

THE BATTALION

Volume 59

COLLEGE STATION, TEXAS TUESDAY, APRIL 5, 1960

Number 95

Space Administrator
... Great Issues speaker

Space Expert Speaks Tonight

Dr. T. Keith Glennan, administrator of the National Aeronautics Space Administration, will speak in Guion Hall tonight at 8 on the "United States Space Program."

The program is being presented by the Memorial Student Center Great Issues Committee. Glennan arrived in Houston shortly after noon and was brought to the campus by college plane. In his job as administrator, Glennan heads a staff of scientists, engineers, technicians, and other employees engaged in research and development in aeronautics and space matters. He is a member of the president's National Aeronautics and Space Council.

Yale Graduate
He is president-on-leave of the Case Institute of Technology in Cleveland, Ohio, which he has headed since 1947.

Vandals Hit Over Weekend With Swastikas
Unknown vandals hit the campus and College Station sometime Saturday night. The B'nai B'rith Hillel Foundation and three autos, one in College Station and two on the campus, were painted with swastikas by the paint-smearing vandals. Two swastikas were painted on the doors of the Hillel building and a part of another was started on the white brick front of the structure. The Hillel Foundation building is located at 800 Jersey St. A foreign car in the College Station was painted with the one of the other swastikas and two cars in one of the college parking lots were painted. College Station Police Chief Lee Norwood and Chief of Campus Security Fred Hickman are investigating.

Scientists Plan April Talks

Three Scientific Lectures Set

Three nationally and internationally known scientists will present lectures here in April. Dr. J. B. Page, dean of the college, has announced. They are Dr. A. G. Everson Pearse of the Postgraduate Medical School in London, England; Dr. Olle Dahl, director of Research of SCAN, Union of Scania Co-operative Slaughter in Sweden; and Dr. Paul W. Merrill, astronomer at Mount Wilson and Palomar Observatories at Pasadena, Calif. Dr. Pearse, whose subject is "Enzyme Histochemistry and the Biological Sciences," will be heard at 8 p.m. Tuesday in Room 113 of the Biological Sciences Building. Dahl will talk on "Animal Science, Food Technology and Meat Research" at 3:30 p.m. Wednesday in the Animal Industries Building Lecture Room. Merrill's subject is "Cosmic Chemistry" and will be heard at 8 p.m. Thursday in Room 113 of the Biological Sciences Building. Dean Page said the public is invited to the lectures. Dr. Pearse is a consulting path-

ologist at Hammersmith Hospital in London. He also has been a Reader in Histochemistry at the University of London since 1946 and carries on research at the Postgraduate Medical School. He was awarded degrees in medicine, natural science and pathology from Cambridge. In 1950, he received the Horton-Smith Prize from Cambridge for his M.D. thesis. His research interests are in histochemistry, particularly enzyme histochemistry and its application to biology and medicine. A native of Sweden, Dahl received his doctorate in the biochemistry department at the University of Lund. He has had 17 years experience in the field of meat and biochemistry research and has published 43 technical papers in the field of meat and has six other papers submitted for publication on biochemical research. The scientist has been director of research at SCAN, the Union of Scania Co-operative Slaughter, since 1942. SCAN is the largest packing association in Sweden. He has been a regular partici-

part in the Institute of Meat Technology and Scientific Research meetings in Sweden, Denmark, Finland, West Germany, England, Holland, France, Switzerland and Portugal. Dahl is the Swedish founder of yearly meetings of the European Meat Research Workers, an organization similar to the American Meat Institute Foundation in the United States. Merrill has been an astronomer at the Mount Wilson and Palomar Observatories since 1919 and is world famous in his field. His lecture will be of great interest to everyone interested in space travel. The astronomer received his A.B. degree from Stanford University in 1908 and his doctorate from the University of California in 1913. He served as an assistant and a fellow at the Lick Observatory in California from 1909 to 1913; as an instructor in astronomy at the University of Michigan from 1913 to 1916, and then as a physicist at the Bureau of Standards from 1916 to 1918. He joined the Mount Wilson Observatories in

1919. In 1946, he was awarded both the Henry Draper Medal and the Bruce Medal for his achievements. He served as president of the Astronomical Society of the Pacific in 1927 and as president of the American Astronomical Society from 1956 to 1958. Merrill also is a member of the National Academy of Science, the American Association for the Advancement of Science, and the Philosophical Society. He is a Fellow of the Physical Society, an associate member of the Royal Astronomical Society of London and an honorary member of the American Association of Variable Star Observers. The scientist's special work concerns wave lengths of spectrum lines, photography in the red and infrared, and stellar spectroscopy. Merrill also will hold public lectures on "Stellar Spectra" at 4 p.m. Thursday, "Modern Astrophysics" at 11 a.m. Friday and "Variable Stars" at 1 p.m. Friday, all of which will be heard in Room 320 of the Physics Building.

Thirty-Six Fight To Win Class Posts

By ALAN PAYNE
Assistant News Editor
Thirty-Six students will be fighting it out for seventeen positions in tomorrow's Class Election Runoffs in the Memorial Student Center from 8 a. m. to 5 p. m. Voting machines will be set up in the hall between the Bowling Alley and Gift Shop. They will be run by Election Commission members. In last Thursday's first election, two positions were decided without benefit of a runoff. Ronnie Frazier was elected Class of '61 Student Entertainment Manager and Pat K. Crouch was elected as a representative to the MSC Council from the Class of '62.

Frazier is a junior architecture major from Dallas and Crouch is from Lufkin majoring in agronomy.

Class of '61
In the Class of '61 runoffs Marvin J. Girouard, a junior from Groves majoring in business administration, and Larry J. Haygood, an education major from Ft. Worth, will vie for president.

Mike Ogg and Guy Keeling are in the vice presidential race for the Class of '61. Ogg is a physical education major from Lufkin and Keeling is a Palestine business administration major.

Secretary-treasurer finalists for the Class of '61 are Nevel Ehrhardt, a mechanical engineering major from Shreveport, and T. Stump Reid, an industrial engineering major from Dallas.

Monty G. Montgomery and Darryl Bush will be competing for the Class of '61 social secretary position. Montgomery is from Galveston majoring in business administration while Bush is a business administration major from Odessa.

Historian Race
In the historian race, Bob Burnside and Giles L. Dodson will be competing. Burnside is a petroleum engineering major from Houston whereas Dodson is from Corpus Christi majoring in agricultural engineering.

Ronny J. Hampton, a junior in the School of Veterinary Medicine from Shreveport, and Bob Laird, a physical education major from Dayton, reached the runoff in the race for Class of '61 MSC Council delegate position.

In the Class of '61 yell leader race, Sonny Todd, Ken Moore and Eugene Stuggs will be pitted in the finals. Todd is from Houston and is in the School of Veterinary Medicine, Moore is a business ad-

Filings Being Accepted For CSC Positions

Filings are now being accepted for sophomore, junior, senior and 5th, 6th and graduate candidates to serve on the Civilian Student Council for the 1960-61 school year, according to Robert O. Murray, counselor with the Basic Division.

The filings will close at 5 p.m. Friday, he said. Any qualified person may file with any one of the three counselors, W. G. Brazearle, L. H. Puryear, R. L. Melcher, 27 Milner, or R. O. Murray, 212 Basic Division Building. Filings will also be accepted by Bennie A. Zinn, Director of Student Affairs, in Room 19-A of the YMCA Building, Murray said.

To qualify as a candidate for class representatives to the Civilian Student Council a person must have a grade point ratio of at least 1.25. He must plan to be in attendance for both the fall and spring semesters of next year, he must be free of scholastic and disciplinary probation and he must have been a civilian student all this semester, living in the civilian area.

The elections will be held Monday, April 11, from 7:30 to 10 p.m., in the civilian dormitory area and in College View and Project House, Murray said.

Day students may vote in the lobby of the Housing Office on the ground floor of the YMCA Building all day Monday. Winning candidates will be notified prior to the Easter holidays, Murray said. "We invite and urge good men to run and work for better civilian student government," he said.

OFFICERS TO GIVE TALKS TO JUNIOR MS CLASSES

Brig. Gen. John J. Lane and Lt. Col. Charles A. Lewis, will give talks to the junior military science classes this week. The officers will talk on the role of the Transportation Corps. Gen. Lane will give his talk between 8 a.m. and 12 noon, Wednesday, and Col. Lewis will talk between 8 a.m. and 10 a.m., Thursday.

The talks on the role of the Transportation Corps will include the mission, history, organization and functions of the TC. At the talks a question and answer period will be held.

Cadets interested in an appointment with the officers may contact Maj. H. A. Lowe, Room 105, Military Science building, prior to Wednesday.

Gen. Lane, a native of Massachusetts, graduated from the U. S. Military Academy in 1933 and was commissioned a second lieutenant in the Coast Artillery Corps. He is also a graduate of the Coast Artillery School, Command and General Staff College, Naval War College and the Industrial College of the Armed Forces.

During World War II, he served in the European Theater of Operations as commanding officer of the 438th Anti-Aircraft Artillery Battalion. Following World War II, he transferred to the Transportation Corps. Since that time, he has served two tours of duty

as a member of the Department of the Army General Staff and has also served as Transportation Officer, United States Continental Army Command.

Gen. Lane is presently assigned as Assistant Chief of Transportation for Military Operations, Headquarters, Department of the Army. Col. Lewis is a 1941 graduate of A&M and was commissioned a second lieutenant in the Coast Artillery Corps (reserve). He was called to active duty upon graduation.

During World War II, he commanded an Anti-Aircraft Artillery battery in the China-Burma-India Theater of Operations. Following World War II, he was integrated into the regular army and commissioned in the Transportation Corps. He is a graduate of the Coast Artillery School, the Transportation School and the U. S. Army Command General Staff College.

Since World War II, he has served in various staff positions in the United States and in overseas command, including assignments as transportation officer, 5th Infantry Division and as Movement Officer, 7th United States Army.

Col. Lewis is presently assigned as executive officer, Office of the Assistant Chief of Transportation for Military Operations, Washington, D. C.

AF Inspectors Arrive Today

An Air Force inspection team will be on the campus Tuesday, Wednesday and Thursday to inspect the Department of Air Science and all Air Force cadets, according to Capt. Baxter T. Duncan, assistant professor in the Department of Air Science.

The team, consisting of Lt. Col. Edward W. James and Maj. Frank C. Herron will arrive today after completing an inspection of the Department of Air Science at the University of Texas. They will leave A&M Thursday after completing their inspection, Duncan said.

James and Herron are members of the AFROTC supervisory detachment from Maxwell AFB, Ala. They plan to look into the operations and the administrative procedure of the Department of Air Science as well as visit one or more air science classes, Duncan said.

Besides visiting the regular class periods, the inspectors will take over one Air Science IV class and talk to that group of Air Force senior cadets to learn what they think about the way the course is conducted.

The inspection team will meet the detachment personnel of the Department of Air Science for a brief review of departmental activities Wednesday morning. They will have lunch with President Rudder Wednesday afternoon, said Duncan.

Later Wednesday the team will meet with Air Science cadet staffs for a briefing. At 5:30 p.m. Wednesday there will be a review of all Air Force cadets on the main drill field honoring James and Herron.

The team will have lunch in Duncan Dining Hall with Wing Commanders and their staffs at noon Thursday before leaving the campus.

Two New Men Begin Terms On CHS Board
John B. Longley and Herbert Thompson unseated incumbents George Carroll and Henry Allen in Saturday's A&M Consolidated School Trustee Election.

Of the 523 votes cast, Longley received 302, Thompson received 216, Carroll had 210 and Allen got 141. Last place was taken by Milton Ford, who had 104.

There were two write-in candidates, Grady P. Parker with 10 votes and W. E. Kidd with 9 votes. The voting turnout of 523 persons was quite a contrast to the public interest indicated by the Thursday night town meeting in the high school auditorium. Only about two dozen people showed up to hear the four speakers express their views concerning the school situation.

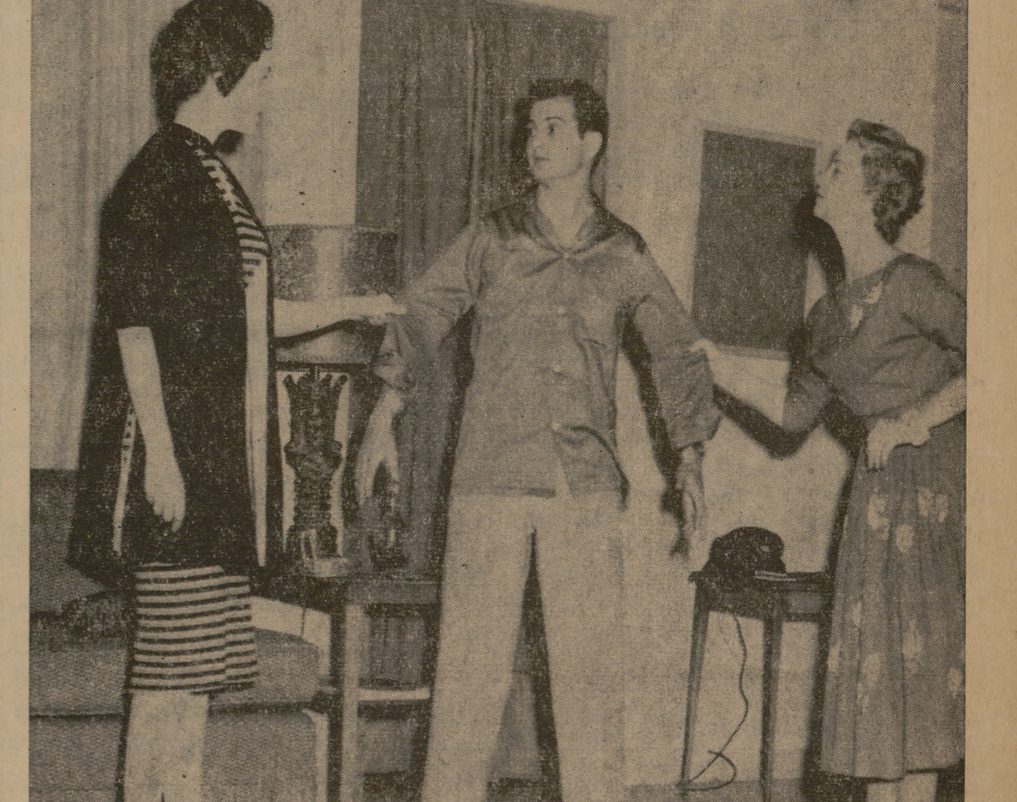

"I think the most important thing to have for a school is good teachers," Thompson said. "I would rather have a good teacher and a bare room than a good room and an average or poor teacher."

Deadline Set For Senior Pic Entries

April 25 is the deadline for submitting Senior Favorite pictures to the Office of Student Publications in the YMCA.

Three by five pictures or snap shots, no color, may be submitted. Cost is \$2 per picture.

Who's Who pictures and extra-curricular pictures must be turned in to the AggieLand Studio by April 9. Vanity Fair pictures must be submitted to the Office of Student Publications by April 25. Any other pictures should also be turned in by this date.

"Tender Trap"
Charlie suddenly finds himself engaged to one too many women in the Aggie Players' production of "The Tender Trap", which opened in the lower level of the Memorial Student Center last night for a five-night

In order to be initiated into Alpha Zeta, pledges must be students in the field of agriculture
