

Governor Makes Sunday 'Safety Sunday' in Texas

Sunday has been designated by Governor Price Daniel as "Safety Sunday" in Texas to signal the opening of the Christmas-New Year's holiday traffic safety campaign throughout the state.

The governor's proclamation said efforts "to end death and destruction on the streets and highways of Texas will not fully succeed until each driver comes to realize that traffic safety is a spiritual concern."

The governor urged each citizen to help "awaken in the conscience and mind of every driver the realization that negligence at the wheel of an automobile is a transgression of God's Own Command, 'Thou Shalt Not Kill.'" He also asked the assistance of every pastor in Texas by reminding each church member of his moral responsibility in obeying the traffic laws.

"Since December is always one of our deadliest months," the Governor concluded, "our campaign will cover the whole month and reach a climax during the holidays, when human life should be more precious to all of us because of the special occasion we observe."

AF Announces New Pilot Program

Students may now apply for aviation cadet training or Air Force Officer Training School and have their applications processed during the Christmas holidays.

Training availability dates, which must be within one year after graduation, may be indicated on the application.

A processing period for aviation cadet and Officer Training School applicants will be held at Randolph Air Force Base Dec. 21, according to M/Sgt. Ray Wagner, Bryan area Air Force recruiter. Applications must be submitted immediately in order to be eligible for this processing period.

Further information may be obtained by writing to M/Sgt. Ray Wagner, Air Force Recruiting Office, Box 5, Room 3, Post Office Bldg., Bryan. Information may also be obtained by calling TA 2-3061 in Bryan.

Aviation Cadets is a program for training pilots and navigators and is open to single male high school graduates between the ages of 19 and 26½. Officer Training School is open to both male and female college graduates and college seniors who are within 135 days of graduation. These applicants must be between the ages of 19 and 27½. This program offers commissions in administrative and technical fields.

Numerous organizations have already pledged their support of the annual campaign to reduce the holiday highway slaughter. In anticipation of the Department of Public Safety's annual prediction of holiday deaths, a statewide program is now getting under way through the coordination of the Texas Traffic Safety Council, the state's official unit, the Governor's Highway Safety Commission and the Texas Safety Assn.

Members of the Outdoor Advertising Assn. of Texas and other outdoor poster firms have contributed space for about 800 highway signs which will carry the Governor's holiday safety message, "Don't Let A Collision Spoil Your Holiday." The posters were contributed by organizations and individuals interested in the Texas traffic safety movement.

"Last Christmas," Governor Daniel recalled, "the tremendous effort put forth in behalf of traffic safety during the holiday season saved one-third of the lives expected to be lost. The prediction anticipated 95 deaths; there were actually 63 deaths. If Texans can do this once, they can do it again, and I am certain we will again receive the same fine cooperation from everyone that helped bring about the major reduction last year."

But he reminded Texans that traffic deaths are up about 6 percent for the first ten months of this year over the same period in 1958, and fatal crashes are up 9 percent.

Student Jobs Open in Europe

FRANKFURT, Ger., Dec. 3—Today the ASIS released the number of summer jobs that will be available in Europe to U. S. university students in 1960.

According to Ramsey V. Harris, European Director of the American Student Information Service, 3,000 summer positions, all paying the standard wage of the country in which they are located, are available in Germany, France, England, Belgium, Holland, Luxembourg, Scandinavia, Austria and Spain.

Most of the positions are in unskilled or semi-skilled fields. Openings include farm work construction work, resort work, factory work, hospital work, and a number of office and miscellaneous positions. Although Germany and France offer the majority of summer openings, there are a few construction positions available as far away as Central Africa.

ASIS, a non-profit organization, also helps American students arrange their travel to Europe, provides a mail service, fascinating inside information on Europe, and many other educational and recreational activities. For more information on these subjects, students may write to American Student Information Service, o.V., Jahnstrasse 56a, Frankfurt/Main, Germany.

Roundtable Leaders

Dr. Arturo Arana y Freg, professor of history at the University of Mexico City and Dr. Ross J. Pritchard, chairman of the Department of International Studies, Southwestern at Memphis, lead a discussion group at the Fifth Student conference on National Affairs. James Rhodes A&M student stands by to record for the conference (at right).

Apartment Group Sets Party Monday

The annual College Apartment Council Christmas party for students living in college operated apartments will be held Monday at 7:30 p.m. in the Fellowship Hall of the A&M Presbyterian Church.

The Apartment Council invites everyone residing in college apartments to attend.

The program will include Christmas carol singing and a special visit from Santa Claus. Santa will present bags of candy to the children at the party.

Children may have their pictures taken on Santa's lap. The pictures will cost 50 cents and will be available before the Christmas holidays.

Renk Dairy Farm, Sun Prairie, Wisconsin

Greener pastures for America's second largest telephone system

Nowhere in the United States is the economic "grass" greener than in the great agricultural areas of our nation. New farm equipment has increased productivity. New home conveniences have brought a higher standard of living, and demands grow for an even better way of life.

Part of this better living has been the demand for more and better Communications.

It follows that as these rural areas expand and prosper, so does General Telephone. For these are the areas we serve.

In Wisconsin, for instance, dairy farms are producing more milk of better quality from fewer cows. Wisconsin country homes are bright and up to date. Their standard of living is equal to or better than that of their city brothers.

In this one state, Gen Tel plans to spend more than \$30 million in the next few years improving and increasing telephone services and facilities.

This is a typical example of how we strive not only to meet today's communications needs—but to answer tomorrow's.
