**Where to Park?**

A disgruntled day student hiking from the parking spaces located off Farm-to-Market Road 60, the main street at North Gate, was heard to say, "I paid \$3 to park in Siberia."

Things aren't quite that bad, but his statement isn't too far from wrong in relation to the parking problem existing on the campus for students, faculty members and staff personnel.

Day students only have two lots to park in—both located at extreme ends of the campus, behind the Geology Building and G. Rollie White Coliseum. There is a secondary lot off Farm-to-Market Road 60, almost a half-mile from the center of the campus.

Some faculty and staff members face almost as much of a walk trying to get from where they park their car to their offices or classrooms.

There is a solution to the problem if remedial steps will be taken now.

Several large plots of ground on the campus are used solely for growing grass:

- **THE DRILL FIELD.**—Used at the most three times per year, this space is located in the heart of the campus and would be invaluable to serve students, faculty, staff and VISITORS going to the Memorial Student Center, the YMCA Building, the Coke Administration Building, the Academic Building, Nagle Hall, Guion Hall, Kyle Field, G. Rollie White Coliseum, the Electrical Engineering Building, the Physics Building and Goodwin Hall.

- **GUION HALL.**—The area on both sides of Guion Hall are used for nothing but pathways to and from classes. This area would make lots to serve as an overflow area for parking space on the Drill Field.

- **AGRICULTURE - SYSTEM ADMINISTRATION BUILDINGS SPACE.**—This large plot of ground between the Agriculture Building and the System Administration Building serves no useful purpose. Its location would make an ideal place for parking for people using the Agriculture Building, the Texas Highway Research Center, the Civil Engineering Building, the System Administration Building and other buildings in the immediate area.

- **DORMS 1-2.**—The area between the North ends of Dorm 1 and 2 and the street would provide parking space for some cadets who live in these dormitories and are forced to park in the Navasota and the new Hempstead Lots.

- **CHEMISTRY BUILDING.**—Located behind the Chemistry Building, this lot would increase the size of the adjacent small lot presently in existence.

- **TRIGON.**—Although small, the area behind the Trigon would accommodate a small number of cars driven by people using buildings in the center of the campus.

The only way for students, faculty members and staff personnel to get action is to ACT.

Talking the problem will solve nothing if no action is taken by the persons most in need of the added parking facilities.

Letters, petitions and personal appeals can do the job, but it must be done now in order to get something done before bad weather can cause delays in preparing the new lots.

A temporary covering of gravel or caliche would serve to make the lots serviceable until money is available for permanent improvements.

The Battalion will serve as a collection point for letters and petitions and will see that they are presented to the proper authorities for action.

More than 7,000 signatures demanding action can do some good . . . !

**Job Interviews**

Garrett Oil Tools will interview mechanical engineering and petroleum engineering B.S. degree candidates. Some summer oil field experience is preferred. Primary duty will be to sell and promote sales of a wide variety of petroleum tools and equipment.

Shell Oil Co. will interview agricultural economics, business administration and economics majors of all degree levels. Men needed who have an interest in

financial operations of large integrated oil company for assignments in the financial department in one of the five locations in Houston.

Union Carbide Co. will interview chemical, electrical, industrial and mechanical engineering B.S. and M.S. degree candidates and organic chemistry B.S. and M.S. degree candidates and M.S. degree candidates in mathematics. Men are needed for jobs in chemical plants, sales and marketing.

Koppers Co., Inc. will interview chemical, electrical and mechanical engineering B.S. and M.S. degree candidates for production training in their plant.

Arkansas Fuel Oil Corp. will interview chemical, civil and mechanical engineering B.S. and M.S. degree candidates and E.B.A. and M.B.A. candidates in business administration and marketing. January or June, 1960, graduates are wanted.

**Social Whirl**

**Friday**  
 Business Administration Wives Club will have a hay ride and wicker roast. Husbands and wives will meet at 5:45 in front of College View. Food will be furnished by individuals and the club will furnish cold drinks. For further information call Vera Dean Day at VI 6-7490 or Lois Dempsey at VI 6-8963.

**Monday**  
 Aeronautical Engineering Wives Club will meet in the YMCA Cabinet Room. Slides will be shown on Sweden.

**What's Cooking**

The following clubs and organizations will meet tonight:

Denton-Wize County Hometown Club will meet in the Fountain Room of the YMCA.

Fort Bend County Hometown Club will meet in Room 3-D of the Memorial Student Center.

San Angelo-West Texas Hometown Club meets in Room 104 of the Agricultural Bldg.

Tyler-Smith County Hometown Club will meet in the Social Room of the MSC.

Wheeler County Hometown Club meets in the Anderson Room of the YMCA.

Amarillo Hometown Club will meet in Room 225 of the Academic Bldg.

Liberty Hometown Club will meet in the Academic Bldg.

Freshman Engineering Society meets in the Chemistry Lecture Room.

**New York Official Has No Comment On Van Doren Case**

New York — (AP) — Dist. Atty. Frank S. Hogan refused to confirm or deny reports today that Charles Van Doren and Hank Bloomgarden had admitted that they received both questions and answers prior to their appearances on the NBC-TV quiz show Twenty-One.

The New York Times also quoted Van Doren as saying: "I think that Monday is only five days away. I'm not in a position to start talking about it now. It would put me in such a terrible light, not only with Congress, but with the other newspapers to whom I have refused to speak that I feel I must say, 'No comment.'"

Van Doren, who won \$129,000 on Twenty-One, now dropped by NBC, is scheduled to testify next week in Washington before a House special subcommittee.

Bloomgarden, who won \$98,500 on the quiz show, was quoted by the Times as saying: "You go ahead and print what you want. I don't intend to get into an argument about it. I have no comment as to whether I received any help."

Bloomgarden has not been invited to testify before the House committee.

**RAILROADING TIME**

**PORTSMOUTH, Va.** (AP)—Five Jarrett brothers here think they have a railroading record. Collectively, the brothers Curtis, Lyman, Ray, Henry and W. J., are 300 years old and they have spent 230 of those years working for the Seaboard Air Line Railroad.
