'One Day's Pay'

'One Day's Pay: The United Way!' is a theme well worth considering, as the United Chest Drive gets underway during these first 15 days of November.

With a goal of \$15,150, the United Chest workers are in high hopes of repeating last year's record, when they over-shot their mark.

This surpassing of the goal had many desirable effects, including the clear indication it gave that the people of College Station are charity-minded and in favor of such a program. These citizens also have seen the benefits reaped from their contributions, as city agencies such as the College Station Community House, Boy Scouts, Girl Scouts, and many other community, charity, medical and youth agencies providing service through the money contributed.

At present, the leading Texas town in United Chest contributions is Dumas, a small town near Amarillo, which has already collected 103 per cent of its goal.

This is a challenge to the people of College Station and the surrounding area; 103 per cent of \$15,150 is \$15,604.50, although local contributors aren't usually satisfied with matching the efforts of some other community; they generally like to surpass the others.

The United Chest program has also been advocated by Chancellor M. T. Harrington and President Earl Rudder, who yesterday endorsed it with a memorandum to the major academic and non-academic departments on campus.

This program is not to be confused with the Campus Chest, which will begin in December, near Christmas time.

United Chest offers an opportunity for all to help their community. Remember: one day's pay isn't much when compared to its returns through United Chest.

Social Calendar

The following clubs will meet tonight:

The Aggie Wives Bridge Club will meet in the Ballroom of the Memorial Student Center at 7:30 p. m.

The following clubs will meet tomorrow night:

The Fort Bend County Home-town Club will meet at 7:30 p. m. in Room 223 of the Academic Building.

The Pasadena Hometown Club will meet at 7:30 p. m. in Room 203 of the Academic Building.

The Wichita Falls Hometown Club will meet in Room 106 of the Biological Science Building at 7:30 p. m.

The Big Thicket Hometown Club will meet in the Lounge of Puryear Hall at 7:30 p. m.

The Grayson County Hometown Club will meet in the Gay Room of the YMCA at 7:30 p. m.

The Rio Grande Valley Hometown Club will meet in the Fountain Room of the YMCA at 7:30 p. m.

The Bellaire Hometown Club will meet in Room 207 of the Academic Building at 7:30 p. m. All members are requested to bring their dues.

The Fayette-Colorado Hometown Club will meet in Room 305 of the Academic Building at 7:30 p. m.

THE BATTALION

Opinions expressed in The Battalion are those of the student writers only. The Battalion is a non-tax-supported, non-profit, self-supporting educational enterprise edited and operated by students as a community newspaper and is under the supervision of the director of Student Publications at Texas A&M College.

Members of the Student Publications Board are L. A. Dueswall, director of Student Publications, chairman; Dr. A. L. Bennett, School of Arts and Sciences; Dr. K. J. Koenig, School of Engineering; Otto R. Kunze, School of Agriculture; and Dr. E. D. McMurry, School of Veterinary Medicine.

The Battalion, a student newspaper at Texas A&M, is published in College Station, Texas, daily except Saturday, Sunday, and holiday periods, September through May, and once a week during summer school.

Entered as second-class matter at the Post Office in College Station, Texas, under the Act of Congress of March 3, 1879.

The Associated Press is entitled exclusively to the use for republication of all news dispatches credited to it or not otherwise credited in the paper and local news of spontaneous origin published herein. Rights of republication of all other matter herein are also reserved.

News contributions may be made by telephoning VI 6-6618 or VI 6-4910 or at the editorial office, Room 4, YMCA. For advertising or delivery call VI 6-4415.

Mail subscriptions are \$3.50 per semester; \$6 per school year, \$6.50 per full year. Advertising rate furnished on request. Address: The Battalion, Room 4, YMCA, College Station, Texas.

Job Interviews

The following firms will be on campus to interview graduating seniors:

Thursday

The United States Army Ordnance will hold interviews for students with degrees in aeronautical engineering, electrical engineering, industrial engineering, mechanical engineering, chemistry, mathematics and physics at all degree levels for work in weapons research, development, production and other related jobs.

★★★

The Koppers Company, Inc. will interview students with degrees in chemical and mechanical engineering at the BS degree levels.

★★★

The Boeing Airplane Co. will have interviews for students with degrees in aeronautical engineering, civil engineering, electrical engineering, industrial engineering, mechanical engineering, mathematics and physics. The jobs available are in many various fields in the manufacture of aircraft.

★★★

Thursday-Friday

Chance Vought Aircraft, Inc. will interview students majoring in aeronautical engineering, civil engineering, electrical engineering, mechanical engineering and nuclear engineering with BS, MS and PhD degree levels. They will also interview math majors with MA and PhD degree levels and physics majors with MS and PhD degree levels. The work will be in astronautics, aeronautics, range systems, electronics, and research.

★★★

E. I. du Pont de Nemours and Co., Inc. will hold interviews for majors in chemical engineering, electrical engineering, mechanical engineering and chemistry at all degree levels for work in research and advanced engineering development in all necessary scientific and technical fields.

★★★

Nov. 9-10

Mr. Jack Anderson, Eighth U. S. Civil Service Region; Mr. Clinton Howeth, Soil Conservation Service; Mr. Holly E. Rees, Social Security Administration; and Mr. J. L. Funderburgs, Jr. of the Internal Revenue Service will be at the Placement Office to advise students of the career opportunities of the Federal Civil Service available to them through examinations for accountant, engineer, junior scientist, student trainee and the Federal Service Entrance Examination with its management intern option. The latter is open to all juniors and seniors regardless of their major fields of study.

Why Is UN Now Putting Bee On West Germany?

By J. M. ROBERTS Associated Press News Analyst

Why is the United States, after two years of pressing her allies to assume more of the burden of aid to underdeveloped countries, now putting more directly than anyone else?

It's because Germany is the one which raked in the gold which has been flowing from the United States.

In 1949 the United States had more than \$24 billion worth of gold. Germany had none.

Since then the U. S. supply has gone down approximately \$6 billion and Germany has approximately \$6 billion.

Germany has taken skillful advantage, with the aid of hard work, of the expanding free world economy which was based for many years after the war almost exclusively on American aid. German trade has grown amazingly.

As other economies have penetrated world markets, the share of the United States has shifted more and more to the countries which she continues to aid. Her net income in the export-import field is still about \$3 billion annually, but when foreign aid bills are paid she has a deficit, and that's where the gold has gone.

When other countries lacked the dollars to do business, the

United States filled the gap, in addition to giving away billions to bolster newly emerging states.

When other countries began to show profits, the United States started demanding that they take over part of the aid load. Some progress was made, but not much. Total aid has increased, but the U. S. share has not been reduced and, indeed, political factors suggest that it may even have to be increased.

Another reason why West Germany is expected to shoulder a larger share is that, even now that she is rearming, the Western allies are still paying, through NATO, a large part of her defense expense. She has had a freer hand for economic expansion, relatively, than anyone else.

This, despite her cooperation in the European Community, has

left points of abrasion in her relations with Britain and France, who find her cutting into markets which they have considered their own.

Engineers!

Scientists!

WE'RE LOOKING FORWARD TO MEETING YOU

Last year we had the pleasure of meeting many engineering and science seniors during our visit to the campus. As a result of our discussions, a gratifying number chose to join our company.

We'll be back on the dates below, and this notice is your invitation to come in and see us.

If you're interested in joining a company that's a leader in fields-with-a-future, you'll be interested in the advantages Boeing can offer you. Boeing is a major contractor on the advanced solid-fuel ICBM, Minuteman; on the boost-glide vehicle, Dyna Soar, and on the BOMARC defense missile system. Boeing's Vertol Division is one of the country's foremost builders of helicopters.

Boeing is also the nation's foremost designer and builder of multi-jet aircraft. Production includes eight-jet B-52G missile bombers, KC-135 jet transport-tankers and the famous Boeing 707 and 720 jet airliners.

Research projects at Boeing include celestial mechanics, solid state physics, nuclear and plasma physics, advanced propulsion systems, and space flight.

Expanding programs offer exceptional career opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electrical-electronic and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

We hope you'll arrange an interview through your Placement Office. We're looking forward to meeting you.
