

Combined Choirs Schedule Programs

The choirs of two area churches will combine this Sunday to present a Cantata. It is to be given

as part of the 11:00 a.m. services at the A&M Presbyterian Church and at 7:30 p.m. in the First Methodist Church in Bryan.

The subject of the Cantata will be "Meditation on the Passion of Christ" by David H. Williams. It is composed of three related pieces. These are "The Last Supper," "The Betrayal" and "The Crucifixion."

The combined choir numbers 49 singers. It was made up from the A&M Presbyterian Church Choir and the First Methodist Church Choir in Bryan.

Sopranos in the combined group are Mrs. Richard M. Adams, Mrs. A. C. Allen, Mrs. Norman Anderson, Mrs. Joe R. Barron, Mrs. Edith Betts, Miss Camille Kennedy, Mrs. T. W. Leland, Miss Sharon Manning, Miss Loretta Rolfe, Mrs. L. L. Stuart, Mrs. Ernesto Uribe, Mrs. Larry Waldrip, Mrs. O. C. Wallmo, Mrs. Reagan Warren, Mrs. Rod Whisenant and Mrs. Guy Wood.

Altos are Mrs. W. H. Badgett, Mrs. J. K. Franklow, Mrs. Clarence Garrett, Mrs. Frank W. Gould, Mrs. Edward Holly, Mrs. M. A. Huggett, Mrs. Jack Looney, Mrs. W. L. Penberthy, Mrs. Fortino Saenz, Miss Susan Schember, Mrs. J. G. H. Thompson, Mrs. Burns Willis and Mrs. David Yoltton.

The Tenors are Jerry Allard, Alex C. Allen, Ray Darling, Jr., Luis Estrada, Joe Jaros, J. Nathan Raney, Fortino Saenz and H. M. Shaffer.

Singing in the Bass section will be Richard M. Adams, Richard Blevins, John C. Calhoun, J. B. Christie, Nathan Geick, W. L. Guthrie, Mike Hyde, Jimmy Josey, J. S. McOwen, W. L. Penberthy, Ralph V. Record and George R. Stuart.

The combined choir is to be conducted by David Yoltton. Mrs. W. L. Guthrie will serve as organist for the group. Those persons interested in this program are invited to attend both services.

Spring Banquet Scheduled For Fish Engineers

The Freshmen Engineering Council will hold its Spring banquet tomorrow night at 7 p.m. in the Ballroom of the Memorial Student Center. The principal speaker of the banquet will be Joe B. Dannebaum, a consulting engineer of Houston.

He is past president of the San Jacinto Chapter of Texas Professional Engineers; president, three times, of the Houston Engineers Club; member of Governor Daniel's State-Wide Water Planning Committee; member Water Supply Committee of the city of Houston; chairman of Air Pollution Committee and is recognized for his efforts in gaining professional status to the engineering profession.

Dannebaum has been active in church work, Boy Scout work and has been quite active in several political campaigns. He has contributed greatly to community and public affairs as well as being an outstanding professional engineer.

The present officers of the society for this year are: Matt Hinton, president; Charles Mills, vice-president; and James Hilton, secretary. Officers for next year assuming responsibility for the first time at the banquet are: Donnie Rudd, president; Gilbert Forehand, vice-president; and Jack Wynne, secretary. C. H. Ransdell and N. B. Bardell, Jr., are faculty advisors.

MSC Announces Easter Holiday Schedule

The Memorial Student Center yesterday announced its schedule of operation for the Easter Holidays.

Dining Room: Mar. 29, 11:45 a.m. to 1:30 p.m.; Mar. 30 through Apr. 3, closed.

Cafeteria: Mar. 29, 7 a.m. to 1:30 p.m. and 5:15 p.m. to 7:30 p.m.; Mar. 30, 8 a.m. to 4 p.m.; Mar. 31 through Apr. 2, closed; Apr. 3, 7 a.m. to 7:30 p.m.

Fountain Room: Mar. 29, 7 a.m. to 5 p.m.; Mar. 31 to Apr. 2, closed; Apr. 3, 4 p.m. to 10 p.m.

Gift Shop: Mar. 29, 8 a.m. to 5 p.m.; Mar. 30 through Apr. 2, closed; Apr. 3, 9 a.m. to 6 p.m.

Bowling and Games: Mar. 29, 8 a.m. to 10 p.m.; Mar. 30 through Apr. 1, 9 a.m. to 10 p.m.; Apr. 2, 1 p.m. to 10 p.m.; Apr. 3, 9 a.m. to 10 p.m.

Guest Rooms: Closed 10 a.m. Mar. 31 to 1 p.m. Apr. 2.

Barber Shop: Mar. 29, 8 a.m. to 6 p.m.; Mar. 30, 8 a.m. to 5 p.m.; Apr. 2, closed; Apr. 3, 8 a.m. to 6 p.m.

Browsing Library: Mar. 29, 8 a.m. to 5 p.m.; Mar. 30 through Apr. 2, closed; Apr. 3, 5 p.m. to 10 p.m.

General Offices, Former Students Assn., Braley Travel Agency: Mar. 29, 8 a.m. to 5 p.m.; Mar. 31 through April 2, closed; Apr. 3, 8 a.m. to 5 p.m.

Western Union: Mar. 29 through Mar. 31, 8 a.m. to 5 p.m.; Apr. 1, 8 a.m. to 12 noon; Apr. 2, closed; Apr. 3, 8 a.m. to 5 p.m.

Telephone Center and Guion Hall: Mar. 29 through Apr. 3, closed.

US Proposes Joint Nuclear Detection Plan With USSR

By The Associated Press GENEVA — The United States asked the Soviet Union Wednesday to join in an unusual scientific partnership aimed at solving the problem of detecting secret underground nuclear tests.

Arthur H. Dean, U.S. delegate to the nuclear test ban talks, proposed that each country allow the other to examine the workings of now-secret atomic bombs to be set off underground. This would assure that neither side was using the test program as a cover to develop new low-yield atomic weapons.

The plan drew no response from the Soviet delegate, Semyon K. Tsarapkin.

When the three-nation conference resumed Tuesday after a recess of several months, the United States offered a number of concessions to the Soviet Union, including one on the joint underground testing plan. Dean then elaborated on it.

A year ago the Soviet Union appeared eager for a cooperative research program, but backed away after the collapse of the Paris summit talks last May.

The dispute centered on the length of time each side would

agree to abandon secret underground testing of Hiroshima-size bombs or smaller. The Soviet Union wanted the voluntary, unopposed moratorium to last four or five years. The United States and Britain maintained 27 months would be long enough. Now the West, in a concession to Moscow, has gone up to three years.

The American plan aims at

finding out how to tell the difference between a relatively small atomic blast and an earthquake located far from detection instruments. Both often produce similar readings on seismographs.

Until an answer is found, no foolproof arrangements for policing a ban on underground atomic and hydrogen weapon tests can be achieved.

Annual Easter Egg Hunt Scheduled Sunday Afternoon

Squirms of anticipation, excited looks and 500 happy children will be some of the elements making up the annual Easter Egg hunt sponsored by the College Apartment Council Sunday afternoon.

Starting at 3 p.m., the massive "hunt" will be held in Hensel Park, areas 2 and 3, and will last approximately one hour. Children will be divided into three age groups so that the smaller children will have equal opportunity to find their share of the eggs.

Besides the normal attraction of over 2,000 candy easter eggs for

the children to find, this year various large plastic eggs containing numbers will be distributed throughout the area.

These eggs are good for special gift prizes; the finder will exchange the egg and number for a prize or gift certificate at the starting point of the hunt.

Each child should bring his own basket or sack to carry his eggs and all children will receive Easter eggs at the hunt.

This hunt is an activity furnished by purchase of the Student Government Activity Card, and all

THIS YOUNG ENGINEER IS ON THE ROAD TO MANAGEMENT

Dick Cotton knew he wanted to take the engineering route into management long before he joined New Jersey Bell Telephone Company. In fact it was his goal when he was working for his engineering degree at Rutgers.

When he graduated, he had his lines out to eleven other companies. He came to New Jersey Bell because: "I didn't feel I was just a number to these people. There was no doubt in my mind that this job would be the best for the long pull."

His first assignment was a tough one. A complex of major telephone cables lay in the path of the approach to the new traffic level of the George Washington Bridge on the Hudson. Dick's job was to find the most practical and economical way to reroute these cables, and at the same time to provide for future telephone growth in the area around the bridge approach.

Dick ironed that one out and got a crack at another tough job.

Next stop: New Jersey Bell Headquarters Engineering Staff, Special Studies Group. Here

Dick was a member of a four-man team whose job was to find ways to eliminate some of the routine work of field engineers to give them "more time to think." Dick also helped plan and control a \$100,000,000 annual telephone construction budget.

Presently, Dick is responsible for telephone equipment engineering projects in the Camden, New Jersey, area.

How does Dick look at it? "This is a growing business. I work with this growth every day. And growth means more room at the top. Of course, I don't figure I'll get there overnight—but on my jobs so far I've had a chance to take a good look at how this business is run. And I think the sky's the limit for a man who really wants to work for it."

If you're a guy who can tackle a tough job and deliver the goods—then you're the kind of man who should find out more about the Bell Companies. Visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President
American Telephone & Telegraph Co.
