## 8,000 Management Opportunities!

That's right. There will be 8,000 supervisory jobs filled from within the Western Electric Company by college graduates in just the next ten years! How come? Because there's the kind of upward movement at Western Elecfric that spells executive opportunity. Young men in engineering and other professional work can choose between two paths of advancementone within their own technical field and one within over-all management.

Your progress up-the-ladder to executive positions will be aided by a number of special programs. The annual company-wide person-This ties in with planned rotational development, including transfers between Bell Companies and experience in a wide variety of fields. Western Electric maintains its own fulltime graduate engineering training program, seven formal management courses, and a tuition refund plan for college study.

After joining Western Electric, you'll be planning production of a steady stream of communications products-electronic switch ing, carrier, microwave and missile guidant Rev systems and components such as transistorand I diodes, ferrites, etc. Every day, engineers will o our manufacturing plants are working to bin new developments of our associates at hand Telephone Laboratories into practical real In short, "the sky's your limit" at West
