

# Red Cross Names Seven Host States

Texas, Oklahoma, Illinois, Iowa, Michigan, Missouri and Wisconsin have been selected as host states this year for the annual Red Cross National Aquatic Schools in the Midwest. The schools, being held for the 39th year, provide advanced training for experienced and prospective camp counselors, leaders and instructors in community and pool water safety programs.

Because of the increasing number of persons taking to the water via small boats, small craft schools will also be held in conjunction with two of the aquatic schools, those at Lake Murray State Park at Ardmore, Okla., June 5-15, and at Camp Wah-Kon-Dah at Rocky Mount, Mo., August 17-27. The other sites selected and dates of aquatic schools there are: Camp Texlake, Spicewood, Tex., June 5-15; SIU Little Grassy Lake Campus, Carbondale, Ill., June 8-18; Lake Okoboji Lutheran Bible Camp, Milford, Iowa, June 8-18; Owasippe Scout Camps, Camp Stuart, Whitehall, Mich., June 15-25; and Camp Chippecot, Elkhorn, Wis., Aug. 17-27. A small craft school will also be held at Culver Military Academy, Culver, Ind., June 13-23.

Enrollment is open to men and women 18 years of age and older wishing to serve more skillfully in their positions closely related to water sports or wishing to serve as volunteer Red Cross instructors in their home communities. The courses include instruction in swimming and lifesaving, small craft, swimming pool operation and leadership in camp and community water safety activities. Instruction is also given in first aid and those wishing to get this instruction may complete the standard, advanced and instructors courses.

This year marks the 50th anniversary of Red Cross First Aid and the half century of progress will be reviewed during the school sessions.

Complete enrollment information on the aquatic and small craft schools can be secured through any Red Cross chapter or from the Midwestern Area Office, American National Red Cross, 4050 Lindell Blvd., St. Louis 8, Mo.

## Color Slides To Be Shown Friday Night

Dr. C. C. Doak, head of the Department of Biology, will present a program of color slides during a meeting Friday of the Students United Nations Club.

The session will start at 7:30 p.m. and will be at the YMCA Building.

Henry Courtenay of the Department of Agricultural Economics and Sociology has organized a singing group from members of the A&M Presbyterian Church choir and the Bi-City Choral Group to provide a musical accompaniment to the color slide program.

Doak also will make a talk, his subject being "This Is My Father's World." The topic will concern the cultural and sociological forces for fusion and fission in a world society.

K. Rahman, president of the Students United Nations Club, said the meeting will be the final one of the school year.

### COFFEE CUE

Coffee for the bunch: Do they all like cream in their java? Then you'll need a half-pint of cream for eight cups of coffee.

### Officer Inauguration

Mrs. T. L. Thompkins of Bryan addresses Sunday's meeting of the Federation of A&M Mother's Clubs in the Memorial Student Center. Mrs. Thompkins was the first president of the Federation. Mrs. Stella Cole of Corpus Christi, far right, was installed as the new president at Sunday's meeting.

### ENROLLMENT UP

## Kiwanis Club Honors College Station Schools

College Station schools were honored yesterday at the regular meeting of the College Station Kiwanis Club in the Memorial Student Center.

School Superintendent W. T. Riedel told the Kiwanians that enrollment in College Station schools has doubled, and in some cases tripled, in the last 10 years and it is expected to continue to grow in the next 10 years.

Riedel then explained the school's long range construction program to be paid for by the recent \$350,000 bond issue.

Riedel then introduced Howard Mitchel and Bruce Thompson, both students at A&M Consolidated High School who won National

Merit Scholarship Awards. Of 47 Merit Scholarship awards given in Texas, two were from College Station schools.

"College Station citizens should be proud of the scholastic achieve-

ments of our schools," Riedel told the group. The average grade point ratio of all entering freshmen at the University of Texas last year was 1.265; the average GPR of College Station students entering the University last year was 1.974, he added.

Riedel attributed College Station's high academic rating in part to the fact that over 50 per cent of College Station teachers have their masters degree.

In another part of the program, Jack Channey presented safe driving awards for the school year 1958-59 to two College Station school bus drivers, Howard Anderson and K. C. Morgan.

Students interested in participating in debate, oratory, extemporaneous speech or other competitive speech events are asked to attend an organization meeting in Room 2-C of the Memorial Student Center, Friday at 7:30 p.m., by Don Williamson, newly elected president of the Aggie Discussion and Debate Club.

Students interested but not able to attend should leave their names with Williamson; Dr. H. E. Hierth, debate coach, or any other team members.

Next year's team goal will be the Southwest Conference championship, which they missed by an extremely narrow margin to Baylor last fall after first being declared the actual winner.

The lectures were given by members of the faculty of the Department of Petroleum Engineering and by outstanding men of the oil industry itself. The session of the drilling school had an enrollment of 21 men representing drilling personnel from Europe, South America and the United States.

Men Represented

For the most part, these men represented oil producing companies, drilling contractors and supply companies whose products are sold almost exclusively to the oil industry.

The last week of the school was devoted to a study of the drilling rig, optimum conditions for rock penetration, factors affecting the rate of penetration, formation evaluation and drilling economics.

On the afternoon of the last day of the session, the men attending the school were addressed by a drilling panel who presented for discussion their ideas on methods of reducing drilling costs from the viewpoint of the major company operator, the drilling contractor, the supply company and research.

Panel Members

Members of the panel were Jim U. Teague, Columbia Drilling Co. and Ed Rowe, Tennessee Oil and Gas Co., Houston; T. O. Allen, Jersey Production Research Co., Tulsa, Okla.; Don Johnson, Carl B. King Drilling Co., Midland, and Wm. T. Powell, Continental-Emsco Co., Dallas.

Members of the panel were Jim U. Teague, Columbia Drilling Co. and Ed Rowe, Tennessee Oil and Gas Co., Houston; T. O. Allen, Jersey Production Research Co., Tulsa, Okla.; Don Johnson, Carl B. King Drilling Co., Midland, and Wm. T. Powell, Continental-Emsco Co., Dallas.

## Nurseryman Short Course Slated May 29-31 In MSC

The annual Short Course for Texas Nurserymen will be held May 29-31 in the Memorial Student Center.

Topics range from outlook information to marketing developments and problems.

The first day's program will start with registration in the MSC, followed by a tour of re-

search work in progress at the floriculture greenhouses and nurseries.

Actual talks begin at 9:30 a.m. the second day with an address by Bob Lederer, legislative assistant for the American Association of Nurserymen in Washington, D.C., who will discuss "What's Ahead in the Nursery Industry."

Next is John D. Schatz of Southwest Missouri State College who will talk on "Summer Maintenance Programs." Planning and planting for a year-round garden will be explained by Naud Burnett, landscape architect of Dallas.

The main speaker at an evening meeting May 30 will be Charles S. Bush, supervisor of grades and standards for the State Plant Board of Florida. His topic, "Why Grades and Standards for Nursery Plants," is expected to attract

much interest among the short course members.

Talks on the last day include "Creative Selling That Works" by Joseph W. Thompson, director of the School of Hotel, Restaurant and Institutional Management, Michigan State University, and "Garden Shop Advertising Programs" by L. F. Czuffin of the California Spray Chemical Corporation, Richmond, Calif.

A feature on the final day will be a panel discussion of "Present Day Marketing Problems." Panel members are Whiston Jones of the Lambert Landscape Co. of Dallas; George Vineyard of Midland, Vineyard Landscaping Co.; R. T. Mc-Duff of Fort Worth, Pope Nursery; Tom Searborough of Lubbock, Tom's Tree Place, and Charles House of Tyler, House and Sons Nursery.

## Primary Puts Humphrey Out Of Demo Race

By ARTHUR EDSON

CHARLESTON, W. Va. (AP)—Sen. John F. Kennedy (D-Mass.) took a giant stride toward the Democratic presidential nomination today with a smashing victory in the West Virginia primary.

He not only rolled over Sen. Hubert H. Humphrey (D-Minn.), he also knocked him out of the presidential race completely.

At 1:08 a.m. Eastern Standard Time Humphrey conceded. Moments later he issued a statement in which he said:

"I am no longer a candidate for the Democratic presidential nomination."

Kennedy flew back from Washington early today.

"West Virginia has tonight given me a major boost toward the Democratic nomination for president," he said jubilantly.

Kennedy, a Catholic running in a predominantly Protestant state, thanked the voters.

"I had no doubt," he said, "that you would cast your vote on the basis of the issues and not on any religious prejudice."

Kennedy jumped ahead at the start and steadily increased his margin.

### TO THE VOTERS OF PRECINCT ONE:

Let me take this method of expressing to each of those who voted for me Saturday in the Primary Election my deepest thanks and appreciation. In view of the fact that there were four of us running for the office, it was especially gratifying to me to have led my nearest opponent by 248 votes. I offer my congratulations to Mr. Curtis Williams, Mr. Fletcher Pool, and Mr. George B. Hensarling, Jr. on the fine support that they received and I earnestly hope that those who voted for these gentlemen will give careful consideration to my past record of hard work and accomplishments for all of the people of Precinct One, and will see fit to vote for me in the run-off election on June 4th.

Again my gratitude and thanks.

Sincerely,  
**RAYMOND A. NOLAN**

### YOU WON'T REST ON YOUR LAURELS AT IBM

**OUTSTANDING CAREER TRAINING KEEPS YOU LEARNING AND GROWING:** at IBM, qualified college graduates rapidly develop a broad understanding of the many worlds of business. IBM Sales Representatives, for example, learn to work with the top executives of different firms, helping them introduce modern data processing techniques.

Whether you're majoring in engineering, science, math, business administration, or liberal arts, you

should know about us and about the varied careers we have to offer. See your Placement Officer for more information. If we have already interviewed on this campus, and you did not get to see us, please write or call:

Mr. J. E. Russell, Branch Manager  
International Business Machines Corporation  
2601 So. Main St., Houston 2, Texas  
Telephone: CApital 3-4721
