

IN SAN ANTONIO

Mother's Club Hears A&M Staff Trio; Announce Plans For Annual Barbeque

Three members of the A&M faculty spoke to the San Antonio Mothers' Club Tuesday night concerning college services available to Aggies. S. A. Kerley and Dr. Lannes Hope of the Counseling and Testing Center and Dr. Frank

Hubert, dean of the School of Arts and Sciences, addressed about 100 persons at Aggie Park in San Antonio.

Many academic services are available to Aggies, Kerley said. A student with a problem in a par-

ticular course is first advised to meet with his instructor for extra coaching.

Academic help is also offered through the educational adviser assigned to each student, the faculty unit adviser chosen by stu-

dents in each outfit, and the dean's office in each school of the college.

The Counseling and Testing Center provides vocational guidance and teaches better methods of study and reading. Here students can find the vocations for which they are best suited through special tests and counseling.

Tactical officers in the military dorms and counselors in the civilian dorms are responsible for handling the problems of student life.

A complete health service is provided by the college for the welfare of students.

The Student Labor Office attempts to find jobs for students, and the Student Loan Office provides short-term loans with no interest.

The San Antonio mother's group will hold their annual scholarship benefit and chicken barbecue on Tuesday, Oct. 17, at Aggie Park.

The purpose of this event is to raise money for scholarships to A&M. The club now gives four scholarships each year.

In addition to the chicken barbecue, the club will offer cakes and candies for sale. There will be a fish pond for the young of all ages and a number of door prizes and games.

Managing tickets for the affair will be Mrs. Charles Drew, chairman of the ticket committee. Mrs. William A. Howerton is president of the club.

Old Army Saber Drill

These cavalry cadets are practicing saber drill, sporting wrapped leggings and campaign hats. The picture, taken in 1917, shows the Academic Building in the background.

BAND

(Continued From Page 1)

in Lubbock at 3:25 Saturday afternoon.

Immediately upon arrival at Lubbock, the band will form a parade downtown, which will be followed by a barbecue at the National Guard Armory near Tech Stadium.

All Aggie Band members and their dates will be served without cost, compliments of the Lubbock and West Texas A&M Clubs. Following the meal, a massive move to the stadium 200 yards away will be made for the A&M-Texas Tech game.

Another special treat will be

provided for band members after the game at Reese Air Force Base 10 miles from Lubbock where the group will be quartered for the night.

The base service club will host a dance with girls and orchestra provided, also arranged by the Lubbock and West Texas A&M Clubs.

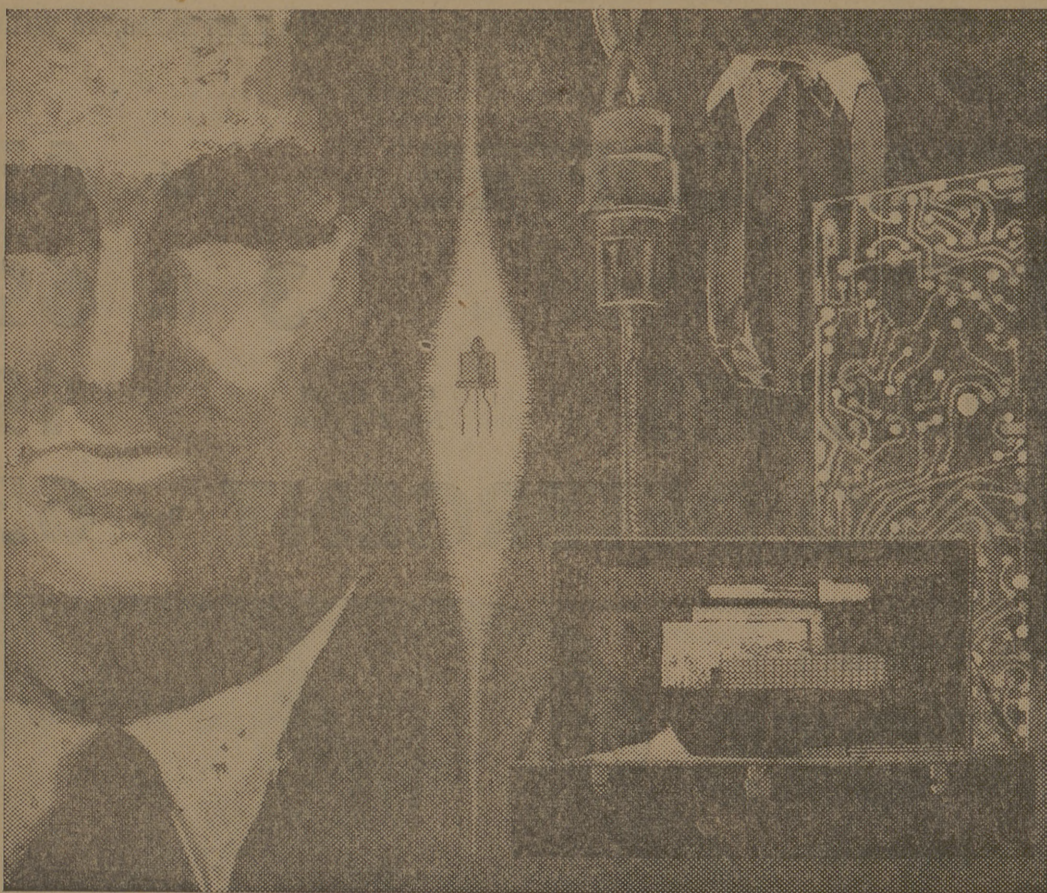

For those band members with dates who desire to stay in Lubbock later than 10:30 p.m., a special bus will run to Reese AFB at 1 a.m. Sunday.

Final topping for the weekend will be Sunday morning with a large breakfast for all band members at 6:30 in the armory, with eggs, bacon, ham and sausage, and hot biscuits on tab as a sendoff.

They will depart from Lubbock at 7:45 a.m., arriving back in Caldwell at 3:15 p.m. Sunday. Box lunches for the return trip will also be furnished by the Lubbock club.

"Since the Lubbock and West Texas Aggie Clubs have done everything possible to make this trip attractive for us, we've really been working this past week to have something to offer them too," said Col. Adams.

"Those folks in West Texas don't get to see us very often, or any Aggie events for that matter, so we're hoping we can show our appreciation with a top-notch performance Saturday night," he added.

Quality is the key to success at Western Electric

Admittedly, our standards are high at Western Electric. But engineering graduates who can meet them, and who decide to join us, will begin their careers at one of the best times in the history of the company. For plentiful opportunities await them in both engineering and management.

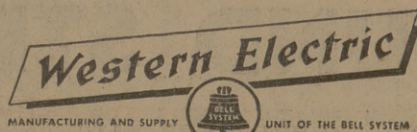

As we enter a new era of communications, Western Electric engineers are carrying forward assignments that affect the whole art of telephony from electronic devices to high-speed sound transmission. And, in the management category alone, several thousand supervisory jobs will be available to W.E. people within the next 10 years. Many of these new managers will come from the class of '62.

Now's the time for you to start thinking seriously about the general work area that interests you at Western Electric, the manufacturing and supply unit of the Bell Telephone System. Then when our representative comes to your campus, you'll be prepared to discuss career directions that will help make the interview profitable.

After a man joins Western Electric, he will

find many programs that will aid him in exploring the exciting course of his career—while advancing just as fast as his abilities allow. And he'll be secure in the knowledge that he is growing with a company dedicated to helping America set the pace in improving communications for a rapidly growing world.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6106, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J. Teletype Corporation, Skokie, Ill., and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.

CS Citizens Proud Of School Band

College Station citizens are proud of their high school band. This is evidenced by the numerous volunteers for the annual band carnival at A&M Consolidated, which is a fund raiser for needed band equipment and uniforms.

"Many people have offered their services in the carnival," reports Mrs. Frank Brown III, general chairman of this event. "In several cases, all members of one family have a specific job in connection with the carnival activities."

Actually, there are three bands at A&M Consolidated School. A high school band plays and marches at football games and performs

many times throughout the year; a junior high band and a sixth grade band work hard on fundamentals and furnish entertainment also throughout the school year. All are under the direction of Willard Johnson, graduate of Oklahoma State University and a veteran of band leadership in several schools.

"We have a slight increase in the high school band this year, and we are better balanced than in the past," says Johnson. "Next year we may hit the 50 mark."

Band members at A&M Consolidated School have a busy year ahead of them. Johnson plans for the high school band to give an assembly program with the choir at Hearne soon and this group possibly will make two or three addi-

tional out of town trips. All-region band tryouts will be held at Marlin early in January. An all-region concert is scheduled tentatively for Waco and the solo contest at Baylor University in late March or early April.

Junior high band members will compete in an all-region band contest during the year. Some students will compete for places in the all-region band. The junior high band will take part in May festival celebrations in Brenham, and the sixth grade band will travel to Bellville for a performance.

A 14-member stage band is being organized in the high school and Johnson plans to begin a junior high stage band soon. These bands will play the "Lawrence Welk type" music.

"Quality to Enjoy ..."
