Fish Election

The Class of '65 will go to the polls tomorrow to choose 13 of their number to represent the class for the remainder of this school year.

More accurately, they will narrow the field of candidates from 80 (the number who had filed for office by 5 p. m. of Tuesday of last week, the last day for filing) to 26 (the top two candidates for each post.) The 13 offices will be filled in a run-off election Dec. 12.

The number of freshmen who filed this year is impressive. More impressive—19 have filed for the office of president, more than for any other single office!

Representing a class as one of its elected officers is a serious business. It is a job for dedicated people who can see what should be done and do it in the face of criticism. It is a job for people who have the best interest of their class and of their school at heart.

It is NOT a job for those who will forget the campaign and the election two weeks after it is over. Nor for those who seek election merely for the prestige it will bring to themselves and their outfits.

Every person who votes in tomorrow's election must decide for himself who is the one person best qualified to lead his class, and who are those best qualified to work with him.

Careful weighing of the pros and cons, then deliberate action at the polls will insure strong leadership.

— Sound Off —

Editor, The Battalion:

It is our desire that your readers know the positions taken from time to time by our organization. The following is a paraphrase of resolutions which we adopted in our most recent meeting:

We believe that faith in the individual is the only true foundation of our national strength.

We believe that our national stability can stem only from the basic constitutional principles that unite us.

We believe that private enterprise and encouragement of individual incentive have given this nation an economic system second to none on earth.

We believe, as Lincoln did, that the proper function of government is to do for the people only those things that have to be done, but cannot be done by individuals for themselves.

We believe that sound economic growth can be generated only by sound money and avoidance of inflationary deficits.

We believe in equal rights and

equal justice for all regardless of race, creed or color.

We believe Americans have an international kinship with peoples everywhere who seek the extension of freedom and human rights.

We believe that Americans have an enduring capability of making hard decisions unflinchingly when the security of the nation and our free world allies is threatened by aggression.

We believe the party is a party of realistic vision, retaining those things from the past that are worth retaining and always receptive to new ideas in the task of building a better America.

We believe our mission is to win on merit as we appeal to all segments of the population—not as separate groups but as part of the whole with equal but never superior claims on the progress we can generate.

We believe that only through the Republican Party can these ideals become active and successful principles of government.

U. S. Agriculture Praised

KANSAS CITY (AP)—Secretary of Agriculture Orville Freeman said Tuesday banishing the fear of hunger and famine in the world was a greater power than guns or bullets.

Only the free and democratic people have achieved the abundance of food and fiber that uncertain nations seek, he said.

Freeman said the strongest de-

terrent to the spread of communism was the contrast between American agriculture and that of the Communists.

East, Not West, Berlin Spy Center

“... Smile ...”

WASHINGTON (AP)—The State Department charged Tuesday the Soviet Union and its satellites are using East Berlin as a springboard for their espionage activities against West Germany and other countries of the Western world.

In addition, the department said, the Communist intelligence service based in East Berlin are used to kidnap and assassinate political enemies of the Communists.

The department issued a detailed review of Communist espionage activities in East Germany and the Soviet sector of Berlin. The study was made public in connection with the defection of Guenter Maennel, a former East German Communist agent.

Maennel, described as a senior officer of the East German Secret Service, defected June 29, 1961. Bonn dispatches said he was the chief of the American desk of HVA, the East German intelligence agency operating outside East Germany.

The Soviet Union, in demanding that West Berlin be made a “free” city, has repeatedly charged that West Berlin was a center of espionage and subversion.

Maennel's statement in Germany made it clear that the “recent Soviet propaganda attacks

on West Berlin are sheer hypocrisy,” the State Department said. The headquarters of all Communist espionage organs is in Karlshorst, in East Berlin, the department said. Not only East Germany but also the Soviet Union, all European satellites—except Albania—and also Red China and North Korea have espionage services in East Berlin.

It Just Doesn't Pay

NEW YORK (AP)—A broke and jobless bellhop, his pocket containing tickets on long-shot horses that didn't come through, tried to hold up two banks with a toy pistol Tuesday. He failed both times.

In each bank, tellers merely stared when the Negro man de-

manded money. Unnerved by the reception, he left.

A traffic patrolman captured him outside the second bank.

Officers identified him as Raleigh Joyce, 33, of Manhattan, and tellers of both banks identified him as the would-be robber.

He was charged with attempted robbery, assault and violation of the weapons law.

Girl Watcher's Guide

Presented by Pall Mall Famous Cigarettes

Well-Preserved Forty plus

LESSON 4 - Why men watch girls

Men watch girls for various reasons. Personally, we need no better reason than the reason men climb mountains. They are there. We have heard old men say they watch girls because it makes them feel younger and young men because it makes them feel older (see above). While investigating the reasons why men watch girls we picked up a clue from, of all things, a bird watcher. He told us

that he formerly had been a flower watcher. Then one day a Speckle-Breasted Jackdaw happened to land in his garden as he was watching a calla lily and he noticed that the bird moved. He switched to birds on the spot. Girl watchers have discovered that girls enjoy this same advantage (movement) over calla lilies. (Speaking of advantages, how about Pall Mall's natural mildness!)

WHY BE AN AMATEUR? JOIN THE AMERICAN SOCIETY OF GIRL WATCHERS NOW!
