## Greer Forecasts More Divided Roads By End of Decade

Texans can expect some 2,000 miles of divided interstate highways, costing \$1,400,000,000, by the close of the 1960's, D. C. Greer, state highway engineer, told some 100 delegates to the second Conference on Transportation meeting here Thursday.

Speaking at a one-day conference dealing with all phases of transportation, Greer described the future growth of Texas' highway system as being tied to the idea of "putting the money where the traffic is."

Most super interstate highways, and state and federal divided highways not included in the interstate system, will be built near metropolitan centers. But Greer said the State Highway Department also has plans for some 2,000 miles of two-lane highways and 5,000 miles of new farm-to-market roads during the next ten years.

He characterized "featherbedding work rules and other handicaps upon railroad transportation" as "having led alarmingly down the path toward destruction and nationalization."

J. Robert Cooper, chairman of the board of the American Trucking Assn., painted a bright future picture for his industry, and for Texas, declaring that the State was not only one of the fastest growing in the nation in terms of industrialization, but that this industrialization was outstripping the current rapid population growth as well.

that the result of post-war practices had seen some 600,000 railroad jobs wiped out as a result.

## PHI ETA SIGMA PLEDGES

Wedemeyer, Waco mechanical engineering major; George A. Wiederaenders, Vernon accounting major; Otto C. Wilke, Burton chemistry major.  
 Jack G. Wilson, Pasadena business administration major; David A. Carter, Houston pre-medicine major; James A. Dotson, Hearne education major; Charles R. Mauldin, Bryan English major; and Charles F. Skripka from San Antonio.

## Record 13,970 Visit Campus During March, Downs Reports

Four large events brought a record number of 13,970 visitors to the A&M campus during the month of March, P. L. Downs Jr., official greeter of the college, announced today.

The four events were the fifth annual High School Career Day, 1960; 34th annual Highway Engineer Short Course, 1960; Spring Military Day, 5000; Inauguration of President James Earl Rudder, 5000.

A total of 28,465 visitors were on the campus of A&M from May 31, 1959, to April 1, 1960.

From May 31, 1949, to May 31, 1959 there were 592,276 visitors on the campus, Downs reports, and the total for 10 years and the past 10 months is 620,741.

The visitors attended short courses, conferences, class reunions and other scheduled meetings.

There were 21 different groups on the campus during March.

## Contractor To Talk Monday at 7:30 p.m.

T. M. Marshall, president of the South Texas Chapter of the Associated General Contractors in Corpus Christi, will speak Monday night on "Labor Relations in the Construction Industry."

Marshall's talk will be at 7:00 p.m. in Room 231 of the Chemistry Building.

The talk is sponsored by the Divisions of Architecture and is open to the public.

## Junior Injured Training Horse

Tom Hastings, 20-year-old junior agriculture major from Dallas, received a broken left thigh Thursday about 5 p.m. when the horse he was breaking for riding fell, pinning Hastings.

The injury occurred on the Arhoporn ranch, eight miles south of Wellborn. Hastings was reported by hospital officials as in good condition Thursday night.

**FIXED FOR LIFE**

The car may be repaired but this small victim will never be the same. All because some driver gambled with speed limits, cheated a stop sign or ignored road markings. Most accidents can be traced to such law violations. Each day they injure, cripple and kill thousands. Help end this frightful toll. You can! Drive carefully. Obey the law. Insist that others do, too. Where traffic laws are strictly obeyed, accidents go down!

Support your local Safety Council

**WE MUST FACE THESE FACTS**

Last year, traffic accidents injured 1,400,000—disabled them beyond the day of the accident. Millions more suffered the pain and misery of "minor" injuries. 150,000 were children, 5 to 14.

Last year, traffic accidents killed nearly 38,000! 2,500 were children of grammar school age. And this year an INCREASE in deaths is threatened!

How long must this go on? YOU—the men and women behind the wheel—can answer this. Because YOU are the No. 1 cause!
