

## Thirteen Complete 19th Arms Course

Thirteen Brazos County youngsters completed the 19th Basic Small Arms Training School and received certificates during ceremonies held at Pleasant Acres. Short talks on the aims of the Twin City Junior Rifle Club, sponsors of the school in conjunction with the National Rifle Assn., were given by Bob Dansby, Mike Adams and Bill Brady.

Bari Knowles received the Marks Trophy donated by the Bryan-College Station Chamber of Commerce. The trophy was in recognition of the highest grouping score fired by all members of the class. Knowles also received the Morgan Smith plaque, a revolving award which will remain in his possession until the end of the next school.

Knowles' name will appear on the plaque along with those of the winners of the first eighteen schools. A Safety Trophy was presented to Don McCrory. This award is based on grades during the school, final examination, and scores fired.

Pat Loyd and Joy Pohl presented National Rifle Assn. Marksman awards to Niel Anderson, Carl Gough, Bari Knowles, Don McCrory, Howard Poerterfield and Wallace Williams.

Pro-Marksman awards went to Mary Amyx, Jim Boone, Stephen Henry, Paul Madeley, Kenny Mallard, Tommy Peacock and Debbie Pose.

**Technical Point**  
The four men above are discussing a technical point at the Advanced Drilling Engineering Course, which concluded Friday. They are, left to right, Burton Brown, Diamond Alkali Co., Cleveland, Ohio; John R. Henning, United Fuel Gas Co., Paintville, Ky., and Walter H. Johnson, Lawrence Radiation Laboratory, Mercury, Nevada.

## Third Advanced Drilling Course Completed Friday

The Department of Petroleum Engineering has just concluded its third session of the Advanced Drilling Engineering Course offered for members of the petroleum industry. This was a two-week course consisting of eight hours a day lectures five days a week for the two-weeks' period. The lectures were given by mem-

bers of the faculty of the Department of Petroleum Engineering and by outstanding men of the oil industry itself. The third session of the drilling school had an enrollment of 20 men representing drilling personnel from Europe, South America and the United States. For the most part these men represented oil producing companies, drilling contractors and supply companies whose products are sold almost exclusively to the oil industry.

**Last Week**  
The last week of the school was devoted to a study of the drilling rig, optimum conditions for rock penetration, factors affecting the rate of penetration, formation evaluation, drilling economics, hydraulics and public-oil industry relations.

### DALLAS

(Continued from Page 1)  
outfits and dormitories with an expected 1,700 couples occupying the first floor, and 750 on the second level.

All students of A&M, in addition to former students and students at Texas Women's University, have been invited to attend the enormous after-game celebration.

Those Aggies who did not purchase duets to the "blast" may do so at the door with identification cards, according to Charlie Howard, class of '48, who is head of the planning committee.

Friday afternoon the men attending the school were addressed by a drilling panel who presented for discussion their ideas on methods of reducing drilling costs from the standpoint of the major company operator, the drilling contractor, the supply company and research.

At noon on the last day of the third session the enrollees were entertained at a smorgasbord luncheon at the Memorial Student Center.

**Next One In April**  
The next session of the Advanced Drilling Engineering Course for Petroleum Industry Personnel is tentatively scheduled for April. This will be the fourth session for this course. The general curricula used in the third session will be followed in the fourth session with a few minor changes possible where it is thought that the course as a whole might profit by these changes. Each of the subsequent sessions will be of two-weeks' duration and the instructors will again be members of the Petroleum Engineering faculty and outstanding men of the petroleum industry.

The Advanced Drilling Engineering Course is a presentation of the Department of Petroleum Engineering in conjunction with the American Association of Oilwell Drilling Contractors, which group made this course possible by a cash gift to the department of some \$2,500 to initiate and implement the setting up of such a training course.

## New ACT Plan Now Formulated

Special To The Battalion  
WACO—Formation of the new American College Testing Program in Texas, in which 67 Texas colleges and universities participate, has been announced by Alton B. Lee, Registrar and Director of Admissions of Baylor University. These 67 colleges and universities require, recommend or accept ACT scores from their applicants for admission, according to Lee, who is state coordinator for the program.

Results of the test are used by some 500 colleges and universities participating in the nation-wide American College Testing Program with which the Texas division is affiliated, Lee added.

Colleges participating in the ACT Program use results in student guidance, admissions and in the awarding of scholarship aid to the applicants, as well as in placing freshman in classes or programs suited to their ability.

The three-hour test, to be given Saturday, has four parts that yield five scores—a composite score indicating overall college potential, and four separate scores indicating levels of general capability in English, mathematics, social studies and the natural sciences.

Results and manuals explaining how scores should be interpreted are furnished colleges indicated by the student and are sent to the student's high school for his and the school's use in guidance.

## Vote as a Free American!

Vote the Ticket that is BEST FOR TEXAS  
HERE'S HOW TO DO IT

**OFFICIAL BALLOT**

YOUNG LIVES	THESE NAMES	HOW TO WRITE	MISPLACED
SCHEMATIC	ELITE	OTLINE	EULIMING
ELWERSIS...	TO MA	HOWAR	FLANKO
URDISTUM	LOW	ATIONS	MUSERS
TRAINING	SWIM	WOME	TINKETH
MECHANICS	DALLAS		LOSILOR
WEATHER	TIME TO	LOETS	WKLMO

Look for these names at the top of one of the columns:  
**For President and Vice President**  
**RICHARD M. NIXON and HENRY CABOT LODGE**

1. Find the names of RICHARD M. NIXON and HENRY CABOT LODGE at the top of your ballot.
2. Leave the names NIXON and LODGE unmarked on the ballot; scratch all other names for President and Vice President.
3. To complete your ballot, leave the name of the candidate for whom you wish to vote for each office and scratch the rest.

### WARNING!

You may be told that you cannot vote for Nixon and Lodge if (1) you voted in the Democratic Primary or (2) your poll tax receipt or exemption certificate is stamped "Democrat." THIS IS NOT TRUE. You CAN vote for any candidate you wish, no matter how you have voted, or not voted, in any previous primary or election. THIS IS YOUR RIGHT AS A FREE AMERICAN.

**Vote November 8 for NIXON and LODGE**

Texas Democrats for NIXON & LODGE, Allan Shivers, Chairman (Pd. Pol. Adv.)
