

THE BATTALION

Volume 59

COLLEGE STATION, TEXAS FRIDAY, SEPTEMBER 30, 1960

Number 8

New Sweetheart Candidate

Miss Grace Carlson has been selected to join 12 other girls in the race for Aggie Sweetheart Honors at TWU, to be decided Sunday at the Denton school. Miss Carlson replaces Miss Gerta Young, who was forced to withdraw from the running due to personal reasons. Other candidates are Martha Busey, Louise Kuehn, Edna Figueroa, Sharon Clark, Ann Wells, Kathy Coffey, Agatha Nance, Linda Campbell, Barbara Evans, Marilyn Lewis, Sandra Wadsworth and Mary Roberts. A 14-man committee of A&M students will select the sweetheart at the Sunday meeting and interviewing session.

Trinity Issues Ags Challenge To Bonfire Test

Trinity University yesterday officially challenged A&M to a bonfire-building contest with notarized documents to A&M student leaders.

However, there seems to be loopholes in the official document.

One is that the document states the contest is to take place during the respective homecomings of the two institutions. The A&M bonfire is constructed during the week before Thanksgiving, and the traditional battle with the University of Texas on Turkey Day is not homecoming.

The document also erroneously states that A&M is "located, situated and domiciled in the City of Bryan," not in College Station.

The challenge came from Lou Rosenberg, president of the Associated Students of Trinity University, and reads like this:

"STATE OF TEXAS
COUNTY OF BEXAR
"KNOW ALL MEN BY THESE PRESENTS:

"I, the undersigned, LOU ROSENBERG, duly elected president of the Associated Students of TRINITY UNIVERSITY, in the City of San Antonio, County of Bexar, State of Texas, hereinafter referred to as CHALLENGER, do hereby declare unto the students of the AGRICULTURAL AND MECHANICAL COLLEGE OF TEXAS, located, situated and domiciled in the City of Bryan, County of Brazos, State of Texas, and hereinafter referred to as CHALLENGEE, that

"WHEREAS:

"Obviously, the aforesaid CHALLENGER is known, recognized and positively determined to be a major power equal to, if not far surpassing, outranking and superior to the aforesaid CHALLENGEE, more particularly in respect to school spirit; quality of student government; caliber of student body, faculty and staff; location, appearance and architectural excellence of its buildings, structures and edifices; excepting perhaps only the inconsequential considerations of comparative sizes of physical plants and conceding the greater number of male students enrolled therein; and

"WHEREAS:

"Obviously the Homecoming festivities at present being planned, arranged and organized by the CHALLENGER for the nine days beginning on November 5 and lasting until November 13, AD 1960, will without doubt be the finest period of Homecoming festivities

in the collegiate history of the State of Texas; and

"WHEREAS:

"Obviously the bonfire to be built, kindled and lit by the CHALLENGER during said period of festivities in honor of its alumni will not only surpass any such bonfire previously burned on such occasions but also any conflagration which may be contemplated, initiated or incinerated by the said CHALLENGEE in any feeble attempt to equal, match or compete with said CHALLENGER'S said Bonfire.

"NOW THEREFORE:

"Be it known to all and sundry and I, the aforementioned undersigned, LOU ROSENBERG, acting for and on behalf of the said CHALLENGER, do by these presents CHALLENGE and HAVE CHALLENGED the said CHALLENGEE to try to surpass with their annual Homecoming Bonfire, that which we shall erect during said week of said Homecoming activities and in the process of which we shall incinerate a Cowboy

(See CHALLENGE on Page 3)

Cancer Steps To Be Aired At Meeting

Special to The Battalion
Advances in cancer research will be the featured topic at the annual meeting of District Nine of the Texas Division, American Cancer Society, to be held at Mrs. J. R. Parten's residence in Madisonville Wednesday.

Curt W. Reimann, Executive Vice President of the Texas Division, American Cancer Society, will give a special report on the current progress in the research story at the luncheon session.

Reimann has been responsible for the direction of the Society's program in Texas since 1955 and has placed special emphasis on strong local community organization for the control of cancer through public education, service to cancer patients, and financial support of the total program which includes nation-wide cancer research. Under his leadership, the Texas Division has won seven national awards for outstanding achievement in various areas of cancer control.

The annual meeting of the Society's volunteer workers is expected to attract more than 50 delegates from the 18 counties comprising District Nine.

The all-day meeting will also feature special group sessions on the work of the Society in the areas of education, campaign and publicity, reports on the cancer control program in each of the counties and in the District, and nomination and election of three directors to represent the District on the state board of directors.

The present District 9 Directors are Eugene Addison, M.D., Mrs. Jack Clarke, Jr., and Ira Haynie, Jr. Mr. Haynie will preside at the morning session and Mrs. Clarke will preside at the luncheon session.

Representatives from Madison, San Jacinto and Shelby Counties will receive awards for outstanding achievement during the 1960 Crusade.

Judge To Review Brazos Economics

Judge John M. Barron will speak Sunday at 3:00 p.m. on "Economic Progress in Brazos County" at a joint meeting of the Unitarian Fellowship and the Citizens' Fellowship Committee. The meeting will be held at the Washington Church south of College Station and the public is urged to attend.

Lighter Cadets Favored In Tomorrow Night's Battle

Three Phase Nuclear Test Ban Presented

By The Associated Press
GENEVA—Britain Thursday presented the Big Three nuclear test ban conference a three-phase plan for a global network of control posts to police a test ban treaty.

British Delegate Sir Michael Wright said it was a six-year project that would create the basis for a working control system within its first two years.

The plan would provide for about 180 control posts, including 10 ships to ply the oceans and sample water and air for radioactivity.

First Phase

The first phase—of four years—would cover the Northern Hemisphere, including the United States, Britain, the Soviet Union and the Pacific nuclear test islands. Eventually there would be 20 control posts on the Soviet mainland and one on the Soviet island of Kamchatka.

Soviet Delegate Semyon K. Tsarapkin immediately protested that 15 would be enough on Soviet territory. He also urged that Australia and Africa be included in the first phase as nuclear test areas.

Found Number Excessive

Tsarapkin said he found the Union excessive because it has large areas where no earthquakes occur which could be confused with nuclear explosions.

U. S. Delegate Charles C. Stelle called the British plan a helpful contribution which went far to meet Soviet objections to the original Western proposals of last May.

The Soviets at that time suggested that the first phase of any global control network should last four years. They called for it to provide for control posts in the Southern Hemisphere as well as control shops from the outset.

A&M-Trinity Grid Battle ... out-weighted, but favored

Two Teams Renew Old Grid Rivalry

The Cadet footballers head for San Antonio this weekend for a renewal of some battles of the past with the Trinity University Tigers.

Although the Aggies are picked by the experts to win the contest, it should prove to be quite a test, since they are outweighed several pounds per man.

The nucleus of the Tiger's weight sits from tackle to tackle. The heaviest man is Jack Cowley, 258-pound right tackle. Cowley is followed by Gene Gollareny, right guard who tips the scales at 249; Jim Huff, left tackle weighing 245; and the "little" man is Harold Day, weighing 213 at the left guard slot.

As far as this season's games the Tigers and Aggies are even, with a loss and a tie each. Trinity tied with Texas A&I in their opener and lost to New Mexico State last week.

The Aggie lineup has been shuffled this week, partly by injury and for defensive purposes.

Coach Jim Myers will have to

Introductory French Course Starts Tuesday

A ten-week introductory course to French conversation and reading will begin Tuesday.

The course, which will be held from 7:30-9 p.m. on Tuesdays and Thursdays in the YMCA Building, is recommended for beginners and prospective travelers in France.

A native instructor, not yet determined, is due to teach the course. A charge of \$25 will cover the cost of taking the ten-week course.

Further information, including registration details, is available through R. P. Cuzon of the Department of Oceanography.

Cuzon will be available for consultation after 4 p.m. His phone number is VI 6-6857.

Consolidated Band Carnival October 8

An evening of fun and frolic for the entire family is slated Oct. 8 when the annual A&M Consolidated Band Carnival gets underway. President Frank Sheppard of the Band Boosters Club, which sponsors activities of the carnival, says that this year's carnival will feature new and varied activities which begin at 5:30 p. m. on the school campus.

New attractions this year include a performance by the Bengal Belles, a new drill team on the campus, which will perform on the slab early in the evening, and a variety show, presenting local talent of many types.

All funds resulting from the carnival will be used for instruments, uniforms and other expenses of the Consolidated Band. Willard Johnson is beginning his first year as director of the band.

Co-chairmen for the carnival this year are Dr. and Mrs. John Sperry. Included in their plans are features such as the fishpond, to be operated by Mr. and Mrs. C. K. Hancock and Mr. and Mrs. M. M. Dun-

WOODROW WILSON GRANTS Scholarship Nominations Open

Special To The Battalion
PRINCETON, N. J.—An election campaign promising rich rewards for the successful candidates gets under way Monday as thousands of faculty members from universities and colleges in the United States and Canada begin to nominate college seniors for Woodrow Wilson graduate fellowships.

In announcing the opening of the competition for the academic year 1961-62, Dr. Hugh Taylor, President of the Woodrow Wilson National Fellowship Foundation, estimated that well over 9,000 students will be nominated by the closing date of Oct. 31.

Designed to reduce a nationwide shortage of qualified college teachers, the program annually awards 1,000 fellowships for the first year graduate study at any university of the recipient's choice in the United States or Canada.

Candidates are elected only after rigorous screening and personal interviews by one of fifteen regional committees of educators. Each elected fellow receives a \$1,500 stipend for living expenses plus full tuition and family allowances.

Open To Graduates

The program is open to college graduates mainly in the humanities and social sciences. Both men and women are eligible, and there is no limit on the age of the candidate or on the number of years he may have been out of college.

Those who receive awards are not asked to commit themselves to college teaching, but merely to "consider it seriously" as a possible career.

The program, designed to encourage college seniors of outstanding ability to study for advanced degrees with faculty jobs

as their goal, is administered by the Woodrow Wilson National Fellowship Foundation under a \$24,500,000 five-year grant from the Ford Foundation.

Dr. Hans Rosenhaupt, National Director of the Wilson Fellowship Foundation, in an analysis of the past five years' activities, reported that the highly selected grants have been awarded to graduates from 560 different colleges. This is convincing proof that many colleges throughout the country, not only the few well-known ones, offer high quality education.

Almost 90 per cent of all the 1,000 Fellows in 1959-60 continued study after the first year, and more than 75 per cent of all Fellows eventually end up in academic positions. Of the nominated candidates who failed to win Woodrow Wilson Fellowships more than 80 per cent, Dr. Rosenhaupt

said, went on to graduate school anyway, often with financial help from other sources. He estimated the annual need for new college teachers at 30,000 a year for the next ten years.

No Direct Applications

The Woodrow Wilson National Fellowship Foundation does not accept applications directly from students. Every candidate for the award must be nominated by a faculty member. Nominated students are invited to declare themselves active candidates for the award by sending the necessary application forms to the chairman of the selection committee for the region in which the prospective candidate is now located.

A list of the fifteen regions and the names of the regional chairmen may be obtained from the Foundation's national headquarters, Box 642, Princeton, N. J., or from the Woodrow Wilson representative on any campus in the United States and Canada. Names of fellowship winners will be made known by Mar. 15, 1961.

Dinner-Dances Begin

A near capacity crowd of A&M faculty and staff Dinner-Dance meetings. Here the staff members turned out last night for faculty and staff members dance following the first of the year's series of Faculty and an initial banquet session.
