

Named for Texas Oil Man

The new \$1,250,000 petroleum engineering building now under construction has been officially named the W. T. Doherty Petroleum Engineering Building, in honor of W. T. Doherty, president of the Mound Co.

New Pet. E. Building Named for Doherty

The new \$1,250,000 petroleum engineering building, now under construction will bear the name of a distinguished A&M graduate, Houston oil man W. T. Doherty, '22.

The building was officially named the W. T. Doherty Petroleum Engineering Building by recent action of the A&M College System Board of Directors.

Doherty, president of the Mound Co. in Houston, is widely known in petroleum and chemical engineering circles in Texas. He has long been active in A&M affairs and is immediate past president of the A&M College System Board of Directors.

A native Houstonian, Doherty graduated in 1922 with a degree in chemical engineering. He went to work for the Humble Oil and Ref. Co. in its Baytown refinery, later was moved to the Houston office as a petroleum engineer, and was division superintendent for Humble's West Texas division, at Midland, when he resigned in 1938. He then returned to Houston as superintendent of the Robert A. Welch interests.

He is co-author of a petroleum engineering handbook, "Practical Petroleum Engineer's Handbook" now in its fourth edition, used at A&M, Texas Tech, LSU and a number of other colleges and universities throughout the nation.

One of his primary interests outside of the oil business lies in his work as a trustee for the Robert A. Welch Foundation, multi-million dollar foundation supporting chemical research.

Doherty was cited by the American Petroleum Institute in 1951 for distinguished service to the oil industry. He is a past national chairman of the API drilling practices committee and holds membership in the American Assn. of Petroleum Geologists, American Assn. for the Advancement of Science, Texas Academy of Science, American Institute of Mining, Metallurgical and Petroleum Engineers and the American Chemical Society.

He was named a member of the board of directors in 1953 and served as president of the board from 1955 until his retirement from the board, early this year.

The W. T. Doherty Petroleum Engineering Building, due to be completed and equipped early in 1960, is considered one of the most modern facilities for teaching and research in this field in the nation. The three-story structure will include special facilities for research, with safety laboratories for work with gases under high pressure. It will house, in addition to the teaching and research facilities for the Department of Petroleum Engineering, special laboratories for the A&M section of the Texas Petroleum Research Committee.

Local Churches Announce Plans

Local churches have announced their schedule of services for Sunday and next week. They include: St. Thomas Chapel

Holy communion will be a 8 a.m. Sunday followed at 9:15 and 11 a.m. by the sermon, "Renewal and a Quiet Mind" by the Rev. Earle P. Martin.

Evening prayer will be a 7 p.m. with adult class afterwards.

YPSL meets at 6 Sunday evening.

Morning guild will meet Monday morning at 9:30 and afternoon guild will meet at 3 Monday afternoon.

Prayer group will have their meeting Tuesday at 8 p.m. Wednesday's services include holy communion and breakfast at 6:30 a.m., evening prayer and Canterbury program at 7:10 p.m. and senior choir practice at 8 p.m.

Women of the church will meet at 10 a.m. Thursday. The junior choir will practice at 3:45 p.m. Friday.

A&M Church of Christ Bible school will be at 9:45 Sunday morning with worship service at 10:45 a.m. Semon topic will be "The Strength of the Church."

Young people's classes and Aggie class will meet at 6:15 Sunday evening with Sunday evening worship service at 7:15. The Chain of Christian Unity" will be the evening sermon.

A&M Presbyterian Church Sunday school will begin at 9:45 a.m. and the Rev. Norman Anderson will give the morning sermon, "God Never Forgets Us" at the 11 a.m. service.

Junior choir will rehearse at 4 p. m. and junior, intermediate and senior high school leagues will meet at 5 Sunday afternoon

The senior choir will have their rehearsal at 7 p.m. Wednesday. At the same time the regular monthly meeting of the session will be held.

Bethel Lutheran Church Morning worship services will be held at 8:15 and 10:45 a.m. with

Sunday School and Bible classes at 9:30 a.m.

The Walter League will hold a social at 7 p.m. Sunday.

Wednesday night vespers services will be held at 7:30 p.m. The Board of Elders will meet Thursday night at 7:30.

A&M Methodist Church Layman's day will be observed Sunday. Lee Duewall, director of Students Publications, will be the speaker at the 10:55 a. m service.

Sunday evening, Herman Morgan, conference director of homes for the aged, will speak.

A&M Eligible to Nominate 16 Men for Fellowships

A&M can nominate 16 students as candidates in national competition for approximately 1,000 cooperative graduate fellowships to be offered for graduate study in the sciences, mathematics and engineering during the academic year 1960-61.

In making the announcement,

Dean of the College, J. B. Page, said the deadline for making application is Nov. 6. Information kits containing complete details of the program, can be obtained at the dean's office.

According to the National Science Foundation, sponsor of the fellowships, fellows will be selected on the basis of ability as indicated by reference reports, academic records and other evidence of achievement.

The program is now in its second year of operation. Applicants may apply to study at one of 152 designated colleges and universities, including A&M, which are authorized to confer doctoral degrees in at least one of the sciences.

Applications from the 16 A&M students will be forwarded to the National Science Foundation, where they will be evaluated for the NSF by a panel of scientists chosen by the National Academy of Sciences-National Research Council.

At A&M, Dean Page said he will appoint a committee to screen the applicants down to the 16 students most likely to stand competition at the national level.

Freshmen Meet With Bill Heye

"Soldier - Statesman - Knightly Gentleman"—This was the theme of the freshman meeting held in Guion Hall yesterday afternoon, led by Cadet Colonel of the Corps Bill Heye.

Heye stressed the fact that although A&M has a proud heritage, a minority in years past have managed to disgrace the school by acting like animals, both on and off campus. He said the four words,

Soldier - Statesman - Knightly Gentleman, were written to describe Sully, but that even today they should be applicable to all Aggies.

Another point Heye stressed in talking to the freshmen was emphasizing of manners at Tessie-land this weekend, both to one's date and to the people with whom a person mixes. He said manners should be watched wherever the Aggies go.

Vespers Services Set Tuesday Night

Vesper services will be held Tuesday night in the Interfaith Chapel at 7:05 under the direction of 2nd Wing Chaplain Bob Compton, Bill Shenkir, president of the YMCA Cabinet, said recently.

Ten minutes of the evening services will be used on the main thought of the day, while the remaining ten minutes will be spent on silent reflection and meditation of the happenings of the day, Shenkir said.

CROSSROADS

Here's what happens when four super-highways meet—a far cry from that simple "plus mark" we used to call an intersection!

Life is becoming more complex, isn't it? No longer is it simply a matter of finding the right road. Today you can't even get on the right road until you find the right approach. And you had better be mighty sure of the direction you want to go, or you'll find yourself speeding away from your destination on a turnpike that permits no U-turn.

As life has become more complex, the value of a deep and abiding religious conviction has become more evident. Against a background of confusion and uncertainty the confident assurance of Christian faith is sharply silhouetted.

And the millions who have turned to the Church for truth and guidance have made a thrilling discovery. The Way of Christ is still just as clear, direct, and inspiring as it was to those who heard it first by the Galilean road.
