

LESS EUPHONY, PLEASE
SPRINGVILLE, Ala. (AP)—The Chamber of Commerce decided to ease the slogan on the highway welcome signs, "A good place to stop, shop and flop," and started trying to think of something "a little less poetic, but a little more dignified."

SHOULD WE CENSOR TV VIOLENCE?
Newton Minow of the FCC says the networks should clean up shows or get off the air. TV bigwigs call this censorship. Is it? Should our government blow the whistle on TV trash? Get the story in this week's Post.

Taking A Good Look At A Good Looker
Jo Ann Odum, posing in a swim suit and an "Uncle Sam" hat outside London's Waldorf Hotel, draws the undivided attention of a British workman and other passersby. The tall beauty from Huntington, W. Va., is in England to represent the U. S. as Miss United States in the forthcoming Miss World contest in London. (AP Wirephoto)

Wives Club News
Range and Forestry Wives Club met Monday night in the home of Mrs. Jerry Andrews. The speaker was Dr. O. E. Sperry of the Department of Range and Forestry.
Electrical Engineering Wives Club met last night at the Sheer Beauty Salon. Their program consisted of Tips on Charm and Beauty by Mouanne Clayton and Hair Styles by Mrs. Edna Weaver.
The Chemical Engineering Wives Club will meet tonight in the South Solarium of the YMCA Building at 7:30. Mrs. Snyder of the Real Hat Shop will speak on hats and accessories and will have a display.
Oceanography and Meteorology Wives Club will meet tonight in the Brooks Room of the YMCA Building.
The Aggie Wives Bridge Club meets Wednesday at 7:30 p.m. in the Memorial Student Center.
Architectural Wives Club will meet tomorrow at 7:15 p.m. at Kraft Furniture Company.
Civil Engineers Wives Club will meet Monday at 8:00 in the South Solarium of the YMCA Building.
Aggie Wives Council will meet next Monday at 7:00 p.m. in the YMCA Building.

Year's Visitors Total 11,267
A total of 11,267 visitors were on campus during June, July, August, September and October, P. L. Downs, Jr., official college greeter, announced today.
The visitors attended short courses, conferences, class reunions and other scheduled meetings. Downs said the college had 727,783 visitors on campus for scheduled meetings and activities during the 12-year period and five months from June 1, 1949, to Nov. 1, 1961.
Seventeen groups were on campus in October.

Larry Osborne, Detroit Tiger reserve first baseman, is the son of Ernest (Tiny) Osborne who pitched for the Cubs from 1922 to 1925.
Mrs. Litchfield received her B.S. degree from the University of Cincinnati and her master's degree in 1960.
She is a member of the American Society for Microbiology and an honorary member of Sigma Xi.

Oceanographers Get Grant For Study Of Sea Water

The Department of Oceanography and Meteorology has received a grant of \$46,000 for a three-year study of dissolved organic compounds in sea water. The project, which began the first of the month, is under the direction of Dr. Donald W. Hood, while the principal research scientist is Mrs. Carter Litchfield.
The three-year project studying matter in the Gulf of Mexico by microbiological assay will use Seratia marinoirubra, a marine bacterium, by subjecting it to ultraviolet irradiation.
This will kill 75-95 per cent of the marinoirubra, depending on the length of time that it is irradiated.

The remaining bacteria will be biochemically deficient and used in the assay.
Comparison of different amounts of growth with differing concentrations of the required organic compounds will be made, Mrs. Litchfield explained. Then when the bacterial mutant is grown in sea water, the amount of growth in this unknown source can be correlated with growth in known concentrations. Thus, researchers can determine how much of a certain compound is in sea water.
Once a large representative group of biochemically deficient strains of marinoirubra has been acquired, field testing in the Gulf of Mexico as well as at stations off-shore from Galveston will begin.
At certain intervals samples from various depths from identical stations will be obtained and assay procedures will be run. A correlation between the amount and type of dissolved organic matter in the gulf and the microbial population will be sought.
In addition to this project, Mrs. Litchfield currently is working on carbonic anhydrase in marine algae and the effect of ferric oxides on co-precipitation of organic matter of sea water.
Mrs. Litchfield received her B.S. degree from the University of Cincinnati and her master's degree in 1960.
She is a member of the American Society for Microbiology and an honorary member of Sigma Xi.

OFFICIAL NOTICES
Official notices must be brought, mailed or telephoned so as to arrive in the Office of Student Publications (Ground Floor, Y.M.C.A., VI 6-6415, hours 8-12, 1-5, daily Monday through Friday) at or before the deadline of 1 p.m. of the day preceding publication — Director of Student Publications.
All Student Organizations wishing to be officially recognized on the A&M Campus for the 1961-62 school year should apply for recognition by November 22, 1961. Student officers and advisors (or sponsors, tactical officers, counselors) and their addresses must be filed also. All officially recognized student organizations must have a member of the A&M College staff or faculty as an advisor. A banking signature card listing the name of persons authorized to handle the financial affairs of the organization should be completed. All of this information should be filed with the Building Cashier, Memorial Student Center.
There is a newly established Student Finance Center (next door to MSC Building Cashier) for officially recognized student organizations. Each officially recognized student organization has been assigned a filing cabinet for filing of fiscal records and to serve as a mailing address.
Mail, including bills and statements, for recognized student organizations will reach these organizations if addressed as follows:
1. Through U. S. Mail:
Name of student organization
Attention: Name of student making purchase
Box 5688
College Station, Texas
2. Through Campus Mail:
Name of Student organization
Attention: Name of student making purchase
Faculty Exchange Box 274
Student Finance Center
Campus 3114

Those undergraduate students who have 95 semester hours of credit may purchase an A. and M. ring. The hours passing at the time of the preliminary grade report on November 13, 1961, may be used in satisfying the 95 hours requirement. Those students qualifying under this regulation may leave their name with the ring clerk in the Registrar's Office in order that she may check their records to determine eligibility to order the ring. Orders for the rings will be taken between November 27 and January 4, 1962, for delivery February 1, 1961. The ring clerk is on duty from 8:00 a.m. to 12:00 noon, Monday through Friday of each week.
H. L. Heaton, Director of Admissions and Registrar 31121

Graduation invitations for the January commencement must be ordered by Tuesday, November 28th at 5:00 p. m. They may be ordered starting November 6th at the Cashier's Window in the Memorial Student Center. 2817n

DEPARTMENTS
Place your orders now for the 1961-62 official directory for delivery in November at the Student Publications Office. Price is \$1.00 per directory plus 2% sales tax unless exempt. 2817n

RURAL POINT OF VIEW
EAU CLAIRE, Wis. (AP) — The Wisconsin Towns Association, an organization traditional supporting rural points of view, went on record recently in favor of a tax on horses, mules, packasses and donkeys.
Association officials said such animals nowadays are owned by city folks with places in the country.

LOUPOT'S

how quiet is quiet?
Cats are notoriously silent in their singularly feline way. But even the most stealthily treading tomcat could take lessons from the men at Ford Motor Company whose job it is to track down and suppress unwanted noise in vehicles.
At our Ford Research and Engineering Center in Dearborn, engineers have created a unique room without echoes, virtually duplicating the perfect stillness that exists miles above the earth's surface.
The "Silent Room", as we call it, is a chamber utilizing fiber-glass wedges as sonic "blotters" to soak up noise emanating from subjects undergoing developmental tests. In this acoustically sterile environment, electronic instruments seek out the source of vibrations, rattles, rumbles and squeaks so that they can be eliminated in production.
This scientific approach to silence is but a tiny facet of the many-sided program of pure and applied research which goes on daily at Ford Motor Company. It is another example of Ford's leadership through scientific research and engineering.
