Court Hears Anti-Eichmann Blasts Issued

By The Associated Press
 JERUSALEM—Adolf Eichmann was portrayed Tuesday as a brutal man with life and death powers over Jews in Nazi-occupied Europe who became bitterly frustrated if a single one slipped through his fingers.

Ast. Israeli Prosecutor Gavriel Bach, in a relentless attack on Eichmann's claim that he only obeyed orders, introduced documents after document showing that the former Gestapo lieutenant colonel wielded influence far beyond his rank.

Israel charges that Eichmann, chief of the Gestapo's Jewish Affairs Section, was the man who carried out Nazi Germany's campaign to exterminate European Jews.

The evidence introduced by Bach showed Eichmann even attempted to interfere with a hotel in the neutral enclave of Lichtenstein in Switzerland where he heard that "Jews were served food and could get a cup of coffee."

"Eichmann's department was always on guard," Bach declared. "In what he called a typical document, Bach submitted a cable from Eichmann sent to Paris Gestapo headquarters after he heard of attempts in Switzerland to arrange passage abroad for a South American Jew named Gollub."

YR Chapter Organizes For Fall Activity

The A&M Chapter of the Young Republicans held an organizational meeting Monday in the Memorial Student Center.

The club's chairman, Luke Stiles, said both Corps and Civilian students were well represented at the meeting.

The night's business centered around a schedule of plans for an active organization this fall. Selection of committees will be made at the club's first fall meeting, now tentatively scheduled Oct. 1.

"We are anxious to see a Young Democrats club formed and functioning."

Wynes Wins Grant To Study Lewis Blair

Dr. Charles E. Wynes, an instructor in the Department of History, has been awarded a research grant by the American Philosophical Society, Dr. J. M. Vance, Head of the Department, has announced. The American Philosophical Society is one of America's oldest learned societies.

The purpose of the grant is to assist Wynes in carrying out this summer a study of Lewis Harvie Blair, Richmond, Va., businessman, philanthropist, author and progressive, who, as a young man, lived in Corpus Christi in the early 1850's. The descendants of Blair have made available for Wynes' study a lengthy, unpublished autobiography, written shortly before Blair's death.

Wynes is a graduate of Madison College and holds MA and PhD degrees from the University of Wisconsin. He is the author of three published articles and one book, Race Relations in Virginia, 1870-1902, to be released by the University of Virginia Press this summer. A veteran of the US Naval Service and a lieutenant in the naval reserve, Wynes is executive officer of Naval Reserve Security Group 8-19, College Station.

Hunt Reveals Info Meeting For Friday

A Century Study informational meeting has been called for Friday at 10:00 a.m. in the Faculty Room of the Richard Coke Building.

Bob Hunt, Jr., Director of the Century Study, will conduct a discussion designed to bring all informational personnel in the various segments of the college and system up to date on the Century Study and to discuss the informational aspects of it.

The following persons have been invited to attend: R. Henderson Shuffler, Systems Information; Tad Moses, Agricultural Information; Louis Horn, Engineering Experiment Station; Robert Boriskie, Engineering Extension Service; D. A. Anderson, Texas Forest Service, and Tom Blake, Sports Publicity.

Bob Hunt, Jr. Named Century Study Head

Survey Council Begins Organizing

Bob Hunt, Jr., widely known in the state for his Chamber of Commerce and citizenship activities, has been named director of Century Study at A&M.

The System Board of Directors authorized on April 22 the organization of a long range planning study, called the "Century Study," to determine goals to guide the college through the next 15 years of its first century of service to Texas, the nation and the world.

Out of the study will also emerge methods for the attainment of goals recommended for the institution by a lay citizen Century Council committee and the college faculty and staff Committee on Aspirations.

The plan is aimed at developing to the fullest, in line with needs of the state, during the period between this, its 85th year, and its 100th anniversary in 1976. About two years will be devoted to making the long range plans.

Hunt said the Board of Directors will appoint a lay citizen council of 100 members to be known as the Century Council. Members will not be officially connected with the college but will represent a cross section of Texas interests.

"The task before the council will be that of surveying the college and its components and seeking to discover that service roles the institution should prepare to play in assisting citizens of the state meet various challenges confronting them over the next 15 years," Hunt said.

He said nominations for membership on the Century Council may be made from now until July 1. They should be submitted to the Board of Directors in care of the Director of Century Study at A&M College.

The Century Council will begin its study in a series of meetings to get underway after Sept. 1 of this year. A written report of the council's findings and recommendations will be presented June 1, 1962, to the College Board of Directors.

Functioning concurrently with the Century Council will be the college faculty and staff Committee on Aspirations to guide the continuing improvement of the school's services to Texas. This internal effort will be administered by a committee appointed by President Earl Rudder.

Hunt said the Century Council and Committee on Aspirations will make recommendations on the following four basic area questions:

In the light of existent challenges to the state and nation, what kind of student should A&M produce?

(See CENTURY On Page 3)

FOR CIVILIANS

Room Reservation Deadline Disclosed

Civilian students have until June 3 to reserve rooms in civilian dormitories for the fall semester, it was announced yesterday by Housing Manager Harry L. Boyer.

Boyer outlined the following procedure for current students who wish to reserve rooms for the fall semester:

- (1) Contact the housemaster of the dormitory concerned by June 3 and be assigned to his fall roster.
 - (2) Send in room reservation cards and a \$6 dollar deposit to the Fiscal Office by July 31. After that date assignments will be made to summer students and those who have sent in reservations.
- "Students making reservations as above," Boyer said, "will have room priority over students during the summer, provided their room reservations are in by July 31."
- Students who go to summer school must use the same procedure as students who do not go to summer school in order to insure obtaining desired rooms in the fall, Boyer added.
- "Students who do not exercise the above option must send in their room reservation with the \$6 deposit as usual and may request the dormitory of their choice on the reservation card at that time," Boyer said.
- But consideration for priority on choice rooms will be given student government representatives and other students actively engaged in dormitory affairs, Boyer said.
- Dormitories that will be used for civilian students during the fall semester are Puryear, Mitchell, Milner, Legett, Ramps 1 through 6 of Law Hall, Ramps A through E of Hart Hall and Ramps A through H of Walton Hall.

Consolidated Band Banquet Slated Friday

A banquet honoring A&M Consolidated High Band members is scheduled for 7 p.m. Friday at the A&M Presbyterian Fellowship Hall.

Hosts for this annual affair are members of the Band Boosters Club. Master of ceremonies will be Frank Sheppard, president of the Band Boosters Club.

The presentation of numerous awards to outstanding band members will be a highlight of the banquet. The band sweetheart, elected by secret ballot prior to the banquet by band members, will be announced. Willard Johnson, band director, will review the accomplishments of the band during the past school year.

Jimmy Kent, 35 Mitchell; Richard Irvin, C-5 Walton; Carl Ryden, I-6 Walton, and Richard Hall, B-7 Hart.

These housemasters will submit their fall rosters to Boyer in the Housing Office noon, June 3.

Snyder High School Tops Industrial Arts Winners

Snyder High School dominated the Texas Industrial Arts Fair for the second consecutive year here Saturday, winning top honors in five of fourteen divisions in the Industrial Arts Project competition. Snyder strengthened its position with a large share of the first, second and third place ribbons awarded to winners in 60 sub-divisions of the program.

A strong showing was made by Houston area schools as Spring Branch, Lamar and Jones high schools won a total of five division awards. Other division awards went to Victoria, Odessa and Ball (Galveston) high schools.

David Odum of Odessa was awarded a trophy for the outstanding project of the fair, a 14-foot outboard motor boat. A plaque for the best creative design went to

Knox Kennedy, Milby High of Houston, for his model home entry. John Mandel, a junior high school student at La Marque, received a plaque for the most ingenious project, an electronic game.

More than 500 students representing 40 schools participated in the fair, which is sponsored by the Texas Industrial Arts Association.

The fair closed Saturday night with an awards banquet. The principal speaker was Dean Fred J. Benson of the School of Engineering. Benson told the assembly that craftsmanship of the caliber exhibited at the fair is in the American tradition of skilled manipulation of the tools and materials of industry. He challenged the students to set high goals for themselves and to be prepared to

pay the price required to attain excellence in their chosen fields.

Students who won division awards in the project competition were: Architecture, Linda Chambers, Spring Branch; ceramics, Linda Parker, Spring Branch; electricity and electronics, Donald Palmer, Snyder; jewelry, Scott Carey, Snyder; leather, Benny Greenfield, Snyder; machine shop, John McDonald, Jesse Jones (Houston); mechanical drawing, William Ringwald, Ball High (Galveston), and models, Johnny Helmstatter, Odessa.

Max Lindinger, John Butler and Charles Mahaffey of Lamar (Houston) won the open division award with a reproduction of a 1901 Oldsmobile.

Sammy Fling of Stephen F. Austin High School in Bryan, placed third in the open division on an outboard motor boat.

Other division winners were: Patternmaking, Robert Stipe, Snyder; plastics, Brenda Benton, Snyder; upholstery, Wayne Pick, Jesse Jones (Houston); woodworking, Charles Anderson, Odessa, and wrought metal, Charles Waters of Victoria.

Vinson To Discuss 'Fountain Of Youth'

Dr. David B. Vinson will deliver a graduate lecture tomorrow at 8 p.m. in the Biological Sciences Lecture Room.

The speaker is director of the Texas Academy for the Advancement of Life Sciences, in Houston. His subject will be "Fountain of Youth—Fact or Fiction?"

Medical science's comparatively recent increased concern with the problems of growing old has produced some hopeful reports, Dr. Wayne C. Hall, Dean of the Graduate School, said today in announcing the lecture.

"Although Russian scientists appear to be the most optimistic regarding chances for prolonging life and cushioning old age, American scientists are more pessimistic about finding a medical 'Fountain of Youth.' Most scientists do agree that aging is not necessarily something that is inevitable—that certain changes are associated with deficiency diseases or metabolic abnormalities and that there is hope for unlocking at the cellular level the reasons for aging. Regardless of the cause of aging it is an accepted fact that more persons are living longer and this poses a social-economic problem, not only at present but a problem that will become more acute with time."

Vinson has had a distinguished

career in many aspects of aging in living systems. He received his AB degree from UCLA in 1941 and his PhD from the University of London in 1952 in the fields of psycho-biology, neuropsychology and psychology. Vinson has had experience as a clinical psychologist for the Air Force, Glaser-Rissler Clinic and William Beaumont General Hospital at El Paso, and Baylor University College of Medicine. He has served as a research psychologist at the University of Texas Medical Branch, Galveston; the Institute of Psychiatry, University of London, and Southwestern Respiratory Center at Houston, as well as a consultant to many private and Federal hospitals and clinics. At present he is Director of Texas Academy for the Advancement of Life Sciences.

He served as a delegate to the White House Conference on Aging, the International Conference of Gerontology and is a member of the Governor's Advisory Committee on Aging. He is a member of many professional and learned societies including the American and British Psychological Associations, the Gerontologic Society and the American Academy of Psychotherapists, and has published extensively on neuropsychology, clinical psychology and psychological decline.

Winkler Dominates AVMA Winings

The A&M chapter of the American Veterinary Medical Association held its annual awards banquet last night in the Memorial Student Center Ballroom. Presenting the awards was Dr. Alvin A. Price, Dean of the School of Veterinary Medicine.

William G. Winkler, senior from Metarie, La., received the Faculty Award of Merit for being chosen the outstanding all-around fourth year veterinary medicine student. In addition, Winkler won a Southwest Veterinarian Award and third place in the Moss Essay Contest.

The Faculty Award of Merit for the outstanding third year student was given to Richard J. Hidalgo of Opelousas, La. James Martin of College Station was named outstanding second year veterinary student while William P. Rogers,

senior from Logansport, La., received the outstanding first year veterinary student award.

Joseph E. Smith of Justin was given an award for best relations on campus. This annual award is presented by the AVMA Auxiliary.

Winner of the Moss Essay Contest Award for the best essay on ethics was Ken Clevenger of Mesquite. Second place in the contest was taken by Jack Heald of Hearne. First prize in the contest was \$25.

The C. J. Martin & Sons Award was presented to Tom K. Hardy from Bryan. The annual award is given by the Martin Veterinary Equipment.

Honorary Ph T degrees (putting hubby through) were given to the 37 wives of graduating seniors.
