Foamite - Loading Gets Corps Praise

A letter commending the work by members of the Corps of Cadets last Sunday in loading foamite into U. S. Air Force planes for use at the ship fire on the Houston ship channel has been

sent to Cadet Colonel of the Corps William E. Heye by John W. Hill, director of A&M College Station Civil Defense.

The letter is as follows: "Commander Corps of Cadets A&M College of Texas Campus Dear Sir:

On behalf of the Brazos County Civil Defense and the A. and M. College-College Station Defense, I wish to express to you our sincere appreciation for the assistance given by Units of the Corps in moving 90,000 pounds of foamite on Sunday, November 8, 1959, for use by the Houston Civil Defense on the fire involving the SS Amoco Virginia in the Houston Ship Channel.

The A. and M. College-College Station Civil Defense was requested to assist in moving the 90,000 pounds of foamite from the Animal Husbandry Pavilion on the Campus to Easterwood Airport, for transfer to Houston by United States Air Force planes.

Our local Civil Defense organization mustered the available manpower, but found itself short. A call to the Corps of Cadets for voluntary manpower brought a wonderful response. The Corps personnel were most cooperative, and the operation was carried out most orderly. I would like to commend the Corps on its organizational ability as shown in this activity.

Please pass on to the individual Units involved the appreciation of our local organizations for their voluntary assistance in this time of emergency.

Sincerely Pohn W. Hill, Director A. and M. College-College Station Civil Defense"

DeGaulle Looks Toward Leading Western World

By JAMES MARLOW

Associated Press News Analyst WASHINGTON (AP)—French President Charles de Gaulle, iron-willed at 68, acts like a man determined, if he has to, to take over the leadership of the West. He has already asserted a lot of it.

This week the Frenchman, so proud he dislikes using reading glasses in public, dictated to his Western partners and the Soviet Union the time and conditions for a summit conference.

At an extraordinary news conference De Gaulle, who heads a second-rate power but persists in thinking of it in terms of grandeur, put on an amazing show of memory, calmness and strength.

British Prime Minister Harold MacMillan's attitude toward a summit meeting has been: The sooner the better. President Eisenhower and Premier Nikita Khrushchev have seemed to favor such a meeting sooner rather than later.

But De Gaulle, after taking over France and giving it more stability than it has had since World War II, decided by himself that haste was unwise. He even put a stiff "if" on any summit conference at all.

Before there's a summit, he said, he must meet with Khrushchev in March; there must be an improvement in the international climate and the Western partners must be agreed on how to deal with Khrushchev.

And, just to be sure, he told Eisenhower and MacMillan, his pre-summit get-together with them in December should be followed by another after he talks with Khrushchev in March.

This is only part of his statements at the news conference. They ranged from pensions, for French veterans of World War I to a prediction the Chinese Communists would ultimately be their Soviet friends' greatest peril.

Altogether the text of his news conference toop up a solid newspaper page.

In the end De Gaulle may have proved extremely wise in insisting upon complete preparations for the summit. Otherwise, he warned, the summit may turn into disaster.

Summer Jobs

The following companies will interview summer job applicants Tuesday in the Placement Office on the second floor of the YMCA:

Soil Conservation Service will interview agricultural, engineering, civil engineering, agronomy and range management majors for positions as summer student trainees in the fields of soil conservation, range conservation, engineering and soil science.

Travelers Insurance Co. will interview economics, agricultural economics and business administration majors for summer jobs.

CHARLES A. ALDERS Longview, Texas Will be given a free barbecue plate at the BARBECUE PIT Ridgecrest Shopping Center Offer good until 8:30 p. m. Nov. 14

"Whad'ya say we don't come back from Houston until after they build the bonfire?"

JOB INTERVIEWS

Monday Bell Helicopter Corp. will interview aeronautical, electrical and mechanical engineering degree candidates for openings in instrument and electrical maintenance, electrical engineering, development, research and manufacturing operations.

Tuesday Buffalo Forge Co. will interview mechanical engineering degree candidates for positions in sales engineering, research, development and staff engineering.

Jefferson Chemical Co. will interview chemical engineering, mechanical engineering and chemistry degree candidates. Jobs are available in research, process engineering and design.

Eighth U. S. Civil Service Region will interview any majors at any degree level who are interested in civil service careers.

Positions are open in management, as accountants, engineers, junior scientists, student trainees, chemists and physicists.

The Travelers Insurance Co. will interview economics, agricultural economics and business administration degree candidates for positions as agency service representatives.

Pittsburgh-Des Moines Steel Co. will interview architectural engineering and civil engineering degree candidates for positions as engineer trainees.

Soil Conservation Service will interview agricultural engineering, civil engineering, agronomy and range management candidates for employment in soil conservation, range conservation, soil science and engineering.
