

Industrial Arts Student Fair Opens Saturday For 350

More than 350 high school students from throughout Texas are due on campus Saturday to participate in the 1961 Texas Industrial Arts Student Fair.

The program is sponsored by the Texas Industrial Arts Association. The Department of Industrial Education is in charge of general arrangements for the fair.

Three major events will dominate the activities of the 1961 fair. Students will participate in con-

tests to determine technical knowledge in the various industrial arts craft areas. There will also be a project exhibit and competition to determine the outstanding examples of student craftsmanship from industrial arts classrooms throughout the state.

More than 500 projects will be competing in 54 different classes, with first, second and third place winners to be awarded ribbons and trophies. Winners will compete

in regional and national competitions to be held this summer.

The third activity will be the annual state convention of the Texas Industrial Arts Student Clubs. State officers and a sweetheart will be elected.

Schools and students who have not registered may still do so, Dr. Chris H. Groneman, general chairman of the event, said today. The fair is open to all industrial arts students.
