

Third Peace Corps Exam To Be Given Here Oct. 7

The third round of national Peace Corps examinations will be offered Oct. 7 in Bryan and 18 other Texas cities.

The local examinations will be held in the Bryan Post Office from 8:30 a.m.-3 p.m., with an hour off for lunch.

Two types of examinations will be offered, with emphasis in agricultural and industrial fields, according to Dr. Nicholas Hobbs, director of Peace Corps selection.

One examination is designed for men and women who would like to be considered for positions as secondary school or college teachers. Candidates for this test need a bachelor's degree but need not be an accredited teacher.

The other test is for all other persons desiring positions in the Peace Corps.

Many of those who will take the Oct. 7 examinations sent in Peace Corps questionnaires since the last

testing in July, Hobbs said. But others will also be eligible to take the tests.

Leipper At Meet In California Until Saturday

Dr. Dale Leipper, head of the Department of Oceanography and Meteorology, will be in Lake Arrowhead, Calif., tomorrow through Saturday to participate in the Eastern Pacific Oceanic Conference.

A visitor to the department Monday was James Churgin of the National Oceanographic Data Center, Washington, D. C.

The SCUBA diving short course starts tonight with a meeting at 7:30 p. m. in Room 306 of Goodwin Hall.

Latin Americans Visit

Dr. William J. Graff Jr., dean of instruction second from left, welcomes a group of professors from the National School of Agriculture of Mexico and Sear-Roebuck officials. He shakes hands with Efrain Hernandez. Ten outstanding students from the school also made the trip, which was sponsored by the Sears Foundation. In the background, left to right, are Antonio Cuspina, J. P. Plain of Dallas, southwestern public relations director for Sears; J. Salgado Cantu, Sears-Roebuck in Mexico, and Arturo Sanchez. The students' and professors' visit to A&M and other Texas farm areas is the counterpart of the annual Sears Foundation Agricultural Tour of Mexico made each summer by a group of top A&M agriculture students.

\$100 Offered In Viceroy FB Contest

One hundred dollars will be going to some lucky Aggie—or to the one with the best knowledge of college football teams—in each of four contests to be held this fall. Second prize is \$50, third prize \$25 and five other prizes of \$10 each.

The contest, sponsored by Viceroy, is open to students and faculty members only. To enter, just predict the winners of the 10 games listed on the entry blank and the scores. Print your name and address, attach an empty Viceroy package and put it in boxes conveniently located around the campus.

Students and faculty members may enter as many times as they wish. They are eligible for every contest. Entry blanks are now available for the Oct. 7 contest at the following sponsors: Exchange Store, Loupot's, Ellison's Pharmacy, Donut Shop, Shaffer's Book Store, MSC Bowling Lanes, Gilford's Restaurant, Student Co-op, Smity's Grill, golf course field house and Campus Theater. Entries must be in by Oct. 4 to be eligible for this contest.

Jockey Steve Brooks ranks 4th on the list of all-time riders in the United States. He is 40. He won his first race in 1938 at Shreveport, La.

West Virginia will have a balanced football schedule in 1962, playing games at home and away on alternate Saturdays.

Mexican Economic Group Schedules Visit Next Week

Twenty-seven students and three professors from the University of Guadalajara, Mexico, will arrive on the campus Sunday for a four-day visit, Robert Melcher, foreign student advisor, said Tuesday.

The students, undergraduate economics majors, will make A&M their first stop on a nation-wide tour sponsored by the US State Department, which is furnishing interpreters.

They will be welcomed Monday morning by Dr. William Graff, dean of instruction, and will then begin a study of the organization of land grant colleges in the US. Their program will include one

and one-half days of discussion of the economic problems involved in agricultural financing and oil production.

The students will go from A&M to Nashville, Tenn., for a study of small industry, Melcher said. Their next stop will be in Pittsburgh where they will inspect the steel industry and union organization.

In New York City the group will study operation of the stock exchange and money and banking facilities.

The group is traveling by chartered bus.
