

# Student Wins Special Medal

1st Lt. Thomas Z. Fraga, a student attending school on the Air Force Institute of Technology program, has been presented a special Air Force medal by Lt. Col. Kenneth W. Gruber, education and plans officer of the Department of Air Sciences.

## AS Physicals To Begin Next Monday

Physical examinations for those interested in applying for an Air Force ROTC contract during the spring semester will be given at the College Hospital the week beginning Nov. 14, Maj. Benjamin F. Smith of the Department of Air Science announced.

Maj. Smith added that students not currently enrolled in Air Science 241 must report to Room 311 in the Military Sciences Building by Nov. 9 to be scheduled and accomplish the filling-out of necessary forms.

## UN Club Program To Feature US

The United States will be featured tomorrow night in the first of a series of international programs to be presented by the United Nations Club.

The club, which meets every second and fourth Friday of each month, has recently named officers. Chandra K. Parekh of India is president, Md. Abdus Mia of Pakistan is vice president and Ronald Haley, an American, is secretary. Also chosen were Mrs. Brooks Cofer, social chairman, and Firooz Soulati of Iran, treasurer.

Parekh invited anyone from the Bryan-College Station area to join the club. "We now have about 28 nations represented in the club," said Parekh. "Our total paid membership is about 60," he added.

Friday's program will include accordion and violin selections, folk songs and piano numbers.

### AT SUMMIT

## Khrushchev Manuevering For Meet With Kennedy

Editor's note: A message from Soviet Premier Khrushchev to President-Elect John F. Kennedy differs sharply in tone from some of Khrushchev's pre-election remarks. The possible significance is assessed in this interpretive article by John M. Hightower, veteran AP writer on diplomatic affairs.

By The Associated Press WASHINGTON—Soviet Premier Khrushchev is already manuevering for a summit conference with President-Elect John F. Kennedy. He has begun with soft words and this probably signifies a lull in the cold war for the next several months.

Western diplomats here agree

## Rodeo Club Defeats Gainesville Club With Clean Sweep

Aggie cowboys have won the first matched rodeo held between the Aggie Rodeo Club and the Gainesville Junior College Rodeo Club, according to an announcement by Joe Neff, Rodeo Club president.

The Aggies won all five events and brought home the team trophy, Neff said.

Eddie Rosenberger, a pre-veterinary medicine major, won the bareback riding; William Redman, an animal husbandry major, won the tie-down and ribbon roping, and Kenneth Beasley, a veterinary medicine major, won the saddle bronc and bull riding events.

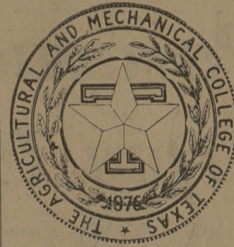

Lt. Fraga was awarded the medal for meritorious achievement in successfully manuevering his burning F-100D aircraft away from a heavily populated area near Wheelus Field, Tripoli, Apr. 11, 1959.

The lieutenant successfully jumped from the burning plane after assuring that it would crash into the Mediterranean Sea. He was rescued approximately 30 minutes after landing in the chilled waters.

A release from the office of Capt. William F. Atwater, information services officer, says: "The deliberate and unselfish decision to avoid placing military and civilian bystanders in danger resulted in placing himself in a very hazardous position and exposing himself to a near fatal situation, which reflects great credit upon Lt. Fraga and the U. S. Air Force."

## Civilian Counselor Named TASP Vice President

William G. Breazeale, a civilian student counselor, is a new vice president of the Texas Association of Student Personnel Administration. Breazeale was named to the post at the recent meeting of the TASP, held in Kingsville.

# THE BATTALION

## United Chest Collection Lagging

### Election Blamed For Poor Showing

The United Chest goal of \$15,150 by Nov. 15 is lagging behind. Dale F. Leipper, chairman of the drive, gave the total collected as \$7,503.

Leipper blamed Tuesday's elections as the reason for the lag. "The next few days will show whether we will pull out of the slump or not," Leipper said.

"I think that the elections definitely had a lot to do with our falling behind schedule," he added. Leipper said that the 75 workers on the various committees generally have met with excellent success.

#### Coffee Friday

A coffee will be held Friday afternoon in the Assembly Room of the Memorial Student Center for all committee-men Leipper said. "We are going to tabulate every dollar collected, and determine in just what sections we are falling short," he said.

A report Wednesday afternoon from the Federal employees showed that the lag was a general trend.

Up until now the drive has been ahead of last year's mark, although the percentages are about the same as last year, Leipper pointed out.

The drive has netted about \$1,703 since figures were released Monday afternoon.

Last year the goal of the United Chest was surpassed and it had been hoped that this year's drive would pass the \$15,150 mark.

The program has provided the city of College Station with service to many community, charity, medical and youth agencies.

### December 1 Revealed As CPS Deadline

The Bryan-College Station Chapter of the National Secretaries Assn. has announced that all local qualified secretaries interested in the Certified Professional Secretaries (CPS) Examination must submit their applications before Dec. 1.

This area's examination centers are in Waco, San Antonio and Houston. The scheduled dates for the examination are the first Friday and Saturday in May.

Texas ranks second in the nation in the number of CPS certificate holders with a total of 173. California is first with 204. The CPS rating is the symbol of professional status in the secretarial field.

Secretaries interested in making application should contact Mrs. Marie Francklow, education chairman of the local NSA chapter, at VI 6-7738 for application forms and further information.

Allan C. Peterson, a freshman engineering student from Houston, receives the annual Junior Achievement Award for first place in the Company's junior achievement report contest. Making the presentation is New York Stock Exchange President Keith Funston (left).

#### Frosh Wins Award

### Houston Frosh Cops National Report Prize

A first place award for the best annual report by any Junior Achievement company in the nation this year was presented recently to Allan C. Peterson, an 18-year-old freshman engineering student from Houston.

Peterson was president of Metal Engineering Co., one of Houston's 121 Junior Achievement companies participating in this year's contest. MECO, counselled by Humble Oil & Refining Co., merchandised aluminum snack tables in its successful 1960 business venture.

The presentation of MECO's first place award was made at a luncheon in the New York Stock Exchange, sponsor of the annual contest. The Achievers were the luncheon guests of Exchange President Keith Funston.

Peterson's company was chosen from among 3,085 Junior Achievement companies operating in 39 states and two Canadian provinces.

MECO manufactured and sold \$2,034 worth of snack tables, showing a net profit after special Junior Achievement taxes of \$200. The J. A. tax goes into a special fund for scholarships and other activities.

MECO's 118 stockholders each received back their 50-cent-per-share investment, plus a 10 per cent return on their capital.

### BY COORDINATOR

## Scientific Lecture Scheduled Tonight

Robert A. Harte, coordinator of scientific information for Merck, Sharp and Dohme, will speak at 8 p. m. tonight in the Biological Sciences Building Lecture Room. The title of his talk will be "Documentation and Information Retrieval."

Dr. Wayne C. Hall, Dean of the Graduate School, says the public is welcome to attend the lecture.

Harte will review the explosive growth of scientific literature in recent years and the efforts that are being made to organize that literature in order to make it available to those who need it. He will develop techniques of indexing by mechanized systems, and the philosophy, logic and operation of the mechanized system of Merck, Sharp & Dohme.

Previous to his position as coordinator of scientific information he held the positions of research administrator and of executive assistant, administration, of the same company.

#### Well-Qualified

He is qualified to bridge administration and research, having worked for 10 years with Dr. Karl Ludsteiner on immunochemistry at the Rockefeller Institute and conducted research on nutrition and the chemistry of allergens as Chief Research Chemist for the Arlington Chemical Co. of Yonkers, N. Y., for seven years, says Hall.

Harte has been elected to several offices in a number of professional and honorary societies. He has twice been chairman of the Gordon Research Conferences and the treasurer of the Division of Biological Chemistry of the American Chemical Society. He is presently serving on committees of a number of national and international organizations concerned with documentation and retrieval of scientific information.

The coordinator is also scheduled to review the future of mechanized systems of scientific literature retrieval.

His main office is at West Point, N. Y.

## World Wrap-Up

By The Associated Press

### Goldwater Blasts GOP Attitude

PHOENIX, Ariz.—Sen. Barry Goldwater, R-Ariz., suggested yesterday that the Republican party lost the presidential race because it had a "me-too" candidate. He predicted the GOP will have to look to its conservatives in the future.

The Arizona, leader of the GOP's conservative wing, hinted at an intraparty power flight with New York Gov. Nelson A. Rockefeller's liberal forces, saying: "If Mr. Rockefeller can't carry New York, he can't be reckoned a figure to be contended with the Republican party."

Goldwater told a reporter: "Those who believe in the traditional philosophy of government, which is clearly identified with the conservative cause, might very well decide the nation would benefit from a realignment of the party and a more frank disclosure of the philosophy of each group."

### Cause of Space Capsule Failure Aided

WASHINGTON—Failure of a Project Mercury test launched at Wallops Island, Va., Tuesday has been traced to a switch that failed to work under severe stress.

The National Aeronautics and Space Administration yesterday said analysis of radio telemetry information from the test showed this.

Because the switch did not do its job, the one-ton Mercury space capsule failed to separate from the 25-foot-long Little Joe booster rocket.

The booster and vehicle, still attached, plunged into the Atlantic 13 miles from the launch site. NASA said divers were unable to recover the spacecraft and rocket from the 70-foot water depth.

### Wire Services Join Warning Net

MIAMI, Fla.—The nation's two major wire services will become an integral part of America's Conelrad defense warning network, a federal communications commissioner revealed yesterday.

Commissioner Robert E. Lee said the lines of The Associated Press and United Press International are to be linked directly to the North American Air Defense Command—NORAD-head-quarters, Colorado Springs, Colo.

It is the NORAD post which will flash the warning of any enemy attack upon the United States.

### Dynamite Bomb Injures Woman

OAKLAND, Calif.—A home-made dynamite bomb wired beneath an automobile exploded yesterday injuring Rosie Wilson, 38, as she pressed the starter button.

Police jailed her husband, John Wilson, 53, and a friend, Jack Taylor, and booked them for investigation of assault with a deadly weapon.

Policeman Charles Wheeler said Mrs. Wilson told him her husband recently had "threatened to blow me up."

### Shivers Congratulates LBJ

AUSTIN—Former Gov. Allan Shivers yesterday sent a telegram of congratulations to Sen. Lyndon B. Johnson and expressed his hopes that "we can now work together for a better Texas and a better America."

Shivers headed the Democrats for Nixon-Lodge drive in Texas.

## Second Staff Dinner, Dance Slated Tonight

The College Faculty-Staff Dinner Club will meet tonight at 7:30 p.m. in the Assembly Room of the MSC. Club Chairman B. A. Zinn

said the occasion was the second dinner dance of the season.

Music is to be furnished by the Aggieband Combo. Dress is to be

either formal or informal.

Dr. A. G. Caldwell, club secretary, is offering season tickets for the affairs for \$7.

### Early Bonfire Start

Bonfire spirit got an early start in Squadron 8, and the sophomores made it an afternoon project yesterday to bring in the first log for the bonfire. After renting a flat-bed truck and armed only with an outfit axe,

the 24 sophomores headed for the cutting area in search of an appropriate tree. It took them about an hour and a quarter to cut the log, and by 7:45 it was lying outside Dormitory 4.
