

THE BATTALION

Volume 59

COLLEGE STATION, TEXAS FRIDAY, FEBRUARY 26, 1960

Number 74

Private Sources

System Board Accepts Funds

Special to The Battalion

EULESS, Tex.—Funds from private sources totaling \$275,875.84 to support scholarships, fellowships, grant-in-aid for scientific research and for special gifts and awards were accepted today by the A&M College System Board of Directors, meeting here.

The funds were accepted for six parts of the System.

Development Named

A \$2,500,000 housing development for married students at A&M, nearing completion, was named by the board for the late F. W. Hensel, long-time landscape architect for A&M and a member of the college's staff for 36 years.

The directors approved "Hensel Apartments" as the official name of the 252-apartment development located near the present College View apartments.

Lion's Share

Of the \$275,875.84 accepted by the board, A&M received the lion's share, grabbing \$215,180 of which \$83,725 was earmarked for grants-in-aid for research. The college also received \$25,985 in scholarship funds and the remainder went to special gifts and for special equipment.

The Texas Agricultural Experiment Station received \$52,265.84 of which \$41,336.56 was in support of 23 research studies. The remainder was in gifts or loans of livestock, feed, seed and special equipment.

The Texas Transportation Institute received \$1,475 in support of the Thomas H. MacDonald Chair of Transportation, bringing the total received in support of the chair to \$103,669.47.

Continuous Faculty Member

Hensel, for whom the apartments were named, served continuously as a member of the A&M faculty from 1913 until his death in 1949. The park adjoining the new apartments was named Hensel Park shortly after his death.

Joining the college as an instructor in the Department of Horticulture in 1913, Hensel was made head of the newly formed Department of Landscape Art in

1925. As head of the Department of Care and Maintenance and Grounds and as College Landscape Architect, he was largely responsible for the design of early landscape development of the A&M campus as well as Arlington, Tarleton and Prairie View A&M.

Designed Hospital Grounds
He also designed and developed plans for grounds of the Veterans Administration Hospital at Temple.

Hensel is survived by his widow, Mrs. F. W. Hensel Sr. of 103 Lee St. in College Station and a son, F. W. Hensel, assistant director of the Placement Office.

High School Career Day Set March 5

High School Career Day will be held on the campus Saturday, March 5, for high school male seniors from all over the state, Dean of Students James P. Hannigan announced this morning.

The high school seniors will see a review by the Corps of Cadets, hear talks by President Earl Rudder, Dean of Agriculture G. M. Watkins, Dean of Arts and Sciences Frank Hubert, Dean of Engineering Fred Benson and Dean of Veterinary Medicine A. A. Price; eat in the college dining halls; and attend open house in the four teaching schools of the college.

Hannigan said the program is being held through the cooperation of campus hometown clubs, exes clubs, the College Inter-Council and Campus Visitors committees, the Department of College Information and Publications and the Association of Former Students.

"At present only 200 names have been turned in, but we know that there are several hundred more high school seniors who will be attending. If all presidents of hometown clubs and others who know of groups coming to the campus next Saturday would turn in a list of names to my office, it would help us in making plans for the visitors," Hannigan said.

Brooks Hays
... Great Issues speaker

Brooks Hays To Speak Here Sunday at 3

Brooks Hays—statesman, churchman, lawyer, author—will speak at Guion Hall Sunday at 3 p.m. under auspices of the Great Issues Committee of the Memorial Student Center.

Hays has announced as his topic, "Meditations of a Troubled Moderate" from his well known book, "A Southern Moderate Speaks."

A veteran Congressman from Arkansas, with eight terms to his credit, Hays last year was appointed to the Tennessee Valley Authority's board of directors, following nomination by President Eisenhower and unanimous confirmation by the Senate.

In Congress, Hays has served on many committees, including banking and currency and foreign affairs, and in 1955 was named to the United States delegation to the United Nations. Two years ago he was appointed to the Select Committee on Space Exploration.

Although he has become a nationally known personality through these and other political activities, Hays is equally well known as a churchman. He served two years as president of the Southern Baptist Convention—a post held by few laymen—and in 1959 was designated Lay Churchman of the Year by the Religious Heritage Foundation.

A graduate of George Washington University Law School, in Washington, Hays practiced law, served as assistant district for Arkansas and held several legal posts with the Farm Security Administration, Department of Agriculture. He relinquished these posts in 1942 to run successfully for Congress.

The public is invited to hear Hays' address. Single admissions may be purchased at the hall by those who do not hold Great Issues season cards.

Class of '62 Makes Plans For Annual Ball Saturday

Sweetheart Vote Highlights Dance

By AL VELA
Battalion Staff Writer

The Class of '62 will have their big event of the year Saturday night when the annual Sophomore Ball will be held in Sbis Hall from 9 to 12.

Highlight of the ball will be the selection of the Sophomore Ball Sweetheart from a field of five lovelies picked from pictures submitted by members of the Class of '62.

Five Finalists

The five finalists in the Sophomore Ball Sweetheart and their escorts are:

- Marianne Hooke, from Weslaco, who will be escorted by Ben Andrews.
- Nancy Ann Hug, from

Tabler Slated For Address Monday at 4

William B. Tabler, internationally known architect, will deliver an address Monday at 4 p.m. in the Biological Sciences Lecture Room. He is being presented by the Division of Architecture in one of their series of guest lectures this semester.

He will talk on hotel architecture in a lecture open to the public.

Tabler is architect for the Statler-Hilton hotels throughout the world and at present is working on a hundred-million dollar construction program.

A graduate of Harvard University, class of 1939, with a master's degree, he was highest in his class. He is the holder of the American Institute of Architects medal.

Tabler has been a registered architect since 1940 and is currently registered in the National Council, California, Colorado, Connecticut, Florida, Illinois, Michigan, New York, North Carolina, Ohio, Pennsylvania, Texas, Wisconsin, District of Columbia and Puerto Rico.

Following his graduation, he he was connected with Holabird and Root, architects and engineers, and worked on many commercial buildings including the Statler Hotel in Washington, D. C.

He served in the Navy, 1943-1946, as a lieutenant in the Civil Engineering Corps with the Seabees in the Pacific and made plans for the naval base on Saipan and other installations.

San Antonio, who will be escorted by Tommy Hohman.

• Peggy Hagood, from Bellaire, who will be escorted by Gary G. Lively.

• Dorothy Berry, from College Station, who will be escorted by Bud Rudder, Jr.

• Barbara Byrd, who attends Texas Christian University, will be escorted by Bill Harrison.

The five finalists will be introduced to the Sophomore Class during the first dance intermission and the new Sophomore Sweetheart will be presented to the audience during the second intermission.

Music will be furnished by the Ed Sullivan Orchestra, one of the most popular in the Southwest area, particularly in Houston, where its lists of credits include hotels, private clubs, country clubs, conventions and special university and high school dances.

Officers of the Sophomore Class are: Daniel Deupree, president; Roque Rodriguez, vice president; Charles Moore, secretary-treasurer; and Gary Lively, social secretary.

Rodriguez is in charge of the committee for dance and decorations and Moore heads the committee for ticket sales.

Honored guests include Chancellor and Mrs. M. T. Harrington, President and Mrs. Earl Rudder, Dean and Mrs. A. A. Price, Dean and Mrs. F. J. Benson, Dean and Mrs. G. M. Watkins, Dean and Mrs. F. R. Hubert, Dean and Mrs. J. P. Hannigan, Col. and Mrs. Joe E. Davis, Col. and Mrs. Frank L. Elder, Col. and Mrs. Charles E. Gregory and Col. and Mrs. Frank S. Vaden, Jr.

All sophomores are encouraged to buy their tickets as soon as possible, to avoid confusion at the door. The tickets are on sale at the cashier's window on the Ground Level of the Memorial Student Center.

Junior Play

A&M Consolidated juniors rehearse a scene from tonight's production of "Antic Spring," one of three one-act plays being presented as part of the "Theatre Trio." Donna Dale, Blossom; Bob Laurensen, Elbert; Susan

Wormeli, Ginger; Tom Ledbetter, Robert; Condy Pugh, Sam; and Suzanne Sorenson, Gwendolyn; rehearse a scene in the presentation. See story on Page 3.

Toward Boredom, Failure

Aimlessness Warning Given By Howard in Guion Address

By TOMMY HOLBEIN
Battalion Staff Writer

"Aimlessness is the surest way to boredom and failure in life, and to have a worthy goal or ambition contributes much more than we realize to our everyday happiness and ultimate satisfaction," said Dr. Herbert R. Howard in his convocation talk given this morning in Guion Hall at 9 a.m.

"Thinking, then, in terms of what we are to become, it is well to consider some practical ways to evaluate what we are becoming. One must answer for himself these four questions: 'What do other people think of you?'; 'What do you think of other people?'; 'What do you think of yourself?'; 'What think ye of Christ?'"

Considering the first question,

Dr. Howard said, "Reputation isn't everything. Character is most important, but a man is foolish to disregard the esteem of his fellows. We should be concerned to have a good name, and we do this by appreciating the accumulative consequence of the most seemingly trivial and ordinary experiences of life. Honesty in little matters proves one to be honorable far more than any honorable big thing we may decide to do, and so it is with every facet of life."

The second question Dr. Howard presented was, "What do you think of other people?" He gave as an old saying applicable to the question, "Make friends and your friend will make you."

"This is enlightened selfishness and should not be condemned in anyone. Those who want friends should first prove themselves to be one. Eventually, people learn what you think of them, and what you think of them will determine to a great degree what you are," said Dr. Howard.

34th Highway Course

Set March 8-10 in MSC

The 34th annual Highway Short Course, which covers the latest developments and problems in highway engineering, will be held March 8-10 in the Memorial Student Center.

Charles J. Keese, professor of highway and traffic engineering in the Department of Civil Engineering and general chairman of the short course, said the meet-

ing will cover urban roadways, highway design and traffic control, management, pavements and construction operations, structures and hydraulics, rights-of-way and maintenance operations.

Keese said that about 80 persons will speak or otherwise participate in the three day program.

Army Successfully Fires 'Pershing'

By The Associated Press

America's newest ballistic missile, the Army's "shoot and scoot" Pershing, performed perfectly on its first test flight Thursday.

Trailing smoke from its solid fuel engine, the 32-foot rocket rose quickly from its launcher and darted into the sky. The smoke plume ended abruptly after 40 seconds as the first stage burned out.

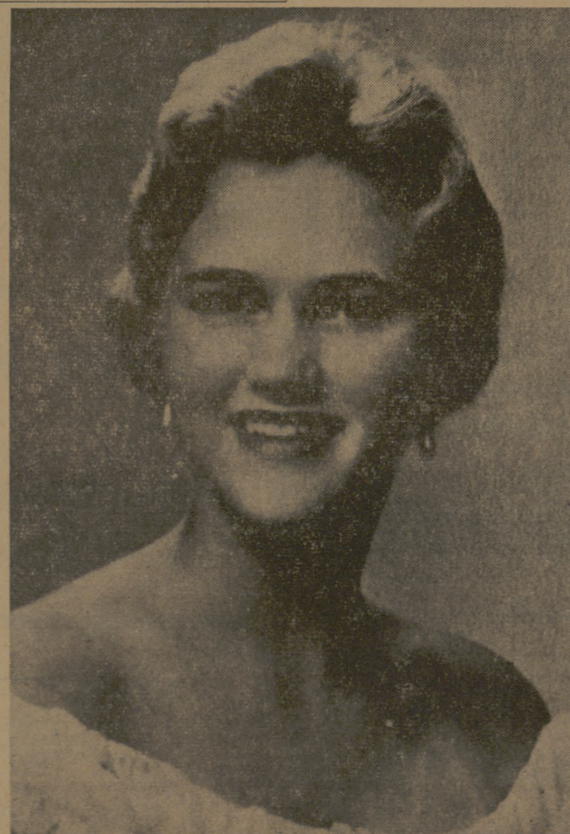

A dummy second stage hurtled about 35 miles into the Atlantic.
