

THE BATTALION

Volume 60

COLLEGE STATION, TEXAS WEDNESDAY, NOVEMBER 29, 1961

Number 41

Century Council Ends Second General Meet

Century Council members scattered across the state yesterday and today after the group's second general session which ended on campus yesterday.

During the local two-day session, subcommittees of the four main task forces met with faculty-staff members in across-the-table discussion. Questions asked by council members ranged from future needs to anticipate needs of the college.

Queries also involved the type of student the college should aspire to graduate by 1976, the mission of the college and its component, the levels of academic excellence and the size and scope of the college by its 100th birthday.

Also councilmen heard reports from a faculty-staff aspirations committee appointed to conduct an internal evaluation of the college. These reports were heard Monday during the meet's first day.

The just-completed session was the second of five fact-finding meetings during the year-long study. The next group meeting will be held next spring, March 1-2.

At this meet subcommittee findings will be integrated into task force reports. These task force reports will be prepared and submitted to the council, with the council to present its findings to the Board of Directors next summer.

The board, in turn, will make its report to the public at a fall convocation in 1962.

Information centers established for Century Council members are faculty-staff members from the schools of agriculture, arts and sciences, engineering, veterinary medicine and business administration.

BULLETIN

A&M Coach Jim Myers was reported working for the National Football League's Dallas Cowboys Tuesday.

The report, which originated in Dallas, said that Myers, whose contract as head football coach and athletic director at A&M was not renewed by the A&M Board of Directors last week, is helping the Cowboys prepare for the NFL draft next Monday. He is working on player records and scouting charts at the Cowboy office, the report read.

"Myers is a good judge of talent and he'll be a great help to us," Ted Schramm said.

UNIQUE DESIGN

Nuclear Device Is Good Worker

A uniquely designed High Level Gamma Irradiation Facility is now in operation as part of the Nuclear Science Center which will be important to researchers in the sciences and engineering.

The facility will enable performance of a multitude of basic research tasks by scientists in the Southwest.

Dr. George M. Drise, associate research biologist for the Texas Engineering Experiment Station, said that the High-level Gamma Irradiation Facility is available at nominal cost for use by any qualified scientist in this region with the need and desire to use it.

Other gamma irradiation facilities existing in Texas were designed to meet specific needs for researchers in San Antonio and Austin. However, there is no similar facility in this part of the United States that will permit the scope of irradiation experimentation that is possible here.

Located near the Nuclear Science Center, the facility houses a heavily shielded vertical tube into which 23 stainless steel "pencils" are loaded with a total of 1,250 curies of radioactive Cobalt. The pencils are arranged in a shape of a hollow cylinder and this container may be raised or lowered a distance of 24 inches.

This gamma irradiation source may be used three ways—simultaneously or separately—on materials out-of-doors, in a shielded tunnel or within the cylinder itself, according to Krise.

For instance, high-dose irradiation (within the cylinder) is possible for research in radio-chemistry, food sterilization or even insect irradiation.

Medium-dose irradiation (within the tunnel at various distances from Cobalt source) may be given such varied items as small animals, radio components, transistorized circuits, and biological materials.

Low-dose irradiation exposures may be made on objects in a field adjacent to the facility. This will permit research with animals,

crops, vegetation placed some distance from the Cobalt source to simulate chronic exposure.

The radiation from the source may be beamed to all parts of the semi-circular field which is bounded by a high banked slope at 150-foot radius. This bank limits the range of radiation to this field. The whole area is surrounded by two fences.

This high-level facility is designed so that several useful future modifications can be made with little trouble. For example, the source can be changed from Cobalt 60 to any other existing gamma source, such as Cesium 137. Shielding is adequate to house up to 50,000 curies of Cesium 137.

31 Air Force ROTC Students Enrolled In Flight Program

Some 31 A&M Air Force ROTC cadets are participating in the Air Force's flight training program this fall.

They are among the 1,500 senior AFROTC cadets who have taken to the air this fall for nearly 50,000 hours of flying. Students receiving training under this program are from 160 colleges and universities throughout the country.

The Aggie flyers are: John Betts, Joseph Ashy, Marcus Covington Jr., John Beakley, John Lockhart, J. R. Holley, Maurice Akin, Leonard Dobias, Teddies Miller, Wayne Bechler, Lowell Conder, William Jones and Davis King.

Others include Clifford Ernst, Charles Bratton, Raymond Matula, Stewart Carpenter, Travis Jackson, Gardner Krumrey, R. C. Smith, Donald Thompson, Robert Smith, Ted Hodges, William Bednar, Donald Dodgen, James Hill Jr., and Kenneth E. Jarosz.

Also in the program are J. J. Clossner III, Darral Dean, Elmer Goins and William H. Smith II.

Freshmen Vote Tomorrow For Class Officers

Primary Election Pulls 80 Hopefuls

Freshmen will begin the selecting of 13 class representatives tomorrow in the primary freshman election in the Memorial Student Center.

Eighty freshmen have filed as candidates for the 13 openings. The positions are president, vice president, social secretary, secretary-treasurer, four Student Senate representatives and five Election Commission representatives.

Voting will be conducted in the corridor between the MSC bowling alley and fountain room from 8 a. m.-5:30 p. m. The seven voting machines will be closed from noon to 1 p. m. Student Programs Advisor W. D. (Pete) Hardesty said yesterday the run-off will be held Dec. 12. The top two candidates for each post in tomorrow's voting will vie in the run-off.

Candidates for president are Joe J. Allen, Lee S. Bollinger, Gerald H. Buttrill, Hoppy J. P. Cassity, Bob M. Desmond, Larry J. Dowling, Mickey E. Durbin, Lynn Evans.

Also Mike J. Fourtieg, Bob H. Hale, Tommy J. Harrison, Neil L. Keltner, William P. Matthews, Bookie T. Murski, Jim M. Roberts, J. T. Rose, John J. Servidio, Richard Smith and Wes M. Taylor.

Vying for vice president are Lovell Aldrich, William Kean Altman, Jonathan B. Chase III, Joe Eccles, Joe N. Johnson, Harrison Paul Jones, James Collins Love, Lawrence York Moore, William M. Seawell, Jerry Donald Vick, Jerome H. Victory, James Curtis Mark Willenborg and Michael Wuensch.

Secretary-treasurer candidates are Leslie Thomas Fuchs, Clifford Albert Jacobs, Jay Jaynes, Thomas Theodore McConnell, Joe Daniel McIlhoney, William W. Mason, Robert Maxey Nalley, Henry H. Norman, Frank S. Owens and Thomas W. Wright.

Hopefuls for social secretary are Louis Frank Anderson, Dennis B. Barr, Bob Bell, Roger Eugene Carleton, Chester Owen Martin and Frank Michael Tovey.

Trying for Student Senate positions are Joe Daniel Anderson, William Charles Bayer, Herman Bruce Darling, Barry Dean Echols, Terry Cowdrey Finkbiner, John Carter Frank, Donn L. German, Glenn A. Kleinert, William Lawrence Malaise.

Also Victor Zoe Martin, Nicholas Morrow, Kenneth Oberhoff, Terrence A. Oddson, Larry Allen Phillips, Paul Edward Riley, Thomas Russell Seely Jr., Kenneth O. Simmons, James William

Thompson, Albert Tijerina and Donald Robert Warren.

Election Commission candidates are Joseph Kirk Armintor, Marshall Lee Battle, James W. Blankenship, Gordon G. Broussard, Allan R. deVilleneuve.

Plus Gilbert E. Kretzschmar, Andrew Ortiz, Don C. Plattsmier, Ronald L. Skaggs, Eugene Triesch Jr., P. V. Yurgensen and Joseph Ernest Zotz.

Beef Banquet At Triangle Starts Contest

The Triangle Restaurant, named earlier this month as one of 18 contestants in the Texas Beef Council's state-wide Beef Merchandising Contest for Texas Restaurant operators, yesterday hosted Jack Kemp, Beef Council field representative, in a visit constituting preliminary judging in the contest.

Joe Ferrari, owner and manager of The Triangle, said his restaurant had been nominated to represent Bryan by restaurant owners of the region. Winner of the contest will be announced and honored at the Council's Eighth Annual Beef Supper in December.

Purpose of the contest, according to Kemp, is to "observe the most effective methods used to promote beef dishes by our top Texas restaurants and pass on valuable beef promotion ideas to restaurant operators in other areas."

Final judging in the contest will be performed by national leaders in food and marketing fields, he said.

On hand for the noon "beef banquet" held in the Club Room of The Triangle were representatives of the various newspapers, radio and television stations, the Chamber of Commerce, and specialists from A&M College.

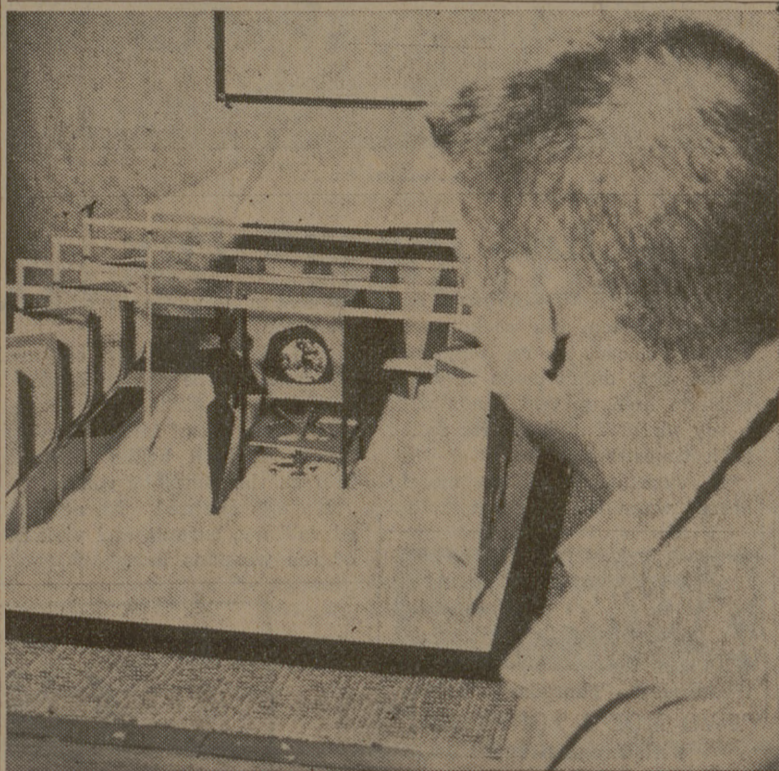

A&M Horticulture Club's Annual Sale To End Saturday

The A&M Horticulture Club's annual citrus sale will end Saturday, President Gene Arnold disclosed today.

Sale of grapefruit and oranges began Monday through members of the club.

Being offered are a 20-pound bag of grapefruit for \$1.50, 20 pounds of oranges for \$2 and a 20-pound bag of both oranges and grapefruit for \$1.75.

Persons interested can either see a club member or drop by the horticulture office in Room 1 of the Agriculture Building.

Architecture Exhibit

Fruits of many long nights in the arch-labs on the fourth floor of the Academic Building can be seen this week in the Memorial Student Center display cases. Here Ron Miller, '64, sociology major from Coronado, Calif. examines a model built by Fred Drollinger, '65, from San Diego, Calif.

Students Eligible For NATO Grants

A&M students are eligible for 1962-63 North Atlantic Treaty Organization Advanced Research Fellowships, Campus Fulbright Adviser J. M. Nance announced yesterday.

Nance, head of the Department of History and Government, said a limited number of fellowships are available to candidates from NATO nations, including the United States.

The candidate must be a citizen of a member country and must conduct research in one or more member countries, he added.

Nance said the air of the program is "to promote study and research leading to publication on

various aspects of the common interests, tradition and outlook of the countries of the North Atlantic Alliance, in order to throw light on the history, present status and future development of the concept of the Atlantic Community, and of the problems which confront it."

Grants are intended for scholars of established reputation, he said. Candidates will be selected on the basis of their special aptitude and experience in carrying through a major project of research. In making selections, such factors as academic qualifications (generally, the doctoral degree or its equivalent), professional experience and publications will be considered.

Projects should concern historical, political, economic and social problems rather than scientific questions.

Further details can be obtained from Nance in Room 203 of Nagle Hall.

SCONA CO-CHAIRMEN — 2

Academy Profs On Program

By TOMMY HOLBEIN
Battalion Managing Editor

Two outstanding professors from service academies who will be roundtable co-chairmen at the Seventh Annual Student Conference on National Affairs are Major George P. Tilson, West Point, and Captain Jack E. Freeman of the Air Force Academy.

Tilson is an assistant professor in the Department of Social Sciences at the United States Military Academy. He was born in Asheville, North Carolina, and was a cadet at West Point from 1946 through 1950, graduating with a B.S. degree.

Tilson was tank platoon leader and tank company executive officer in the Korean War, 1950-51. He was tank company commander at Fort Hood, Tex., 1952-53, and in Germany from 1953-56. He attended the Armor Officer's Advanced Course, The Armor School, Fort Knox, Ky., 1956-57.

From 1957-59, he was a student at the Harvard University Graduate School of Public Administration, obtaining a Master's Degree in public administration.

Tilson became an instructor in the Department of Social Sciences at the United States Military Academy in 1959, and is presently

assistant professor in the department.

Freeman is assistant professor of political science at the United States Air Force Academy. A native of Texas, Freeman attended Baylor University, where he received the B.A. and M.A. degrees in political science.

A counter-intelligence specialist, Freeman served with the Office of Special Investigations, USAF, in Chicago, Ill., and in Germany.

Prior to his assignment to the

faculty of the Air Force Academy, Freeman was Middle East Area Analyst, Directorate of Special Investigations, Headquarters, USAF, Wiesbaden, Germany.

Freeman was a lecturer in the European Division, University of Maryland, and prior to entering the Air Force, he was employed as secretary to Congressman W. R. Poage of Texas.

Valenti Can't Come

A letter received yesterday in the SCONA VII office notified the executive committee that Jack

Valenti, Houston advertising executive scheduled to be a co-chairman, would not be able to attend the conference due to other extremely pressing responsibilities.

Valenti's vacancy has not yet been filled, according to David Spencer, SCONA VII chairman.

Other roundtable co-chairmen still scheduled are the following men: Dr. Alvin A. Price, Dean of the School of Veterinary Medicine, A&M; Dr. John P. Abbott, professor of English, A&M. and Dr. Rocco Paone, associate professor of the English, History and Government Department, United States Naval Academy.

Also in the group are James B. Lipscomb, associate director of overseas relations, Graduate School of Business Administration, Harvard University; Jeff Montgomery, president of the Kirby Petroleum Co., Houston, and Dr. Radoslav A. Tsanoff, trustee distinguished professor of humanities at the Rice University, Houston.

W. E. Eckles, director, Executive Development Course, A&M; Robert E. Cochran, Jr., associate editor, The Houston Chronicle, Houston, Tex.; Dr. Edmundo O'Gorman, of the University of Mexico, and Dr. William S. Livingston, dean of the Graduate School, University of Texas, will be roundtable co-chairmen.

Major George P. Tilson
... U. S. Military Academy

Capt. Jack E. Freeman
... Air Force Academy
