

REVIVAL FEBRUARY 12-19 7 P.M. - EACH EVENING

FIRST BAPTIST CHURCH

College Station, Texas

Preacher

RALPH H. LANGLEY

Singer

BILLY DON SHERMAN

The Nursery Will Be Open

Weekend Church Services Revealed

The following churches have released schedules for the coming week:

St. Thomas Episcopal Chapel
The services slated for Sunday morning are Holy Communion at 8, Morning Prayer at 9:15 and 11

Corps Juniors & Sophomores
Year book Portrait Schedule

JUNIORS & SOPHOMORES in the corps will have their portraits made for the "AGGIE-LAND '61" according to the following schedule. Portraits will be made in CLASS A WINTER UNIFORM at the Aggie Land Studio, between the hours of 8:00 AM and 5:00 PM on the days scheduled.

Feb. 13-14	A-1, B-1
14-15	C-1, D-1
15-16	E-1, F-1
16-17	G-1, H-1
20-21	A-2, B-2
21-22	B-2, C-2
22-23	E-2, F-2
23-24	G-2, H-2
27-28	H-2, I, K, L, M, (-2)

Feb. 28-March 1 Maroon Band
1-2 White Band
2-3 Squadron 1-3
6-7 Squadron 5-6
7-8 Squadron 7-9
8-9 Squadron 10-12
9-10 Squadron 13-17

and Church School will be held at 9:45.

At 4 the Vestry will meet, the YPSL will hold its meeting at 6 and at 7 there will be a service of Evening Prayer in the Chapel.

During the week there will be a daily service of Evening Prayer at 5:30. Monday at 3 p.m. the Thomas Biddle Guild will meet at the home of Mrs. Henderson Shuffler and on Tuesday there will be a Parish Valentine Party at 7:30. Wednesday there will be Holy Communion at 6:30 and 10 a.m., at 7:15 will be Evening Prayer, the Canterbury will meet at 7:45, and at 8:30 the Adult Bible Class will have its session. The Junior Choir will practice at 3:45 p.m. on Friday and the Children's Confirmation class will meet Saturday at 10:30 a.m.

Unitarian Fellowship

Guest speaker at the Sunday evening meeting of the Unitarian Fellowship of Brazos County will be the Rev. Todd James Taylor, Minister of the Unitarian Church of Fort Worth. The meeting will be held in the YMCA at 8 p.m. and Mr. Taylor will give the sermon "A Religion of Our Own."

The public is invited by the church to attend the meeting.

Singing Cadets Open Season In Houston

The A&M Singing Cadets will kick off their spring season tonight with a concert at Spring Branch High School in Houston.

The concert will feature folk songs, art songs, spiritual songs and numbers from the latest Broadway hits. The first 15 minutes of the program will offer a varied sampling of tunes from each of the four groups, and the last 10 minutes will have the singing of the musical "Testament of Freedom" by Thomas Jefferson.

Also included will be solos by Steve Rogers, Jim Hudson, Mark Major and William Sturgeon, with Jim Hudson providing some of his own accompaniment on the guitar.

As an added attraction, the singers have added a new series called "A Medley of Broadway" to their list.

The trip tomorrow marks the start of a busy semester for the Cadets; tours in early March and April are planned. In March, the group will journey to Edna, Victoria, Corpus Christi and Dallas, and April will bring trips to Lufkin, Shreveport, Longview and Tyler.

A&M Researcher Views Cottonseed In Mexico Address

A means to get more cottonseed protein into human food uses was the principal subject of a talk today in Mexico City by A. Cecil Wamble, manager of the Cottonseed Products Research Laboratory of the Texas Engineering Experiment Station.

He spoke at the seventh annual meeting of International Oil Mill Superintendents' Assn., which began Monday at the Palace of Fine Arts in Mexico City and at the Escuela Nacional de Agricultura (College of Agriculture) in Chapingo.

Eco Pic Said Bleak

By The Associated Press
WASHINGTON—Experts painted for Congress Thursday a picture of even tougher months ahead for the nation's economy. They predicted things will get better later this year, but complete recovery may not come before 1962.

And there was applause for President Kennedy's go-slow approach in trying to provide government cures for the country's economic aches and pains.

These were the over-all views of a panel of top economists—in industry and government—in testimony before the Senate-House Economic Committee.

Meanwhile, Republican leaders in Congress removed any lingering doubt that Kennedy's economic proposals will have tough sledding, Senate Leader Everett M. Dirksen of Illinois and House Leader Charles A. Halleck of Indiana said some of Kennedy's proposals might "dampen down the recovery process."

They referred specifically to Kennedy's request for raising the present \$1-an-hour minimum wage to \$1.15 immediately, \$1.20 next year and \$1.25 in 1963. Halleck said the Republicans would go along only with a boost to \$1.15 as the Eisenhower administration did last year.

Halleck said the Republicans would be willing to add about 1.4 million workers to the minimum wage coverage, but would not agree to the 4.3 million Kennedy proposed.

Dirksen and Halleck also criticized Kennedy's plan for increasing temporarily unemployment compensation for jobless workers. They objected to the proposed permanent increase in the tax paid by employers to help finance it.

The Senate-House Economic Committee opened a week of hearings on the economic message former President Dwight D. Eisenhower sent to Congress Jan. 18 and on various messages on the economy Kennedy has sent to Capitol Hill.

The tone of the testimony was more in tune with Kennedy's view. He has forecast minor improvements in business this year but

said "speaking out of realism, not pessimism, we cannot rule out the possibility of further deterioration if we fail to act."

Eisenhower had predicted that the faltering economy would advance soon into "a period of sound growth."

Walter P. Reuther, head of the United Automobile Workers, urged speedy enactment of Kennedy's proposals for dealing with the

economic ills, calling the President's recommendations basically sound.

But Reuther said they fall short in some respects of what the labor movement believes is necessary to spur the economy. He said Kennedy had advanced "unnecessary and unwise" principles of tax reform, specifically tax incentives for business investment in plant and equipment.

Experts Predict Business Slump

By The Associated Press
WASHINGTON — Government and industry experts advised Congress today that business probably will get somewhat worse before it gets better but should turn up this year. It may not recover fully until 1962 or later, they agreed.

A panel of five economists gave that consensus to the Senate-House Economic Committee at the opening of hearings on the annual economic messages of two presidents — former President Dwight D. Eisenhower sent his report last month, and President Kennedy who has sent several messages on economic problems.

Today's testimony came closer to agreeing with Kennedy's estimate of the business outlook — that there is economic decline and slack, with a prospect of partial recovery this year — than with Eisenhower's view that the country is merely on a high economic plateau and about to resume "sustainable growth."

Dr. George Cline Smith vice president and chief economist of the F. W. Dodge Corp., New York construction economist, testified that conditions are "mushy."

"A recession is clearly under way and it shows signs of getting worse before it gets better," he amplified.

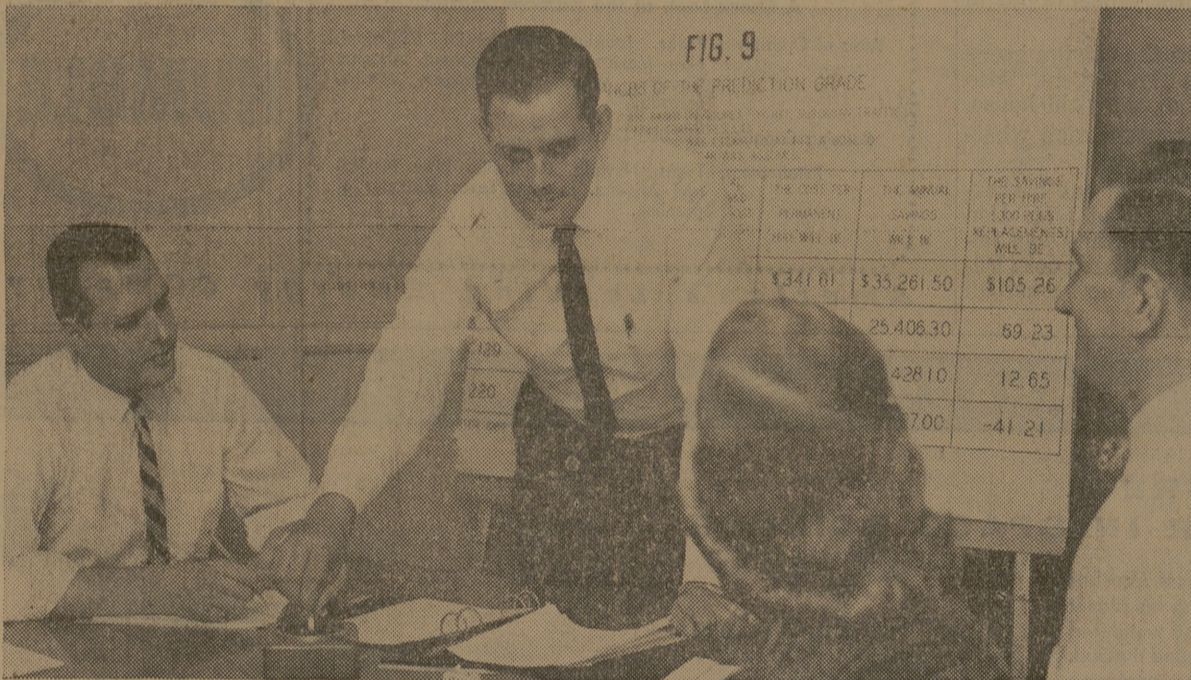

"On the other hand, there is good reason to expect that the downturn will be reversed before it gets too much deeper."

The economist, frequently consulted by congressional committees, commended what he described as Kennedy's "go-slow attitude." Kennedy has proposed quick action on a wide range of anti-recession measures but they are relatively mild in the view of advocates of drastic measures. The President's idea is to hold off decision on major federal intervention until April when the business outlook may be clearer.

Louis Paradiso, Commerce Department economist, offered no general business forecast in his prepared statement but reported that most major segments of business feel that demand will be moving downward for a time.

"I DON'T THINK THERE'S ANY END TO THE OPPORTUNITY IN THIS BUSINESS"

When Gene Segin got his B.S. in Business Administration at the University of Illinois, he was in touch with 8 prospective employers.

Gene joined Illinois Bell Telephone Company because: "The people I talked to here made it very clear that I would not be shuffled into some narrow specialized job. I thought this job offered the greatest opportunity for broad experience."

On his first assignment Gene was sent to Springfield where he conducted courses in human relations for management people.

His next move was to a traffic operations job in Rock Island. On this assignment he was in charge of all personnel who are directly responsible for handling telephone calls in this heavily populated area. Here Gene earned a reputation for sound judgment and skill in working with people. He was promoted to Traffic Supervisor.

Today, Gene's chief responsibilities are in management training and development, and company-union relations. The latter includes contract bargaining and helping settle labor disputes.

How does Gene feel about his job? "It's a real challenge. I'm in some of the most vital and interesting work in the country." And about the future—"Well there aren't any pushover jobs around here. It's tough. But if a man has what it takes, I don't think there's any end to the opportunity in this business."

If you're looking for a job with no ceiling on it—a job where you're limited only by how much responsibility you can take and how well you can handle it—then you'll want to visit your Placement Office for literature and additional information on the Bell Companies.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

Frederick R. Kappel, President
American Telephone & Telegraph Co.

562 PROGRAMS, PROJECTS & STUDIES AT HUGHES

THE DIVERSITY OF ELECTRONICS ACTIVITY AT HUGHES PROVIDES AN IDEAL ENVIRONMENT FOR THE GRADUATING ENGINEER OR PHYSICIST. THESE ACTIVITIES INCLUDE:

- Command Control and Information Processing
- Micro-Electronics
- Linear Accelerators
- Gamma Rays
- Nuclear Fission
- Remote Handling Devices
- Photoconductive Materials
- Electroluminescence
- Solid State Display Devices
- Terminal Communications
- Line-of-Sight UHF and VHF Relay Systems
- Air Traffic Regulation and Landing System
- Pin Cushion Radar
- Logi-Scale General Purpose Computer
- Radar Closed Loop Testar
- Missile-Range Ship Instrumentation
- Precision Trajectory Measurement System
- Space Vehicle Subsystems
- Telemetering Systems
- Radiation Sources, Detection, Handling Equipment and Effects Analysis
- Inertial Missile Guidance Systems
- Machine Tool Controls
- Microwave Tubes
- Transistors and Diodes
- Rectifiers
- Thermal and Magnetic Relays
- Crystal Filters
- Digital Components and Devices
- Plasma Physics Research
- Polarix Guidance Development
- Army/Navy Computer Systems
- Space Ferry
- Fixed Array Antennas
- Fire Control Radar Systems
- Pulsed Doppler Radar and Anti-Submarine Warfare
- Naval Tactical Display Systems
- 3-Dimensional Radar
- Air-to-Air Missiles
- Space Propulsion Systems
- Tunnel Diodes
- Infrared Devices
- Satellite Active Repeater Development
- Wide Band Scanning Antenna Feed Systems
- Microwave Antennas and Radomes
- Guidance and Navigation Computers
- Satellite Communication Systems
- Satellite Reconnaissance Drone
- World-Wide Communications Networks

ELECTRICAL ENGINEERS AND PHYSICISTS B.S., M.S. and Ph.D. (June and Summer Graduates)

Members of our staff will conduct **CAMPUS INTERVIEWS**

February 14, 1961

Find out more about the wide range of programs, unique Professional Register, advanced educational programs and relocation allowances offered by Hughes. For interview appointment or informational literature consult your College Placement Director. Or write Hughes College Placement Office, P.O. Box 90515, Los Angeles 45, California.
