

Worth Mentioning

By Johnny Johnson

We were sitting around the office we humbly refer to as the "Taker of Grade Points" the other night when someone suggested that I should write a column. After discussing the problem very carefully (about two minutes), the consensus opinion was to have such a column. So here goes.

Unlike most columns, this one will not deal specifically with one general topic or theme. It's a collection of items that doesn't make our news columns, comments on those that do and occasionally an anecdote or two.

The Aggie football squad received a 23-foot telegram prior to Saturday's game with Arkansas that was signed by 2,111 Men of Aggieland.

John Huebinger, fourth year architect major from Bryan, came up with the idea and passed it along to Cadet Colonel of the Corps Bill Heye Thursday afternoon. Most of the names were collected Thursday night and the remainder of the 2,111 paid their five cents Friday afternoon in the Memorial Student Center. Head Yell Leader Joe Leeper sent the wire.

Congratulations are due Huebinger for providing the spark for the project and everyone who contributed to ending the wire also deserves a pat on the back.

While on the subject of showing what cooperation between Corps and civilian students can accomplish, a thought for Corps and civilian leaders to ponder might be a weekly meeting at dinner to talk over problems pertaining to both groups.

A system could be set up where the two groups of leaders dine one night a week together. The plan could be formulated where the leaders eat one week in the civilian dining room and the next week in the Corps dining facilities.

Such a move would give both groups a better opportunity to understand each other as individuals and to gain insight into the problems of each.

This week is certainly the week for entertainment. Last night's Town Hall production is followed tonight by the Aggie Player's production of "Bus Stop" which continues through Saturday night. This weekend offers the Air Force Ball and a dance in the Memorial Student Center Ballroom Friday night, Saturday's A&M-SMU game and the All-College Dance Saturday night.

With the jangling of freshmen spurs resounding across the campus, things aren't very quiet around the campus. For a story on when the wearing of spurs originated see tomorrow's Battalion.

Job Interviews

The following companies will conduct job interviews Thursday in the Placement Office on the second floor of the YMCA:

Procter & Gamble Mfg. Co. will interview chemical, civil, electrical, industrial and mechanical engineering majors and candidates for both B.S. and M.S. degrees in chemistry.

The Union Bag-Camp Paper Corp. will interview industrial and mechanical engineering majors and candidates for B.S., M.S. and Ph.D. degrees in chemical engineering and B.S. degrees in chemistry.

McDonnell Aircraft Corp. will

interview aeronautical, civil, electrical and mechanical engineering majors and candidates for B.S., M.S. or Ph.D. degrees in physics.

Allis-Chalmers Mfg. Co. will interview agricultural, electrical, industrial and mechanical engineering majors.

Boeing Airplane Co. will interview aeronautical, civil, electrical and mechanical engineering majors and mathematics majors and candidates for B.S., M.S. or Ph.D. degrees in physics.

Halliburton Oil Well Cementing Co. will interview mechanical, chemical (B.S.), electrical (M.S. only), petroleum (B.S.), and chemistry (M.S., Ph.D.) majors.

Tennessee Gas Transmission Co. will interview accounting, business administration and petroleum majors.

Anti-American

Panama Off Limits Following Violence

PANAMA (AP)—Panama was off limits for Americans living in the Canal Zone today following violent anti-U.S. demonstrations during the 56th anniversary of Panama's independence. At least 82 persons were injured, three seriously.

Crowds of demonstrators, protesting U.S. control of the canal, tore down the American flag at the U.S. Embassy Tuesday, stoned the embassy and the U.S. Information Service office, overturned American autos and battled U.S. canal police for four hours.

The mobs finally were routed by Panamanian National Guardsmen, Canal Zone police and firemen and U.S. Army troops armed with rifles, bayonets and machineguns. The Canal Zone police arrested six demonstrators.

Anti-American demonstrations also took place in Colon, Panama's second largest city at the Caribbean end of the canal. One mob broke into a U.S.-owned railroad station and carried off the cash box. The ticket agent escaped by locking himself in his office.

Troops from the Army's Caribbean Command stood guard along the Canal Zone's borders. The 90,000 Americans living in the Zone were ordered to stay inside the 500 square miles of U.S. territory. The Army cancelled plans for units in march in a Panamanian flag parade in the capital city today.

The target of Tuesday's outbreaks — touched off by Panamanian nationalists — was the unusual hold the United States has over the zone. The United States was granted control of the zone in perpetuity after it helped the Panamanians win their

Social Whirl

Wednesday

Geology Wives Club will hold a sewing demonstration at the Bryan Sewing Machine Center in the Ridgecrest Shopping Center at 8 p.m.

SAFETY INVENTION

JERSEY CITY, N.J. (AP) Anton Saleh has a patent pending on a new car device, a steering wheel that collapses like a telescope.

When the driver is hurled forward in an accident, the wheel column telescopes instead of ramming into his chest. It can be raised or lowered and still turn but has one slight drawback. It costs \$500.

Deadline Nears For ATS Acts

Aggies have six more days to sign up for auditions for the Aggie Talent Show to be held Dec. 8 in Guion Hall.

The auditions will be held Nov. 10th and 11th at 7:30 p.m. in the Memorial Student Center Ballroom.

Those interested in signing up may do so in the Directorate Office in the MSC.

Engineers!

Scientists!

WE'RE LOOKING FORWARD TO MEETING YOU

Last year we had the pleasure of meeting many engineering and science seniors during our visit to the campus. As a result of our discussions, a gratifying number chose to join our company.

We'll be back on the dates below, and this notice is your invitation to come in and see us.

If you're interested in joining a company that's a leader in fields-with-a-future, you'll be interested in the advantages Boeing can offer you. Boeing is in volume production of Bomarc, the nation's longest range defense missile, and is a prime contractor on Minuteman, an advanced solid-propellant intercontinental ballistic missile system.

Boeing is also the nation's foremost designer and builder of multi-jet aircraft. Production includes eight-jet B-52G missile bombers, KC-135 jet transport-tankers and the famous Boeing 707 jet airliner.

Research projects at Boeing include celestial mechanics, solid state physics, nuclear and plasma physics, advanced propulsion systems, and space flight.

Expanding programs offer exceptional career opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil (structures), electrical-electronic and welding engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

We hope you'll arrange an interview through your Placement Office. We're looking forward to meeting you.
