

Aggies on Duty

An A&M graduate, Col. Benjamin H. Pochyla, '29, has been promoted to brigadier general. He has been named commanding general, U. S. Army Signal Training Center, Fort Gordon, Georgia, effective March 1.

Brig. Gen. Pochyla is a veteran of five campaigns in the Pacific Theater of Operations during World War II. He is a former cavalry reserve officer and was an industrial engineer with the Bell Telephone System prior to the war.

At A&M he received his BS degree in mechanical engineering, was a cadet first lieutenant in Troop D, cavalry and a member

of the Ross Volunteers. He is also a graduate of the Command and General Staff School, the Armed Staff College and the Army War College. He was on the campus of A&M last fall as a representative of the officer of the chief signal officer.

'The Red Inn' Showing Set For Tonight

The Modern Language Club will present "The Red Inn," a French film with English sub-titles, starring the French comic, Fernandel, in Room 113 of the Biological Sciences Building at 7:30 p.m. on Friday, Feb. 19.

"The Red Inn" is a comedy about three people who plot to kill the lodgers that stop for the night in their small inn. Fernandel, playing the part of a monk and also a guest, learns of the impending disaster from the innkeeper's wife in the confessional. His problem is to persuade the guests to leave the Inn, without violating the secrecy of the confessional.

Tickets for the presentation are now available in Room 129, Academic Building, and will be sold on a first-come first-served basis.

Humble will interview on the Campus February 15, 16 and 17

Interviewing teams from Humble Oil & Refining Company will be on the campus February 15, 16 and 17 to interview students graduating at all degree levels in chemical and petroleum engineering; and in chemistry, physics and mathematics at advanced degree levels only.

Also, students in chemical, petroleum and mechanical engineering who will have completed at least their third year of college work by June, 1960, will be interviewed for summer employment.

Engineers and scientists at Humble share in the dynamic progress and growth of a leader in the petroleum industry. Humble is one of the leading producers of crude oil in the United States and is a completely integrated oil company. Humble's Baytown Refinery, one of the largest in the world, is engaged in Refining and Petrochemical Manufacturing. Research centers in Houston, for development of better methods of exploration and production, and at Baytown, for research in manufacturing, are making valuable contributions to the petroleum industry.

A Quick Look at the Humble Company

Area of Operation: Texas, Louisiana, California, Mississippi, New Mexico, Florida, Alabama, Arizona, Georgia, Washington, Oregon, Alaska.

Refining Capacity: 282,000 barrels daily.
