

Kahn Speaks At 1st Talk In Chapel

"Moral Contradictions in the Twentieth Century" will be the topic presented by Dr. Robert I. Kahn, Rabbi, in the All Faiths Chapel next Wednesday at 7:30 p.m.

Kahn will be the first of a series of eight speakers to be presented by the All Faiths Chapel during the school year.

Subjects for presentations were picked by interest locators sent to members of the student body and faculty.

Born in 1910, Kahn is a native of Des Moines, Iowa. He attended the University of Cincinnati for his rabbinical training and was awarded his doctorate in 1950.

After serving three years as chaplain in the United States Army, Kahn returned to Houston as spiritual leader of Temple Emanu El.

Kahn has a regular weekly radio program and newspaper column. He is in demand as a speaker and has participated in Religious Emphasis Week on many campuses—including A&M.

He is the author of "An Affirmative Answer to Communism."

THREE IN ROOM

(Continued from Page 1)

anyone eligible to do so, which the Housing Office promptly did.

"We issued over 100 'off campus' permits, which helped somewhat. About 95 of these were students who had been put three to a room and didn't like it.

"Then, we had some members of the 49th Armored Division drop out of school, which left more rooms vacant. However, this morning, there were still 125 rooms with three in them," Zinn said.

Next year, Zinn reported, cadets and civilians will be urged to send in room reservation cards as early in the summer as possible. He added that the experience of living three to a room might help these cards get sent.

"Most of the students are taking it pretty good right now; of course there are exceptions," Zinn said.

He said plans are being made to devise a way to stack the bunks three-high, making more room on the floor of the dormitory quarters.

"Aggies have survived living three to a room before. Just after World War II, we had three to a room in every room on the campus. It wasn't good, but they survived it," Zinn added.

When the cold-blooded dinosaurs died off, mammals, with internal heat regulators to regulate body heat, were able to endure and spread over the face of the earth.

State Teachers Group Formed

The Texas Association of Public School Adult Educators, a new statewide organization, was established here at a group meeting held during the Texas Public School conference.

This announcement was made today by Dr. Paul Hensarling, head of the Department of Education and Psychology.

The organization (TAPSAE), to be headed by Wesley K. Summers, school administrator and director of adult education, Bryan public schools, will initiate long range planning for programs for general adult education.

It will include such matters as special training for teachers of adult education, financial aid, statewide survey of the needs for adult education, the improvement of programs and the initiation of new ones.

Officers of the organization are Summers, president; Clifton Clark, director, industrial and adult education, Galveston public schools, vice-president, and George L. Telge, counselor and principal of adult education, Houston public schools, secretary.

M. A. Browning, assistant com-

missioner for vocational and general adult education, Texas Education Agency, and Hensarling were appointed advisors to the organization.

The group resolved that general adult education should have some permanent full time leadership on the state level to assist local school systems in organization and promotion. The second annual statewide meeting for the newly organized association is scheduled here June 11-12.

Killer Cop Admits Plot To Kill Chief

DALLAS (AP) — A policeman turned professional killer has told a Texas Ranger he was offered a contract to murder Texarkana, Ark., police chief Max Tackett in 1956.

But Charles Rocky Rothchild, 36, former Cairo, Ill., policeman, said he backed out "when things got hot."

Ranger Capt. Bob Crowder said that Rothchild told Ranger Lewis Rigler that a hootlegger offered the kill-for-hire deal on Chief Tackett.

Rothchild, said by rangers to have the murders of 11 persons on his record, added that he considered the offer, but "the heat got on" and he left Texarkana without accomplishing the mission.

Rigler interviewed Rothchild where he is serving a robbery conspiracy term in the South Carolina Prison. He had two life sentences awaiting him in North Carolina and Georgia. The ranger went to South Carolina to quiz Rothchild about a Texas slaying but said later he was convinced Rothchild was not the killer.

STROKE OF LUCK

TOPEKA, Kan. (AP)—Carol Sue Keibert, 4-year-old daughter of Mr. and Mrs. Jimmie Keibert, kept playing with a lever on a hay rack until the tines were released. But her parents don't mind.

When they checked the tines, they found she had released them at just the right moment to pin a two-and-a-half foot copperhead snake.

Things Back To Normal

Corpus Christi made a quick recovery from its brush with Hurricane Carla. The major portion of the coastal city is situated on a bluff 15 feet and more above sea level and escaped without personal injuries or major property damages. Swimming, boating and fishing were back to normal 24 hours after the winds passed. Barbara Henry, left, and Edith Eller were among the first to test the newly-calmed waters in Corpus Christi Bay. DEVELOPMENT

(Continued from Page 1)

development, Texas and Pacific Railway Company, Dallas; J. D. Eppright, director of industrial development, Texas Power & Light Company, Dallas; Rose Hammond, field office director, Georgia Institute of Technology, Rome, Ga., and John B. Struwe, manager, Industrial Development Department, Southwestern Electric Power Company, Shreveport, La.

A social hour beginning at 6 tonight at the Triangle Banquet Room, Bryan, will be sponsored by the Bryan Industrial Foundation, Inc., and will conclude the first day's activities.

The conference is conducted annually by the Industrial Economics Research Division of the Texas Engineering Experiment Station.

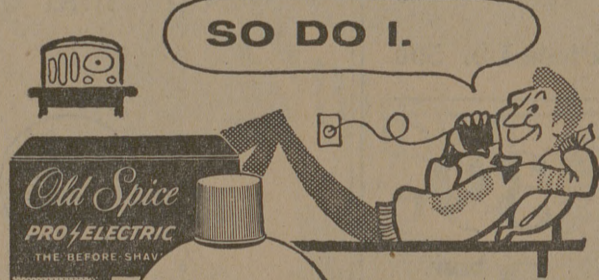

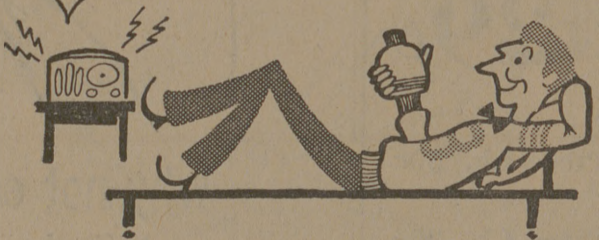

ARCHIE SAYS:

My cousin Archie—he thought the electric razor his gal gave him last Christmas was o.k. Then he tried Old Spice Pro-Electric, the before shave lotion. Now the guy won't stop talking, he thinks electric shaving is so great.

ARCHIE SAYS Pro-Electric improves electric shaving even more than lather improves blade shaving. ARCHIE SAYS Pro-Electric sets up your beard by drying perspiration and whisker oils so you shave blade-close without irritation. ARCHIE SAYS Pro-Electric gives you the closest, cleanest, fastest shave.

If Archie ever stops talking, I'll tell him I use Old Spice Pro-Electric myself.

P. S. There's a .60 size but Archie gets the 1.00 bottle. (He always was a sport).

SHULTON

College Station Lions Elect New Officers

The College Station Kiwanis Club elected a new slate of officers and directors for 1962 in a meeting held Tuesday in the Memorial Student Center.

Elected president for 1962 was W. F. Krueger, who this year held down the post of first vice-president. Bob Fletcher was elected first vice-president for the coming year, while Isaac Peters was elected to the position of second vice-president.

Incoming directors are Harvey Caddess, T. C. Cartwright, Ed Holdredge, Bob Schiller and Bob Skrabanek. They are scheduled to replace Dave Franklin, Maurice Futrell, Harrison Hierth and Doyle Letbetter.

Continuing as directors for the club in the coming year will be Murray Brown, Ed Segner and Jack Sloan.

Russia is the world's leading sugar beet producer.
