

State Arab Leader Speaks To Group Here Tomorrow

A discussion and social hour will be held after the talk, according to Dr. Vance Edmondson, associate professor in the Department of Agricultural Economics and Sociology and the club's faculty advisor.

Born a Christian Arab in Palestine, Hadawi spent 30 years in the service of the Palestine government. From 1937 until the British withdrawal in 1948, he was chief of the Land Taxation Section of the Department of Land Settlement. He later joined the Sami Hadawi, director of the Arab Information Bureau at Dallas, will be the main speaker at

the meeting tomorrow night of the A&M Arab Students Club.

The speaker's talk, "Current Problems of the Middle East and Their Relationship to U. S. Foreign Policy," will be heard at 7:30 p.m. in the Assembly Room of the Memorial Student Center.

Fathi M. Salama, club president and graduate student in biochemistry, said the public is invited to hear Hadawi.

service of the Jordan government, first as Director of Land Tax Assessments and then as Chief of the Inland Land Revenue Department of the Finance Ministry of Amman.

He resigned his post in 1952 to take up the appointment of Land Specialist with the United Nations in New York.

The speaker resigned from the United Nations, and together with

a fellow Palestine Arab refugee, established the Palestine Arab Refugee Office in New York in 1955. He also acted as Advisor on Palestine Arab Refugee Affairs to the Permanent Mission of Iraq to the United Nations.

In 1959, he was transferred to the Arab States Delegations Office as Chief of the Public Liaison Section, and Advisor on Palestine Arab Refugee Affairs to the Permanent Mission of Yemen to the United States.

Salama said Hadawi is recognized as an expert on matters affecting land in Palestine. His duties as official valuer and inspector of tax assessments in the Palestine government brought him into intimate contact with the land, the people and their problems. He also is considered an authority on Arab affairs in general.

Addresses Foundrymen
Warren C. Jeffery addresses the annual state meeting of the American Foundrymen's Society held on campus over the weekend. Jeffery spoke on ductile iron and its uses in the industry. A smorgasbord was held after the addresses in the Memorial Student Center.

DENOUNCE HAMMARSKJOLD

Soviets Demand Removal Of UN Troops In Congo

By The Associated Press
MOSCOW—In fiery reaction to Patrice Lumumba's death, the Soviet Union demanded Tuesday that all foreign troops quit the Congo and asserted it will no longer recognize Dag Hammarskjold as U.N. secretary-general.

The Soviets called for recognition of Antoine Gizenga, Lumumba's fanatic lieutenant who heads a Stanleyville regime, as the Congo premier and offered him every help.

Obviously referring to the U.N. Command—now totaling about 18,000 men—and a few score white mercenaries in the armed forces of secessionist Katanga Province, the Soviet government demanded that they clear out within a month.

The broadside followed a five-hour mob attack on the Belgian Embassy, led by foreign students of the expenses-paid People's Friendship University who called Lumumba a martyr of imperialism.

Hammarskjold, Belgium and two Congolese leaders—Katanga's President Moise Tshombe and the Congo national army chief, Maj. Gen. Joseph Mobutu—were denounced in a government statement issued through the government paper Izvestia and Soviet news agency Tass.

The statement called for dismissal of Hammarskjold "as an accessory to and organizer of the murder of the leading statesman of the Congo," U.N.

\$20,000 Grant Presented Vet Microbiology Department

The National Institutes of Health have approved a research grant of \$20,000, to the Texas Agricultural Experiment Station and the Department of Veterinary Microbiology, Dr. L. C. Grumbles, Head of the Department, announced today.

The annual grant for three years will be used to support research on swine diseases. The research will be under the supervision of Dr. R. W. Moore, assistant professor in the Department of Veterinary Microbiology.

"This research has public health importance as well as being of great potential importance to the swine industry of Texas," Grumbles says. The research will be directed mainly toward finding the causes of infectious enteritis-intestinal diseases of the swine.

Grumbles says that "there is evidence that some of the viruses associated with swine diseases may also affect man. Through the use of newer methods such as tissue culture and recently developed special staining techniques, Moore hopes to clarify the role of viruses, bacteria and parasites in causing enteritis of swine."

BAXTER HOUSE MOTOR HOTEL

Dallas' Most Luxurious Motor Hotel

- Each room is sound proof for your convenience and fire proof for your safety
