Letters To The Editor

The Battalion welcomes letters to the editor but reserves the right to edit letters for brevity, clarity and accuracy. Short letters stand a better chance for publication since space is at a premium. Unsigned letters will not be published.

Editor,
The Battalion:

In regard to your editorial, "Where to Park?", your proposed solution to the problem is the typical way in which planning problems on this campus seem to be solved. This absurd policy seems to be that of merely filling in spaces between buildings. This is hardly a professional approach to campus planning!

One of the reasons for the obvious lack of planning is the fact that to date there has been no published master plan of the proposed development of the A&M campus. Why hasn't such document been prepared?

What kind of organization and forethought is this? With this

type of thinking in our higher administrative offices, it is easy to see why we are plagued with problems such as parking, student housing, etc.

Do you, Mr. Editor, realize the far-reaching consequences of your proposed parking scheme? Why must the only thing of beauty on the A&M campus be sacrificed to solve our neglected planning problems? I am sure many students do not realize the value of our green areas, and you, Mr. Editor, are one of them. Take away the green areas of the A&M campus and you remove the only physical amenity that the campus possesses!

SIMPLER THAN SIMPLE
PHEONIX, Ariz. (AP) What can be simpler than "yes" or "no?"

"For" and "against," says Arizona Secretary of State Wesley Bolin. From now on, said Bolin, Arizona voters will designate their preferences on proposed using "for" or "against."

"That seems a lot clearer than 'yes' or 'no,'" said Bolin.
