

Doak Leaves A&M; Takes Trinity Post

Dr. Clifton C. Doak, chairman of the Department of Biology at A&M, was appointed to head the Trinity University Department of Biology early in June, according to Dean Bruce Thomas.

The department's undergraduate and graduate programs have been directed since 1950 by Dr. Jacob Uhrich, professor of biology, under whom Trinity's pre-medical programs achieved wide recognition.

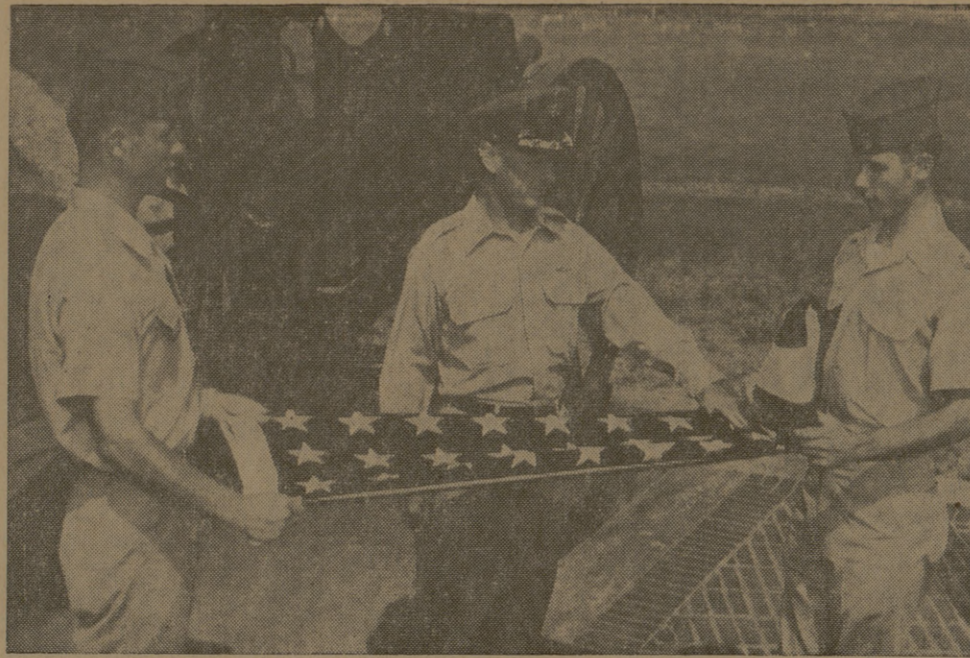

Uhrich, who served as chairman of the former Graduate Council until the growing graduate division developed under his leadership into a graduate school in the fall of 1959, will now devote his full time to research and teaching.

Doak received his Ph.D. degree in botany-genetics from the University of Illinois in 1933, after earning his B.S. degree at A&M. He became an assistant professor of general biology and botany at A&M in 1933, and in 1938, chair-

man of the Department of Biology. He taught biology and general science and coached athletics from 1922 through 1925 at Arlington and Corsicana Texas high schools and has directed a science enrichment program for talented high school students during the 1957, '58 and '59 summer sessions at A&M.

He is a regular contributor to the "Botanical Gazette," the "University of Illinois Bulletin" and other journals of science.

Listed in the forthcoming issue of "Who's Who in America" and in "American Men of Science," he is past president of Sigma Xi, national scientific honor society and is a member of Phi Beta Kappa. Doak is also a member of the American Assn. for the Advancement of Science and the Botanical Society of America and was the 1950 president of the Texas Academy of Science.

Twins and Father at Summer Camp

Recent retreat ceremonies at Otis AFB, Mass., found Col. Leonard M. Rohrbough, deputy commander for Material, 551st Air Borne Early Warning and Control Wing, instructing his two sons, Stephen W. and Frank G. in the proper methods of folding

the flag. The twin brothers, both seniors at A&M this fall, attended the summer ROTC encampment at Otis. Stephen is making in general business. (U. S. Air Force joring in economics while Frank is specializing in physiological studies.)

SUCCEEDS DR. VERNON YOUNG

Leinweber Leaves OSU; Named New Range Head

Dr. Charles L. Leinweber, an A&M graduate, is the new head of the Department of Range and Forestry.

He took over his new duties on Aug. 1.

The scientist succeeds Dr. Vernon Young. Young retired from duty as head of the department in September, 1959. In the interim, Dr. Robert Darrow, professor, was acting head of range and forestry.

Leinweber came here from Oklahoma State University, where he had been since 1955. He was coordinator of cotton research and specialized in physiological studies.

Born in Bandera
He was born at Bandera in 1922

and reared on a ranch in the Kerrville area in Kerr County.

The agriculturist's undergraduate and graduate degrees were received while at A&M. His B.S. in 1952 and M.S. in 1953 were in range management. Plant physiology was the major study field for his doctorate in 1956.

Outstanding Scientist
Leinweber's appointment was announced by Dr. R. E. Patterson, dean of agriculture.

"We consider Dr. Leinweber an outstanding agricultural scientist. He will be a real asset to the agricultural programs of A&M in providing leadership in research and education in the important field

of range management," Patterson said.

"His background of training and experience fits him well into the position which he will occupy in developing further services to Texas farmers and ranchers."

Three Sons
Leinweber and his wife, Jean, live at 1002 Hereford in College Station. They have three sons, Charles Jr., 11; Louis L., 7; and Gregg, 3.

The Leinwebers are members of the Presbyterian Church.

Leinweber's parents are Mr. and Mrs. C. L. Leinweber of Mountain Home, and his wife is the daughter of Mrs. L. O. Cunningham of Kerrville.

AGGIES — WELCOME

ZUBIK'S-The One Stop Service Center For Uniform Requirements Welcomes You

KHAKI SLACKS \$6.25

(Including Alterations)

KHAKI SHIRTS \$6.25

(We Form Fit Shirts and Sew On Patches At Small Additional Cost)

Regulation Short Sleeve Khaki Shirts . . . \$5.65

We Have

Regulation Caps, Socks, Belts, Ties, Shoulder Patches, All Brass Insignias

FRESHMEN PINK SLACKS \$23.95

Tailor Made To Your Individual Measurements Here In Our Own Shops At College Station—
One Week Delivery Required Only - You Try Them On And See How They Fit Before You
Pay - GUARANTEED TO FIT-

FATIGUES — JACKET and PANTS \$7.75

Fruit Of The Loom Fabric - Shoulder Straps And Button Type Sleeves
-They Fit Nice-

ALTERATION DEPARTMENT

We Maintain An Experienced Alteration Department For Everything We Sell Or Your Own
Personal Clothing - Bring Us Your Issue Uniform For Alterations and Patch Sewing.
