Civilians Urged To **Attend Party**

James G. Lowden, president of the Dallas A&M Club, last week urged civilian students to attend the party in Dallas following the Texas A&M-Southern Methodist University football game.

"This party is for civilian students and students in the Corps of Cadets," he said.

'But there appers to be lag in the ticket sales to the civilian students and we feel that they may have the feeling it is strictly for the Corps of Cadets.

Social Calendar

The following clubs and organizations have scheduled meetings: The PreMed-PreDent Society will meet tonight at 7:30 p.m. in Room 113 of the Biological Science Building.

Latest Threat To Divide West

By J. M. ROBERTS Associated Press News Analyst about not being able to wait, it is hard to believe that Soviet Premier Khrushchev will provoke a really serious crisis over Berlin next spring.

His latest threat is primarily an attempt to divide the West. with the British going for preventive summit conference, the United States reverting to the wariness of previous years, and France all bound up in her own precarious affairs.

Khruschev may also wish to try out the new American president as quickly as possible, as a factor in fashioning his own propaganda line. He knows, however, that there

is no possibility of changing Western views about Berlin, the city is the symbol of the whole unsettled German question, and of the Anglo-American commitment to defend Western Europe. Berlin is not merely an offshore island, or a matter of principle. Berlin and West Germany represent Europe's front door on the no possibility that it can be

forced without producing a general war.

A

Banlon

EXCLUSIVE

Khrushchev may sign his separate peace with East Germany. That is meaningless, since Soviet control there will remain un-

thing Khrushchev will probably wish to hold in reserve rather Despite his deadlines and talk than run the risks involved. The worst cold war beating Stalin ever took was when he tried to blockade the city in 1948, and Khrushchev undoubtedly remembers. Allied determination was made

clead at the Washington meeting of foreign ministers prior to the abortive Paris conference in May. Rather than face the turndown he would have gotten then, Khrushchev blew up the conference.

Nothing has changed to give him hope that he will fare any better next time. Both the presidential candidates in the United States know that Germany is the key to the whole free world position.

Whoever is elected will, of course, be faced with an early decision about whether to let Khrushchev have his summit conference at all. In this, British Prime Minister Harold MacMillan will probably carry the day with his idea that no more serious crisis will be created while talks Communist sphere, and there is are pending or under way.

A FRAT TO REMEMBER

Every year, as we all know, the Benevolent and Protective Order of Collegiate Fraternities awards a highly coveted prize to the fraternity house which, in its judgment, has done the most to promote and enhance the fraternity way of life. The prize this year-eight hundred pounds of white putty-goes to the Signa Phi Nothing chapter of the South Dakota College of Dentistry and Renaissance Art.

The award this year is exceptionally richly deserved, for the Signa Phi Nothing house is the very model of all a fraternity should be. It is, first of all, a most attractive house physically. The outside walls are tastefully covered with sequins. Running along the upper story is a widow's walk, with a widow stationed every three feet. Moored to the chimney pot is the Graf Zeppelin.

Indoors, the house gives an impression of simple, casual charm. The chapter room is furnished in homey maple and chintz, with a dash of verve provided by a carp pool three hundred feet in diameter. A waterspout rises from the center of the pool with the housemother bouncing on the top.

Members' rooms are gracious and airy and are provided with beds which disappear into the wall-permanently. Each room also has a desk, a comfortable chair, a good reading lamp, and a catapult for skeetshooting. Kidney-shaped desks are available for kidney-shaped members.

Perhaps the most fetching feature of the house are the packs of Marlboros stacked in heaps wherever one goes. If one wishes to settle back and enjoy a full-flavored smoke, one needs only to reach out one's hand in any direction and pick a pack of Marlboros-soft pack or flip-top box-and make one's self comfortable with a filtered cigarette with an unfiltered taste-that triumph of the tobacconist's art, that paragon of smokes, that acme of cigarettes, that employer of mine-Marlboro!

Opportunities for Growth

... IN A GROWING COMPANY

Capable young men and women have extra opportunity in a growing company serving a growing area. During the past twelve years, Texas Electric Service Company has increased its power generating capability to more than nine times that of 1947, has constructed more than 1100 miles of high voltage transmission lines and 2800 miles of distribution lines, along with related substation and other facilities, more than doubled the number of employees, and serves more than twice as many customers.

And the company is continuing to build its organization as it plans and constructs new electric transmission and distribution facilities to serve our rapidly developing area. New career opportunities are opening for quali-

"Serving Texas Aggies"

The decor, the grace, the Marlboros, all combine to make Signa Phi Nothing a real gas of a fraternity. But a fraternity is more than things; it is also people. And it is in the people department that Signa Phi Nothing really shines.

Signa Phi Nothing has among its members the biggest BMOCs on the entire campus of the South Dakota College of Dentistry and Renaissance Art. There is, for instance, William Makepeace Sigafoos, charcoal and bun chairman of the annual Stamp Club outing. Then there is Dun Rovin, winner of last year's All-South Dakota State Monopoly Championship, 135 Pound Class. Then there is Rock Schwartz, who can sleep standing up. Then there is Tremblant Placebo, who can crack pecans in his armpits. Then there is Ralph Tungsten, who went bald at eight.

But why go on? You can see what a splendid bunch of chaps, there is in Signa Phi Nothing, and when one sees them at the house in the cool of the evening, all busy with their taskssome picking locks, some playing Jacks-or-Better, some clipping Playboy-one's heart fills up and one's eyes grow misty, and one cannot but give three cheers and a tiger for Signa Phi Nothing, fraternity of the year!

C 1960 Max Shulman * * *

And while you're cheering, how about a huzzah for the newest member of the Marlboro family of fine cigarettes-unfiltered, mild, delightful Philip Morris king-size Commander! Have a Commander—welcome aboard!
