

### .22 Caliber Rifle Team Defeats Baylor In Match

The A&M .22 caliber rifle team won a shoulder to shoulder match with Baylor University at Baylor, Saturday by a score of 1423 out

of a possible 1500, while Baylor scored 1402.

Gary Lee Byrd, freshman from Dallas, was A&M's high point man with a 288 out of 300.

Team members participating included, J. Michael Wilkerson, Franklin Loudermilk, James H. Elders, McCloud B. Hodges and Nathan William Pippin.

### October GI Checks Now Available

Students attending school under the GI Bill may sign for their October payforms at the Veterans Advisors office beginning today and continuing through Friday, Bennie A. Zinn, veterans adviser, announced yesterday.

### MARILYN CARPENTER

## San Antonio Farm Lass Represents State At Fair

Special To The Battalion AUSTIN—A pretty miss who knows how to milk a cow and who is a lovely testimonial to the value of milk and other dairy foods in the diet, is Texas' hope for bringing the National American Dairy Princess title to our state.

Miss Marilyn Carpenter, 21, daughter of dairy farmer and Mrs. Clyde E. Carpenter of San Antonio, leaves Thursday for Chicago to compete for the dairy industry's highest honors with 31 other

state Dairy Princesses, finalists out of more than 30,000 young women who have sought the title.

Each year dairy farmers of Texas participate in this national youth awards program by selecting one outstanding dairy farm girl to serve as Texas Dairy Princess. College Senior Miss Carpenter, a senior this year at Southwest Texas College in San Marcos, has served our Texas dairy industry for one year as 1960 Texas Dairy Princess traveling throughout the state speaking for milk and milk products.

### Odessa Doctor To Speak Tonight To Junior AVMA

Dr. Guy Anderson will be the speaker at the Junior AVMA meeting tonight at 7:30 in the Amphitheatre of the Large Animal Clinic at the Veterinary Medicine Hospital.

Anderson, a small animal practitioner in Odessa, will discuss various practices in treating small animals and is due to show several slides illustrating his talk. These slides will illustrate several occurrences he has encountered in actual cases as a practitioner.

Our national entry relinquished her state title this fall to Miss Louise Knolle, daughter of Mr. and Mrs. Ed Knolle of Sandia, who was selected to represent our dairy industry as 1961 Texas Dairy Princess. Miss Knolle, a freshman at Southern Methodist University in Dallas, will serve our Texas dairy industry for one year and will then be eligible to compete in the National Dairy Princess program next fall.

### WHO'S WHO

(Continued from Page 1)

37 students who will represent A&M.

Before the A&M students can actually be accepted by "Who's Who," the list must be sent to the national headquarters in Tuscaloosa, Ala. for approval.

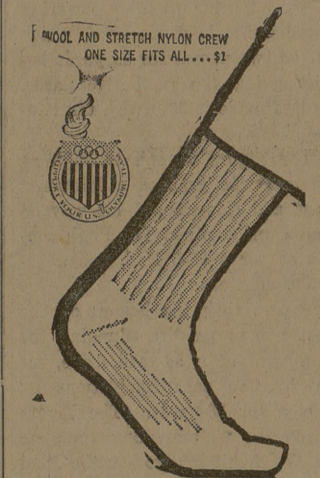

To be eligible for election to "Who's Who Among Students in American Universities and Colleges," a student must fulfill the following requirements:

- He must be an academic senior and be expected to receive his next degree not later than June of 1962.
- He must have a grade point ratio of 1.5 or better.
- He must be active in campus activities.
- He must show qualities of leadership as indicated by positions held in student organizations.
- He must be popular with his fellow students.
- And he must not have been considered for "Who's Who" anytime before.

### Ag Experiment Station Director To Attend Meeting

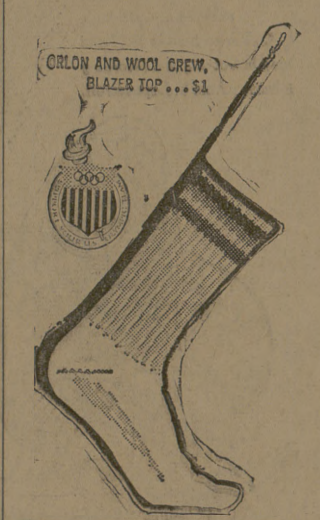

R. D. Lewis, Director of the Texas Agricultural Experiment Station, will attend the annual marketing of the U. S. Department of Agriculture's Rice Research and Marketing Advisory Committee in Stuttgart, Ark., Oct. 31-Nov. 2. Dr. Lewis, who is vice-chairman of the committee, was appointed to the group in 1952 by the Secretary of Agriculture.

Established under the Research and Marketing Act of 1946, the committee is one of 24 functional and commodity advisory committees named by the Secretary to advise USDA on its research program. This 10-member group will develop detailed recommendations to the Department regarding its current and future program of rice research.

OLYMPIAN CREWS by Esquire Socks

Three cheers for handsome Olympian Crew Esquire Socks... a new favorite with undergrads and alumni alike. You'll understand why the minute you put them on. Smartly styled, fine fitting and comfortable, they're a truly wonderful sock for sports and casual wear.

### 49 Attend Secretarial Meeting Here

Seventeen members of the Bryan-College Station Chapter, The National Secretaries Assn. (International) and 32 guests attended a dinner meeting Wednesday at which time the members of the Chapter entertained their boss's wives.

Miss Alma Kasner, president of the Chapter, told their boss's wives that in addition to performing their duties as secretaries, the members participate in many civic activities, offering their services to their communities whenever needed.

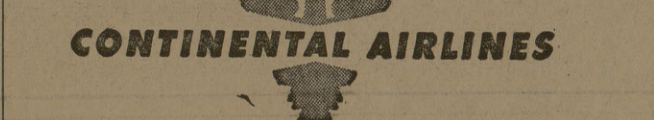

The Bryan-College Station Chapter presents a scholarship each year to some deserving high school graduate, sponsors an essay contest, conducts a seminar for secretaries and participates in Operations Christmas Cheer for the TB Assn. The seminar for secretaries will be held Feb. 18, 1961, and will carry the theme "Adventure in Variables."

Mrs. Helen Snyder of The Real Hat Shop gave a talk on hats for today, tonight and the future. Mrs. Snyder says a hat is not just a hat—it is a morale builder, it's the finishing touch for a well dressed woman and sometimes the bright spot in an otherwise drab costume.

**GROWTH POTENTIAL**  
IS A  
**FACT**  
AT  
**CONVAIR FORT WORTH**

Interviews on Campus  
THURSDAY and FRIDAY, OCTOBER 27 & 28

A basic fact in engineering thinking at Convaire/Fort Worth is growth potential. It is responsible for design decisions, for the concept of the engineering organization, and for the enthusiasm and initiative of individual engineering effort. For the new engineering employee, growth potential at Convaire/Fort Worth means an opportunity to team with men whose engineering knowledge ranks among the nation's highest. It means a technical challenge and a keen sense of achievement in his work. And it means opportunity for advancement... as evidenced by the fact that 95% of all supervisory personnel in the Engineering Department at Convaire/Fort Worth achieved their positions by advancement within the organization. If growth potential ranks high in your selection of an engineering position with a sound future, you're invited to investigate.
