KIMBALL, Nab. (AP)—On the accelerator, the judge ruled, Lightfoot's foot was not light. He fined Gale Nathan Lightfoot \$10 for speeding.

Of Two Minds

On the one hand, you have Thirsty G. Smith. Good taste to him means zest and zip in a beverage, sparkle and lift and all like that. . . . On the other hand, T. Gourmet Smythe perceives good taste as the right, fit and proper refreshment for a Discriminating Coterie. So? . . . Have it both ways! Coca-Cola . . . so good in taste, in such good taste. Et vous?

Reduce Wheat Yield Said Due To Mosaic Virus

Dr. Lee J. Ashworth, assistant professor in the A&M Department of Plant Physiology and Pathology, has reported that some of the reduced wheat yields this past season in the High Plains area is now considered to have been partly due to wheat streak mosaic virus disease.

The virus was successfully transmitted from diseased wheat plants collected in Lipscomb county by H. H. McKinney of the U.S. Department of Agriculture. Ashworth also found diseased plants in Potter and Deaf Smith Counties.

Ashworth said virus transmission studies show that the wheat streak virus is harbored by at least five native grass species.

He said that a mite insect, so small it cannot be seen with the naked eye, is believed to be a carrier of the virus. The insect has been found on sand bur plants on the High Plains.
