

Appeal Slated To Khrushchev From Macmillan

By The Associated Press
UNITED NATIONS, N. Y. — British Prime Minister Harold Macmillan plans to lay before Soviet Premier Nikita Khrushchev an urgent appeal to break down barriers now preventing discussion of dangerous world problems, authoritative sources reported Wednesday.

Macmillan, playing a key role in Western strategy, addresses the U.N. General Assembly Thursday in advance of a face-to-face meeting with the Soviet leader. The informants said his aim is to salvage something from this historic 15th session and prevent it from ending in disastrous diplomatic failure.

Furious diplomatic activity preceding his appearance indicated it will mark a critical juncture in the debate.

Macmillan's speech, the informants said, will be pitched to a low key. He will follow lines similar to those presented by President Eisenhower a week ago and indicate to the 96-member world organization that the West is keeping an open mind on approaches to such urgent issues as disarmament and nuclear weapons control.

Macmillan's conference schedule Wednesday included meetings with President Gamal Abdel Nasser of the United Arab Republic and Prime Minister Nehru of India.

Aggie-Ex Donates \$1,000 For Corps Study Achievement

An anonymous former student has awarded the A&M Corps of Cadets \$1,000 for "the encouragement of academic achievement in the Corps of Cadets."

Dean of Students James P. Hanigan said yesterday both individuals and cadet units will probably receive cash awards as a result of the donation.

The donor asked that his name not be revealed at this time.

Hanigan added a committee of cadet officers and tactical officers will meet soon to make recommendations for the distribution of the awards.

The number of awards to be given and when they will be presented is also not definitely known, Hanigan said.

The cash awards are in effect for the 1960-61 school year.

Economics Club To Hear Speech By Yarborough

Ralph Yarborough, United States Senator from Texas, will address the Economics Club in Rooms 2-A and B of the Memorial Student Center next Tuesday starting at 7:30 p.m.

The topic of the senator's talk will be "Economic Issues that have been presented before the U. S. Senate in past years."

Yarborough will have dinner with officers of the Economics Club and faculty that evening.

All interested in hearing the senator speak are invited to come, according to Frank Hernandez, president.

Makings Of Fine Trophy

The largest antelope hunt ever staged in the Terry Ranch, southwest of Alpine, would make some sportsman happy if it could be 1-7. This prize trophy on the W. H. "Tar" bagged during the season. (AP Photo)

Consolidated Magazine Sale Now Underway

The magazine sales campaign sponsored annually by the A&M Consolidated Mothers and Dads Club is now underway.

Mrs. George L. Huebner is chairman of the drive with Mrs. Richard Baldauf assisting.

By special arrangements with national magazines, the Mothers and Dads Club derives from 30 to 50 per cent commission on all subscriptions both new and renewal, Mrs. Huebner stated.

Last year the campaign grossed over \$1300, which was spent for improvements at A&M Consolidated Schools. Among the magazines being sold are Saturday Evening Post, Ladies Home Journal and Holiday.

Mrs. Huebner stated that the magazine subscription drive is being conducted by the junior high school students on an award basis, and by the junior class in the high school who will participate in the profits in order to finance the Junior-Senior banquet. She also pointed out that even though renewal time on magazines is some other time of year, the club can be credited when renewals are made now. Magazines also make good Christmas gifts, Mrs. Huebner added.

Frosh Vets Elect Eight To Offices

Charles Crouch, a veterinary medicine major from Devine, has been elected president of the Freshman Veterinary Class for the 1960-61 school year.

Other officers who have been elected are Ed Merrit, vice president; Danny Loyd, secretary; Malcolm Strole, reporter; Gabby Navar, parliamentarian; David Hughes and Charles Hall, AVMA Council, and Edward A. Todd and Billy Rogers, Honor Council.

The club is made up of veterinary school freshmen who have completed the two-year pre-vet program.

Kennedy Hits GOP Stand On Medical Care for Aged

By The Associated Press

Sen. John F. Kennedy hammered Wednesday at his Republican rival, Vice President Richard M. Nixon, as "a man who led the opposition to medical care for the aged."

Invading upstate New York at the start of his drive to win New York's crucial 45 electoral votes for the presidency, Kennedy came out slugging at his GOP rival in an address to a meeting of "senior citizens" in Buffalo.

Nixon not only led the opposition, Kennedy declared, but he was ready to carry on that opposition when picked by the Republican National Convention to head its ticket.

"In 1955, the Republicans failed to block progress," in connection with social security, the Democratic presidential nominee said in his speech.

"This year they succeeded in destroying the hopes of Americans over the age of 65 for relief from the crushing burden of medical bills and for the opportunity to fully care for their health."

Instead of a program for medical care under the Social Security system, Kennedy said, the Republicans substituted a bill "which will cost the American taxpayer over a billion dollars a year, is impossible to administer, will not even be put into effect in many of our states, has been rejected by the governor of New York, and will fail to bring relief where it does go into effect."

Kennedy said the lesson for older citizens was clear: "Only with a Democratic president in the White House, can we hope to bring help to poverty-stricken older Americans."

Kennedy's day took him first across the Niagara frontier area by motor, then on an airplane sweep to Rochester, Buffalo and Albany.

THE BATTALION

Nuclear Engineering Seminar

The Department of Nuclear Engineering has announced the following schedule of seminars for the months of September, October and November:

Sept. 30 — Thermo-nuclear Research at General Atomic, Eddie Reyna, speaker; Oct. 7 — Engineering Problems in Atomic Energy; Heat Transfer Problems in Atomic Energy, Dr. Lyon, Oak Ridge National Laboratory, speaker; Oct. 14 — Design Consideration of Texas A&M, High-Level Gamma-Ray Facility, John D. Randall, speaker; Oct. 21 — Fine Structure Neutron Flux Calculations in a Water Metal Lattice, George M. Day, speaker;

Oct. 28 — Solid State Detectors and Their Use in Spectrometers, Temple A. Love, Oak Ridge National Laboratory, speaker; Nov. 4 — Review of Controlled Fusion Research, Dr. R. J. Mackin Jr., Oak Ridge National Laboratory, speaker; Nov. 11 — Elements of Direct Energy Conversion, John W. Shel-

don, speaker; Nov. 18 — Nuclear Research in Europe, Dr. R. E. Wain- erty, speaker; Dec. 2 — Nuclear Criticality Control Fuel Processing, Dr. J. O. Blomeke, Oak Ridge Na-

tional Laboratory, speaker. The seminars will be held weekly at 4 p.m., Fridays, in Room 211 of the W. T. Doherty Petroleum Engineering building, and all per-

sons who have an active interest in the utilization of nuclear energy in science and engineering are invited to attend these meetings, the announcement states.
