

Debate Team Organizes For Meet

The A&M Discussion and Debate Club made plans for the coming debate season at its first meeting of the year Monday.

Presiding at the meeting was Dr. H. E. Hierth, associate professor in the Department of English, who will act as debate coach for the club.

Competition this year will include tournaments at TCU, Baylor, Texas Tech, Tucson, Ariz., Hattiesburg, Miss. and A&M's own invitational tournament.

The college debate question to be discussed is: "Resolved: that labor unions should come under the jurisdiction of anti-trust legislation."

Top Award Winners

M. Scott Kraemer, representative of the Pan American Petroleum Corp., Houston, has his hands full congratulating two A&M students who won cash awards from petroleum industries at the annual Petroleum Engineering Club awards banquet. Conley R.

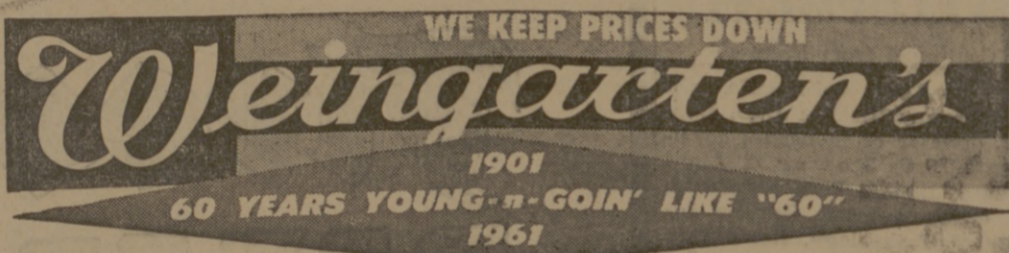

Williams, left, of Mineola received \$800 from Mission Manufacturing Co. of Houston, and Charles K. Reeves, right, of College Station was the winner of a \$750 check from R. C. Baker Foundation.

Rhodes Grant Applications Now Available

Any A&M student desiring to apply for a Rhodes Scholarship must do so before Oct. 10. R. H. Ballinger of the Department of English is the college representative for the scholarships.

A long and involved selection procedure as well as stringent personal and academic qualifications must be met by applicants. A student here must be recommended by President Earl Rudder to a state selection committee. This committee, which will meet Dec. 13, will nominate two candidates to the district selection committee.

Four winners will be chosen from this district, which also includes Alabama, Mississippi, Louisiana, Oklahoma and Arkansas. Personal qualifications are that a student be a male, unmarried and between 18 and 24 years of age. At least junior standing in some degree granting university is required.

No restriction is placed upon a Rhodes scholar's choice of studies. All studies are taken at the University of Oxford in England. According to the scholarship brochure "quality of both character and intellect is the most important requirement for a Rhodes Scholarship." There have been only two previous A&M Rhodes scholars. Charles W. Thomas, '22, is now head of the Department of Engineering at New York State Teacher's College and Jack E. Brooks, '47, is now on the technical staff of Ramo-Woolridge Corp.

Fall In The Air

Eighteen-year-old Pat Kilgore, welcoming the first day of autumn, dons a bulkyknit sweater for this pert pose among the cornstalks, but short-shorts are more in keeping the balmy temperatures which marked fall's arrival down south in Montgomery, Ala. (AP Wirephoto)

Annual Nutrition Conference Scheduled Here October 4-6

The effect of flavor on feed and water consumption will be one of the many poultry feeding topics during the annual Texas Nutrition Conference here Oct. 4-6. Discussing the effects of flavors will be Dr. C. W. Deyoe, assistant professor in the Department of Poultry Science. The scientist's experiments and studies indicate that the right kind of flavor can go a long way in boosting feed conversion efficiency or getting birds back on feed. About 40 flavors were tested in water. Among these were butter, coconut, coffee, strawberry, licorice and various chemical flavor compounds. During the conference Deyoe will tell which the birds liked best. Practical information will be emphasized this year at the meeting. Dr. J. R. Couch, program chairman and professor in the Department of Poultry Science, is a section of the discussions to be devoted to beef cattle feeding and feeding operations. Sponsors of the conference are A&M, Texas Agricultural Experiment Station and Texas Agricultural Extension Service in cooperation with the Texas Grain Feed Association and Midwestern Feed Manufacturers Association.

Wondering if she's settled at school?

Why not call and find out?

To anyone far removed from family and friends, nothing is so heart-warmingly welcome as a long distance call from home. Keep in touch the easy way . . . the long distance telephone way. It's so easy . . . and it costs so little. Remember, rates are even lower after 6 p.m. and on Sundays. Make someone especially happy with your long distance call tonight.

The Southwestern States Telephone Company
