith received degrees in physics and physical chemistry and coached collegiate football and basketball. He is now recognized as one of the nation's foremost round dance experts.

Manning and his wife Nita have been on the staffs of the leading square and round dance institutes in this country and Canada. They have conducted national as well as state festivals and conventions. This past summer they were chosen by the U. S. Air Force to spend five weeks in Europe giving instructions to recreation leaders and personnel from service clubs at American bases in England, Germany, France and Turkey. They also conducted the square and round dance work shops at the Annual Roundup sponsored by the

European Association of American Square Dance Clubs. In addition to these activities, the Smiths also find time to travel some 50,000 miles each year and conduct classes for more than 500 children and adults each week. Their own two teenagers dance with the Smiths' exhibition groups.

Manning obtained his degree in physics from Centenary College in Shreveport, La. and his degree in physical chemistry from A&M. Nita holds a degree in physical education from the University of Texas in Austin. It was while playing football here that Manning made the All-American team.

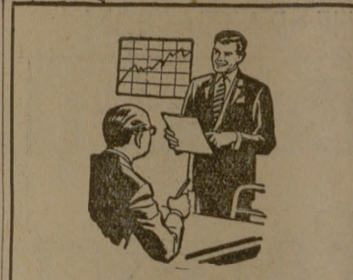

Not only do the Smiths teach and dance established dances and patterns but they write their own. Among the many hit dances which the Smiths have written are "White Silver Sands", "Tammy", "Susie Mixer", "Mr. Guitar", and "Manita Waltz".

Manning and Nita Smith, Ed Gilmore, Bruce Johnson and Don and Marie Armstrong compose the feature staff who will be teaching, calling and directing the twenty-nine hours of dancing.

The Festival will also include a two hour pageant which will be given each night and will feature

dancers from Canada, Texas, Florida, Georgia and Kentucky. The pageant will be based on the dances which were popular during the time the flags of Spain, Great Britain, the Confederacy and the United States were in control of Pensacola and other parts of Florida. Tickets and information concerning these events may be obtained from the Fiesta of Five Flags, Box 803, Pensacola, Fla.

Two Ags Receive Research Grants

Two undergraduate A&M students in wildlife management, Charles W. Ramsey of Memphis, Tenn. and Fred A. Murray of San Antonio, have been awarded grants from the Texas Academy of Science. They will conduct research under the direction of Dr. Richard J. Baldauf, associate professor in the Department of Wildlife Management.

Ramsey's research will be on "A Comparative Study of the Pectoral Girdle of the Hyliidae of Texas" and Murray's research will be on "A Study of the Efferent Branchial Arteries and Their Association With the Dorsal Aorta in Selected Centrarchids."

Club Aid Meeting Slated Tomorrow

There will be a meeting of all technical and departmental club sponsors and treasurers in the Social Room of the Memorial Student Center Wednesday at 5 p.m. according to W. L. (Pete) Hardesty, student organizations adviser.

Hardesty said this is an annual meeting designed to acquaint the sponsors and treasurers with benefits they may gain from the club aid program.

He said only technical and departmental clubs are eligible for participation in the program.

BS CANDIDATES
Choose specialized training program, graduate study or direct assignment

... As an RCA Engineer

Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part-time at the University of Pennsylvania, Rutgers University or the University of California at Los Angeles.

Or, you may prefer a different path ahead... RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assignments. Experienced engineers and interested management guide your progress. You may receive assignments in design and development of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in electron tubes, semiconductor materials and devices, and space electronics.

Your experience or advanced education may point your way to direct assignment. Dozens of RCA engineering fields lie open to the man who's thoroughly acquainted with the direction he wants to take and whose qualifications open this path to him.

There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus—

OCTOBER 20

Mr. Robert Haklisch, Manager
College Relations, Dept. CR-5
Radio Corporation of America
Camden 2, N. J.

Right now, see your placement officer. Get squared away on a specific time for your interview. And get your copies of the brochures that also help to fill you in on the RCA picture. If you're tied up when RCA's representative is here, send a résumé to the address shown at right:

Tomorrow is here today at RCA

RCA RADIO CORPORATION of AMERICA
