

"Since we've got a winning streak going, we'd like to be a part of your team, coach! Could you use a couple of student managers?"

Oceanography Ship In Galveston

A&M's Oceanography ship *Hilgelo* returned to Galveston Saturday after a four-day cruise along the continental shelf from Sabine to Corpus Christi. The expedition, under Chief Scientist Dr. Chen-Wu Chien, measured changes in heat content of water during the cooling season. Researchers hope to relate the changes in temperature to certain meteorological conditions. This is the first of a series of eight or ten cruises for this particular study that began in the fall and will last through early winter. The duration of each planned cruise will be approximately four days.

Sweetheart Announced
 Ann Edwards, Texas Women's University after being chosen 1962 Aggie Sweetheart sophomore from Houston registers surprise Sunday. (Photo by Bob Sloan)

Graduate School Has 725 Enrolled

The A&M graduate school reached an all-time high this fall when 725 students enrolled to begin work toward advanced degrees. The school, one of the fastest growing facets of A&M, conferred 233 master level degrees and 43 doctorates during the past year. There are now 239 doctoral candidates and 486 students seeking masters degrees. "Thirty years ago a high school education was the bulk of educational requirements. Fifteen years ago a college degree became a necessity and now advanced degrees are required in many cases," Dr. Wayne C. Hall, Dean of the Graduate School, said in explaining the increase. While enrollment is increasing, graduate school requirements are stiffening. Before being considered for advanced studies, the graduate candidate must have a 2.0 average. In addition, other credentials of the candidate are evaluated by an admission committee. Also, effective this fall, graduate students will be required to take a battery of tests, known as the Graduate Record Examination. The tests are not to discourage serious minded, capable students from entering graduate work, the dean pointed out. The greatest increase within the graduate school is with the doctoral candidates. This year's 239 enrolled is an increase of 28 over the fall semester of 1960. With the doctoral program, the significant increase is found in the School of Engineering. There, the enrollment is up 28 per cent. The introduction of a doctor's degree in industrial education accounted for 14 new students. Hall is pleased, too, with the steady increase in Ph.D. candidates in the School of Arts and Sciences, which has jumped from 34 in 1959 to 63 in 1961. The School of Agriculture has a total of 98 doctoral candidates, while veterinary medicine, with its limited enrollment, has three. On the master's level, the School of Arts and Sciences registered a total of 185 graduates, an increase of 25 over 1960. Agriculture is next with 145, followed by engineering with 143 and veterinary medicine with a limited enrollment of 13. The figures in both levels of graduate work do not include special students, those enrolled for part-time advanced study.

SWEETHEART

(Continued from Page 1)
 gies once again adjourned to make a final decision. After five more minutes of deliberation, the 14 filed into the Ballroom and formed a line, as Johnny Martinez, social secretary of the senior class and chairman for the group, announced Miss Edwards as the sweetheart. Then came the traditional pinning of the Class of '62 pin on the sweetheart, and members of the committee kissed Miss Edwards. As Aggie Sweetheart, Miss Edwards will represent A&M at various events throughout the year, and will be officially presented during half-time ceremonies in Ft. Worth next weekend. By afternoon, the delegation of Aggies was back on the road to A&M, with one underlying thought; as Gary Anderson, deputy corps commander said, "They surely treated us nice!"

Aggies Cover State Fair

Three A&M students reported to the State Fair of Texas press room Friday night to help with coverage of the State Fair's livestock shows. They are: Charles Teague, '63, journalism major from San Antonio, son of SFC and Mrs. Charles O. Teague. Gary Ready, '63, business major from Fort Worth. He is the son of Mr. and Mrs. J. W. Ready. Robert Mitchell, '63, journalism major from Comfort, the son of Lt. Col. and Mrs. R. E. Mitchell. A&M graduate Charles Taylor will serve as writer for livestock publicity during the entire fair. The three students will work the first half of the fair and will be relieved by three other students for the second half of the fair.

FOR SALE

GRADUATE STUDENTS

GENERAL DYNAMICS FORT WORTH

THROUGH B-58 PROGRAM EXPERIENCE, our engineering staff developed a unique capability in high performance aircraft and electronic systems design. Now, this mature capability is directed to new programs for air craft, advanced military weapons and reconnaissance systems, and certain space-oriented development projects. In addition, new emphasis is being given to basic problems in the space sciences through a new and expanding Applied Research staff. Specific assignments for graduate students as well as a few well-qualified BSEE's are available. For detailed information about openings within these fields, see your Placement Office file. All qualified applicants will receive consideration for employment without regard to race, creed, color, or national origin.
