

BOTH SEEK 1ST WIN

Defenses Will Highlight Aggie-Tiger Game Saturday

The Texas Aggies winged their way eastward this afternoon for their Saturday night tilt with the always-tough-at-home Bayou Bengals of LSU. Game time is 8 p.m. and will be carried locally by KORA radio.

Coach Paul Dietzel's Tigers are rated an eight point favorite to make their first home game of the season a winning effort. The Tigers fell to highly regarded Rice last week, 16-3, in a game that

saw three LSU aerials stolen by an alert Rice secondary.

Twenty-five lettermen are back to help Coach Dietzel from the team that posted a 5-4-1 record in 1960. The tie was a 6-6 stand-off against arch rival Mississippi, which beat Rice in the Sugar Bowl last January.

Among the returnees are Halfbacks Jerry Stovall, Bo Campbell, Wendell Harris, and Ray Wilkins; Quarterbacks Lynn Amedee and Jimmy Field; and Guard Roy Winston.

Saturday night the Aggies will be up against the three team attack made famous by Coach Dietzel. LSU will once again use the three colorful units, "the White Team," "the Go Team," and "the Chinese Bandits."

Probable starting lineup for the Aggies will be the same team that started against Houston, with the exception of center. LE—Russell Hill, LT—Wayland Simmons, LG—Wayne Freiling, C—Jerry Jenkins, RG—Bull Phillips, RT—Buddy Eilers, RE—Daryle Keeling, QB—Jim Keller, LH—George Hargett, RH—Bob Caskey, FB—Lee Roy Caffey.

After viewing films of last week's game with Houston, Coach Jim Myers made several changes in the first three team lineups. One change was due to the loss of Ben Krenek, junior left tackle, who will miss the LSU game with a knee injury.

Sophomore Bobby Evans was moved to right end on the second team ahead of Letterman Bobby Huntington. Ronnie Carpenter, a 206-pound end from Marshall, was moved up to third team left end.

The most notable change was at center, where Jerry Jenkins was moved to the starting unit in the place of Jerry Hopkins. Hopkins was demoted to the third unit behind Jenkins and Soph Roy Kubala, who moved up to the second team.

Baton Rouge will probably be the site of tough defensive maneuvers since both teams are considered strong defensively. LSU is noted for playing a watch and wait game, utilizing the field goal more than do most college teams.

FROM THE Sidelines

By Larry Smith

Did you know that Texas A&M will be represented in this year's World Series matching the American League champion New York Yankees and the National League champion the Cincinnati Redlegs?

Well, the Ags will have a former student playing for Manager Ralph Houk's Yanks. He is Roland Sheldon, a 6-3 rookie pitcher with an impressive season record of 10-5.

Sheldon, known as Ron at Aggieland, came to A&M in the fall of 1958 on a basketball scholarship. He played for Fish Coach Shelby Metcalf and was a starter on the Fish squad along with Carroll Broussard.

After one semester at A&M, Sheldon decided he wanted to go home to Connecticut and attend the University there.

Metcalf hated to see Ron leave because not only was he a capable basketball performer, but he was better known as a baseball pitcher. We never got to see Sheldon on the mound at Kyle Field.

Our hero went back up north and nothing was heard from him until last year when he signed with the Bronx Bombers to play Class D baseball in upstate New York.

Then this spring, Ron made an amazing jump from Class D all the way up to the major leagues—a jump that is hardly heard of nowadays.

Sheldon, along with another rookie pitcher—Bill Stafford, are the top first year men on the Yanks. Each have hit the double figures in the win column this season.

Several times this season Ron has started on the hill when the Yankee game was being televised. One occasion against the Baltimore Orioles, he fired a four-hit shutout.

The Yankees may be proud of their young pitcher but they're not the only ones. There are several people at Aggieland that will be rooting for ole Ron when he takes the mound against the Redlegs in the Series.

Navy Footballer Dies Of Injury

ANNAPOLIS, Md. (AP)—A Navy football player died Thursday of an injury received when he was tackled at practice.

The victim was Donald G. Foley, 19, of Pasadena, Tex., a sophomore fullback on the junior varsity. His death was the second in Navy football history resulting from a gridiron injury and the first reported in college football this year.

Capt. Asbury Coward, director of athletics, said Foley's death was "a severe blow to the Naval Academy in general, the brigade of midshipmen, his classmates and teammates. It was a great tragedy."

Foley was injured late Wednesday. His parents, Mr. and Mrs.

Thomas G. Foley of Pasadena, were at his bedside when he died in the academy hospital yesterday morning.

Capt. Coward said Foley's death resulted from a "one in a million chance mishap." He said the "Circumstances at the exact moment of impact were just a little different than they have ever been before."

He said Foley was carrying the ball and had his head lowered and his chin against his chest when he was hit. The academy hospital said he suffered a "flexion dislocation" between vertebrae with a division of the spinal cord. Doctors likened the injury to a broken neck.

Evashevski Thinks Iowa Has

IOWA CITY, Iowa (AP)—Forrest Evashevski thinks Iowa will have a great football team this fall.

And the former Iowa head coach and now its athletic director says first-year coach Jerry Burns has reacted impressively to the pressure brought on by the Hawkeyes' No. 1 ranking in the Associated Press poll.

"I feel our ball club is going to be a real fine one," Evy said. "The reason I am so confident is that Jerry has several boys who are real game breakers and can win for him in the clutch."

Evy coached most of the same players last year when the Hawkeyes had an 8-1 record and were co-champions of the Big Ten Conference with Minnesota.

"However, I don't want to put Jerry on the spot by saying Iowa

will go undefeated," Evashevski said. "It's always possible to have a game by the way the bounces." "Jerry has handled the very well," Evashevski said, "worked on the team's weak and brought the second along."

what comes after the wheel?
Ford motor company's educated guess

Frankly, there is no practical substitute for the wheel today. But at Ford Motor Company, our scientists and engineers refuse to give "no" for an answer. They are tackling, among others, the problem of wheelless vehicles for tomorrow.
Is "tomorrow" really far off? Not according to the men at Ford. Already they've developed the Levacar as one possibility. It replaces the wheel with levapads, perforated discs which emit powerful air jets to support the vehicle. Air suspension—if you will—of an advanced degree. Imagine traveling swiftly, safely at up to 500 mph, riding on a tissue-thin film of air. Guided unerringly by a system of rails. Propelled by powerful turboprops. This is the Levacar.
Meanwhile we've still got the wheel. And the job of building better cars for today. So we hope you won't mind riding on wheels just a little longer while we concentrate on both tasks.
