

Filing Still Under Way

Students have until Wednesday, March 23, at 5 p.m. to file for election in the class elections to be held Thursday, March 31, according to W. D. (Pete) Hardesty, organizations adviser.

The filings must be made at the Cashier's Window in the ground level of the Memorial Student Center.

Head Yell Leader Contrary to the report in Tuesday's Battalion, the Head Yell Leader will be determined by a majority vote of the Yell Leaders from the Class of '61. The Battalion erroneously reported Tuesday that the Head Yell Leader would be appointed by the Yell Leader Committee.

All candidates for Yell Leader (two to be selected from the Class of '61 and two from the Class of '62) must be approved by the Yell Leader Committee.

Runoffs Slated Runoffs in the class elections will be held Wednesday, April 6. All applications will be checked by the Registrar's Office for grade point ratios, total hours and classification.

All candidates filing for class office must be academically classified with their class, Hardesty said.

Classified With Classes Students are classified with their

respective classes as follows: a freshman must have not more than 30 hours, a sophomore must have 30 to 59 hours and a junior must have 60 to 94 hours.

The Class of '61 will elect a president, vice president, secretary, social secretary, historian, student entertainment manager, MSC Council delegate and two yell leaders.

The Class of '62 will elect a president, vice president, secretary-treasurer, social secretary, MSC Council delegate and two yell leaders.

The Class of '63 will elect a president, vice president, secretary-treasurer, MSC Council delegate and social secretary.

Officer Requirements Class officer candidates must be academically classified with their classes both at this time and at the beginning of the school year. They must also have a minimum grade point ratio of 1.0.

Student Entertainment Manager candidates must be of junior classification and have a minimum grade point ratio of 1.25. They must also have the consent of the Music Coordinator and at least one year's experience on the Student Entertainment Staff. The manager will be responsible to the Music Coordinator.

Yell Leader candidates, in addition to the approval by the Yell Leader Committee, must have minimum grade point ratios of 1.25. Requirements for the MSC Council include academic classification with the student's class and a minimum grade point ratio of 1.0.

'Miss Photogenic of 1960'

Melva Jo Cox, 17-year old daughter of Mr. and Mrs. W. B. Cox of 607 Esther Blvd. in Bryan, was named "Miss Photogenic of 1960" at the recent 11th annual A&M Mechanical Conference and Photo Workshop, sponsored by the Department of Journalism and the Texas Press Assn. The Stephen F. Austin High School senior was the third annual winner of the title. As a prize, she was awarded her choice of one of four costumes from Sears Roebuck and Co. and a dozen roses from TPA President Tom Whitehead and Donald D. Burchard, head of the Department of Journalism. Three girls from Stephen F. Austin High School and two from A&M Consolidated High School were entered in this year's contest.

School Board Workshop Set In Memorial Student Center

The 1960 School Board Workshop Series area meeting will be held at 10 a.m. April 11 in the Memorial Student Center.

Dr. Paul Hensaring of the Department of Education and Psychology and local workshop coordinator, said the meeting is designed to help school boards and superintendents and other interested citizens study school board responsibility and effectiveness.

The workshops also will be of interest to local P-TA leaders, he said, and are open to the public.

Keynote speaker will be Dr. Frank W. R. Hubert, dean of the School of Arts and Sciences. His subject will be "The Role of the

Local Board in Texas Public Education."

Subjects to be discussed in the overall workshop include introduction to boardmanship, the board and school program, school finance, board-superintendent relations, board procedures and functions and the board and the community.

Donald G. Nugent of Austin, executive director of the Texas Association of School Boards, the sponsoring agency, said the A&M workshop is expected to service boards in Lee, Brazos, Robertson, Leon, Madison, Grimes, Walker, Montgomery, San Jacinto, Waller, Washington, Burleson, Milam, Falls, Limestone and Freestone counties.

West Should Follow

Ike, Adenauer At Agreement On Basic Policies

WASHINGTON (AP)—President Eisenhower and Chancellor Konrad Adenauer were reported in basic agreement today on the major policy lines which the West should follow in negotiating German issues with the Soviet Union. The negotiations are being prepared as part of the Big Four summit meeting in Paris next May.

Eisenhower scheduled a morning news conference at which he was certain to be questioned about his 1 1/2-hour meeting with Adenauer Tuesday.

The chancellor was guest of honor at a National Press Club luncheon where he was due to speak and respond to questions.

Prior to the Press Club session Adenauer arranged to meet with labor leaders and with Dean Acheson, secretary of state under former President Truman.

Adenauer's foreign minister, Heinrich von Brantano, said following the discussions at the White House and State Department: "I am leaving the State Department convinced there are no differences between Bonn and Washington as regards all decisive questions."

Adenauer, on his way to Tokyo, came here to seek assurance that the President was dead set against negotiating any summit agreement with the Soviet Union at the expense of the position of the Western powers in West Berlin.

The 84-year-old chancellor is known to feel that the present arrangement whereby U. S., British and French forces on the scene guarantee the independence of West Berlin cannot be improved upon by any negotiated agreement.

U. S. officials said the President gave assurance that there would be no compromise on basic protection for the position of West Berlin as a Western city surrounded by East Germany.

A joint statement issued following the White House meeting said that Eisenhower and Adenauer reaffirmed their determination to try to achieve "the reunification of Germany in peace and freedom."

"They further agreed," the statement said, "that the preservation of the freedom of the people of West Berlin, and their right of self-determination, must underline any future agreement affecting the city."

The 1 out of 20 that didn't get smoked

There's a lot of satisfaction in pointing out something good to a friend. That's why it often happens that one cigarette out of a pack of Dual Filter Tareytons never does get smoked.

People break it open to demonstrate its unique Dual Filter containing Activated Charcoal. They may not know why it works so well, but they do know this: It delivers far more than high filtration... it brings out the best taste of the best tobaccos—as no single filter can!

Try a pack of Tareytons. We believe the extra pleasure they bring will soon have you passing the good word to your friends.

HERE'S HOW THE DUAL FILTER DOES IT:

- 1. It combines a unique inner filter of ACTIVATED CHARCOAL... definitely proved to make the smoke of a cigarette mild and smooth...
2. with an efficient pure white outer filter. Together they bring you the real thing in mildness and fine tobacco taste!

Cash Scholarship Made Available By Ralston Purina

The Ralston Purina Scholarship, a \$500 cash stipend, will be available for the 1960-61 school year, according to Dr. T. E. McAfee, professor in the Department of Agronomy and chairman of the scholarship committee for the School of Agriculture.

According to McAfee, the scholarship is awarded by the Ralston Purina Co. of St. Louis, Mo., and is open to any junior majoring in agriculture.

It is designed to give recognition and assistance to undergraduate students in agriculture, and also to further activity and research in this field.

Selection for the award will be made in the spring, and will be based on scholastic standing, leadership, character, extra-curricular activities, sincerity of purpose and financial need, McAfee said.

Application for the scholarship should be made through the office of the Dean of Agriculture, with the application forms completed and returned by April 15, he added.

The scholarship is one of several made available annually in each of the 50 land-grant colleges and state universities in the U. S., and in Puerto Rico and Canada.

ASME Members Attent Gas Meet

Six members of the student chapter of the A&M American Society of Mechanical Engineers attended the annual meeting of the Gas Turbine and Hydraulic Division of the ASME, held in Houston last week. They acted as student aides for the meeting.

They were accompanied by their faculty advisor, P. D. Weiner, assistant professor in the Department of Mechanical Engineering. Students attending were C. A. Bollfrass, C. E. Carter, A. D. Branum, O. V. Hoernig, R. L. Maxwell and V. E. Malanax.

Federal Aviation Agency Reveals New Title, Program

In its accelerated program to greatly improve air safety, the Federal Aviation Agency has announced a new name and important new and stepped-up pilot services at Bryan College Station's FAA Air Traffic Communication Station.

It will now be called FAA Flight Service Station and will still be located on Easterwood Field.

William S. Hall, station chief, said today, "There are more than 250,000 individual flights a day over the nation. Over 90 per cent of these flights are made under FAA's Visual Flight rules, and only 10 per cent of these flights are made on instruments. Most of our work here at Bryan-College Station's FAA Flight Service Station aid this large group of visual flying pilots."

Last year more than 13,000 pilots responded to the radio call "College Station Radio" and were helped to make their flight safer.

Hall explained that flight plans, filed by pilots under Visual Flight Rules, now are being teletyped to each FAA Facility along the planned flight route, instead of only to the destination station.

Each FAA Flight Service Station which receives a flight plan computes the time at which the airplane is due over each station's area. The FAA specialist on duty is able to immediately relay to the pilot any last minute weather changes or other flight hazards ahead.

Weather Reporting System "The new system," FAA Station Chief Hall said, "also makes possible the maximum use of the new pilot weather reporting system recently established between the FAA, the military and civilian pilots. This is a voluntary general weather reporting plan under which each pilot aloft reports any weather he is flying in or can see that might cause a hazard to fly."
