COLLEGE STATION, TEXAS FRIDAY, OCTOBER 7, 1960

Number 12

## List Of Goals Given Senate By Hannigan

By ALAN PAYNE  
Battalion News Editor

An impressive list of goals for the 1960-61 school year was presented members of the Student Senate last night by James P. Hannigan, dean of students.

Hannigan, speaking at the first meeting of the organization this year, listed ten campus organizations he felt the Senate would do well to form a closer relationship with.

These organizations included the Intercouncil Committee, Campus Visitors' Committee, Interfaith Council, Council of Presidents of Hometown Clubs, Student Chamber of Commerce, Minor Sports Club, Yell Leaders and Bon-Fire Committee, Intramural Managers Committee, various schools' honor societies, foreign students and several others.

The dean also told the near 100 per cent representation present he would like to see more election campaigning and bigger turn-outs in campus elections.

**Honor Code Advocated**  
Hannigan also urged the group to back the formation of a student honor code, now being considered by various student groups. The dean said he felt honor on the campus of A&M is "very fine compared to other schools, but we still could use a clear-cut, acceptable, easily enforced honor code."

"The dean also brought up the possibilities of establishing a code of dress on campus. He emphasized, however, only a few students seriously violate accepted modes of dress."  
"But there is a point at which I think you will agree a reasonable request will be acceptable," Hannigan added.

**Committees Cited**  
Hannigan cited the Senate's four committees as the best groups

to bring together the organization and the various campus groups he listed as not being closely enough associated with the Senate.

He called the Senate a very important coordinating agency to bring these groups together in a liaison.

The Senate's four committees and their respective chairmen are the Issues Committee, Roger Ratliff; Student Life Committee, Billy Bob Hutson; Student Welfare Committee, Richard Vander Stucken, and Public Relations Committee, Bob Bower.

In other Senate business enacted before Hannigan's address, senators were elected to the posts of Senate chaplain and Senate corresponding secretary.

Brantley Laycock was elected chaplain over Jimmy Johnson, while Tim Pixley was elected corresponding secretary by acclamation.

**Respective Duties**  
Laycock's duties will consist of giving invocations at Senate meetings and various student gatherings, while Pixley will be responsible for handling Senate correspondence from other schools.

The meeting began with committee reports from three of the Senate's four committees. Vander Stucken and Bower gave reports for their committees, while Senate President Roland Dommet gave a report for the Student Life Committee in the absence of Chairman Hutson, who has the flu.

## A&M Again Given Military College Rating

A&M was inspected Oct. 3-4 by a joint Air Force-Army inspection team and was found qualified to receive again the Class MC (military college) rates of commutation only for those formally enrolled cadets who are housed in military dormitories on the campus.

These rates are double the civilian college rates.

All other formally enrolled cadets, those who live off the campus and in dormitories with non-members of the Corps, are entitled to the Class CC (civilian college) rates.

Col. Joe Davis, Commandant of the College, expressed appreciation to cadet commanders for the manner in which they have accepted responsibility and to all members of the Corps of Cadets for their successful efforts in maintaining the military college classification.

Dean of Students James P. Hannigan expressed his appreciation to the Military and Air Science staffs, the Commandant of the College and the Tactical Officers and especially the members of the Corps of Cadets who have so promptly taken up the reins of the cadets who have graduated and whose leadership ability and initiative have made Corps such a fine organization so soon after the opening of school.

## CSC Filings Open For Civilian Posts

Filings for day student representative to the Civilian Student Council are open until 5 p.m. today and day students can file at either W. G. Breazeale's office in Pur-year Hall or the office of R. O. Murray, Jr. in the Basic Division Building.

The election will be held tomorrow from 8 p.m.-6 p.m. in the Housing Office, and winners will be notified by Thursday morning.

## Ferguson Speaks To Vet Society

Dr. James L. Ferguson, of Win-rock Earnings, Morrilton, Ark., will be guest speaker at a Student Chapter meeting of the American Veterinary Medical Assn. to be held today in the Veterinary Hospital Amphitheater.

Dr. Ferguson's topic will be "Artificial Insemination and the Transfer of Live Ova." He has just returned from Europe where he has made a study of the subject.

## Pet. E. Meet To Emphasize Evaluation

Registrants at the third Advanced Petroleum Reservoir Engineering Course to be held here Oct. 31-Nov. 11 will learn the latest methods of evaluating performance of petroleum reservoirs.

This information may be used as a basis of selecting field operating procedures to achieve optimum recovery.

D. M. Bass Jr., A&M petroleum engineering professor and one of the course instructors, said the two-week-long session includes 17 hours of lecture on rock properties, fluid properties and basic reservoir mechanics.

Sixteen hours of lecture and computations will cover well performance and 50 hours of lecture and computation will be devoted to reservoir performance.

He said the current offering is an outgrowth of summer courses offered in 1956 and 1957. It was first offered in the present form in the fall of 1959.

The course starts at 8 a.m. the first day in the Industry Course room of the recently completed W. T. Doherty Petroleum Engineering Building, Professor Bass said.

The instructor said students in attendance will include representatives of 15 major and independent oil companies.

One of the registrants is from India, three from Venezuela, two from California, one from Louisiana, two from Oklahoma, one from Mississippi and eight from Texas.

Companies represented are the Burmah Oil Co., Assam, India; California Co., New Orleans, La.; California Research Corp., La Habra, Calif.; Delhi-Taylor Oil Corp., H. J. Gruy and Associates, Inc., Lone Star Producing Co., all of Dallas; Kewanee Oil Co., Sinclair Research Laboratory, Tulsa, Okla.; Lion Oil Co., Texas Gas Transmission Co., Houston; Richmond Exploration Co., Maracaibo, Venezuelan Sun Oil Co., Caracas and Wireline Engineers, S. A., Zulia, all of Venezuela; Tennessee Gas and Oil, Shreveport, La.; Tidewater Oil Co., Ventura, Calif.

Instructors in addition to Bass are Robert L. Whiting, head of the Department of Petroleum Engineering and Prof. James W. Amyx of the Department.

A&M—University of Houston Clash ... Ags get second win of year?

## Lineup Changes In 1st, 2nd Units

By JOE CALLICOATTE  
Battalion Sports Editor

Coach Jim Myers was quite happy yesterday afternoon after his Aggie footballers were literally filled with "get up and go" as they went through a relatively short workout, preparing for Saturday's game with the University of Houston Cougars.

The practice session was one of the most spirited in a long time said Myers after he had been disappointed in the Cadet progress earlier in the week.

The first and second team worked for about an hour yesterday, with the third and fourth team sticking it out about twenty minutes longer. In evidence of this week's spirit, the practice field was filled with enthusiastic chatter.

Lineup changes were in store for the Aggies first and second units this week as Russell Hill regained his starting position at right end ahead of Bob Phillips. This will be Hill's first appearance as a starter this fall after he won the honor in spring training.

Joe Eilers and Wayne Freiling "swapped" positions again this week at the right tackle slot after Freiling started last week against Trinity. Both men have been seeing action at the first team tackle spot all season.

The Aggies were fortunate not to receive any injuries against Trinity last week.

Randy Sims and Lee Roy Caffey, who were out last week, also will return to action this week along with Jim Murphy, Babe Craig and George Hogan, who had light cases of the flu earlier in the week.

Although the Aggie pass protection was described by Myers as sloppy in Wednesday's practice, the offensive passing game looked improved. Myers said Ronnie Brice has looked real good throwing the ball all week.

Although the Cougars brought back a host of injured players after their game with Oregon State last week in Portland they are still picked to win over the Aggies.

Practice sessions started late for Houston this week as they were a day late coming back from Oregon and rain slackened another practice.

The Aggies left for Houston today about 3:15 and, on arrival, the 40-man squad will hold a short workout at Rice Stadium.

## Band Members Seek Sponsors In Houston

Still plugging and hoping for the best, two band members are journeying to Houston this week-end seeking sponsors for their trip to Washington and the president's inauguration Jan. 17-20.

Walter R. (Bubba) Willms, commander of the Consolidated Bands and Charles Chandler, major on the Consolidated Bands staff will leave tomorrow morning, hoping to talk to oil men and others in Houston. They are seeking \$3,000 to defray some of the expenses of the trip.

Texas' Adjutant General K. L. Berry has offered transportation for the ROTC members of the band.

Dean of Students James P. Hannigan has already expressed a desire to see the group go, and has given his approval to the Houston trip.

Willms said the band was still willing to take on the trip if the difficulties could be worked out.

"We are still ready to go, and if we are successful in Houston tomorrow, we should have overcome one of the largest hurdles," he said.

**CORRECTION**  
The Ross Volunteer initiation banquet will be held Tuesday, Oct. 11 instead of Wednesday, Oct. 12 as announced in The Battalion Thursday.

## Ag Rodeo Riders Hindered By Rain

Mud and rain were the order of the day for the opening night of the All-Aggie Rodeo. But in spite of the inclement conditions the local cowboys and cowgirls put on an outstanding exhibition.

Only one contestant qualified in bareback bronc riding, the first event. Philip Cox, riding a horse called Elvis Presley received 155 points for his efforts.

The calf ropers fared somewhat better. Three entrants, Jay Tripp, Dick Withers, and Brazos Varisco qualified with respective times of 14.2, 14.8, and 15.2 seconds.

Six of the girls entered in the barrel race were able to qualify. The quagmire conditions of the arena made the quick turning dangerous, and all the girls were impeded by sliding in their turns. The times for the race were: Jo Walling 19.2, Betty Holiday 19.8, Dawn Tripp 20.0, Ann Holiday 20.0, Georgia Cobb 20.8, and Gloria Rice 21.9.

In the ribbon roping, contestants were required to rope a calf and return to the starting gate with the ribbon which was attached to the calf's tail. Five entrants were able to make qualifying times, Jay Tripp with 13.7 seconds, followed by Fred Smith, 18.5; Sam German, 20.4; Brazos Varisco, 29.5; and Jerry Andis, 30.7.

Winning the steer wrestling was Rodney Butler with a time of 9.5 seconds. Behind Butler were four cowboys, John Beall, 17.3; Don Workman, 19.2; Kenneth Beasley, 27.8; and Jimmy Theek, 1:01.0.

No riders in the bull riding event were able to qualify.

Two intramural events, a calf scramble and a wild cow saddling, were held during the rodeo. Both turned into a mud bath for the boys entered.

In the freshman events Simpton of C-1 won the calf scramble with a time of 1 minute and 8 seconds. The cow saddling team from

## World Wrap-Up

By The Associated Press

**Spokesman Warns Against Intervention**  
UNITED NATIONS, N. Y.—A spokesman for the former French Congo warned Thursday against foreign intervention in Africa as well as too fast a spread of Pan-Africanism.

Foreign Minister Stephane Tchicelle was the first to speak for any of 16 new African nations in U.N. General Assembly debate.

Much of his statement was an attack on Portuguese rule over Angola and Mozambique, vast areas that are among the few foreign-held parts of sub-Saharan Africa. The Portuguese said they would reply in detail Friday.

**Red China Issue In U.N.**  
UNITED NATIONS, N. Y.—The U.N. General Assembly plunged Thursday night into a wrangle over the Red China membership issue.

The United States, aware it had aroused resentment in the powerful Asian-African bloc, still was confident of barring action.

The Soviet bloc opened the debate with a new attack on the United States keyed to the theme of discrimination against Negroes in the United States, already raised in the assembly by Soviet Premier Khrushchev Saturday.

**Six Texas Cities Ask Better Air Service**  
DALLAS—Half a dozen Texas cities plus Shreveport, La., asked a Civil Aeronautics Board examiner Thursday for better airline service, or at least facilities as good as at present.

The board is trying to determine routes and local carriers that can best serve 60 cities in Texas and states that surround it. Witnesses appeared from San Angelo, Temple, Texarkana, Sherman, Waco, Pecos and Shreveport.

## Restrictions On Dorm Area Driving Issued

A memorandum outlining a new policy for driving cars in the dormitory areas was issued yesterday by the Office of the Commandant.

The memorandum issued the following instructions:

Any student who has reason to drive into the dorm area must first obtain written permission from either his tactical officer, the tactical O.D., the Commandant's office or Campus Security.

Cadet commanders and other cadets responsible for the enforcement of other published restrictions, tactical officers and the Cadet Guard are charged to apprehend any unauthorized vehicle in the dorm area.

The driver or owner of the unauthorized vehicle will be assessed 10 demerits. Civilian students will be reported to their counselors.

The memorandum said the restrictions would be relaxed to permit loading and unloading at the end of each semester.

## IT'S NOT ASIAN FLU THIS TIME

# Flu Attack Subsiding After 600 Cases Treated

Texas A&M's flu attack is subsiding. That was the word from Dr. C. R. Lyons, director of student health services, Thursday night.

"The number of students reporting with upper respiratory ailments has definitely slowed down," Dr. Lyons said. "If there is any break in the weather it should clear up completely," he said. "We definitely have nothing to be alarmed about," he said.

**Large Number of Colds**  
Between 150 to 300 students had been reporting to the hospital every day for flu and cold treatment. The addition of a nurse to the staff to treat only colds has greatly speeded up treatments.

The type of flu that has hit the A&M campus is of a virus type, not the Asian variety of 1957. The drenching received by students at the A&M-Texas Tech game may have been the cause of the onslaught of ills. The attack of flu has been called the worst since 1957 when 2,000 students were afflicted.

**Over 600 Cases**  
Since Sept. 29 the hospital has treated over 600 students for cold and flu symptoms. About 20 students are now hospitalized with the flu. The average stay for flu victims is about two days.

Freshmen seem to be catching the brunt of the virus. Lack of sleep is one of the contributory causes to the sickness.

**Students Seek Treatment**  
Hospital spokesmen emphasize that students seeking cold or flu treatment should come to the hospital between the hours of 8 a.m. and 5 p.m. Because of the overload of cases only emergencies can be taken care of after hours. Only one nurse and an assistant nurse are on night duty and they are kept busy caring for bedridden patients.

Dr. Lyons advised the best resistance builder is enough sleep, and said this explains why the majority of flu cases are freshmen. Not yet being totally adjusted to the active lives that they have been leading the last several weeks is a determining factor, he said.

"We have been able to handle the students much better now that we have opened our cold clinic. We have hired another nurse, and have been treating a larger number of students as a result," said Dr. Lyons.

**Other Ailments**  
Besides colds, flu, sore throats and ear aches, the hospital has had to treat a large number of blisters.

"This blister problem is to be expected, with over 2,000 freshmen breaking in their new military shoes, but the problem should die down eventually," said Mrs. Homer Shultz, receptionist at the hospital.
