

Cuban Girl, Aggie Married Saturday

By TOM HOLBEIN
Battalion Managing Editor

A wedding in St. Mary's Chapel Saturday morning united an A. & M. student from Cuba and his homeland sweetheart after they had been separated for 14 months.

Raul Jimenez, senior meteorology major from Caribarien on Cuba's northern coast, and Carmen Rosa Prieto had dreamed of being together once again since September of 1960, when Jimenez planned to return to Cuba for the Christmas holidays.

He was unable to do so. Last summer, the couple devised plans for Carmen to come to the United States.

But since there was no longer an American embassy in Cuba, a visa had to be obtained through sources in this country.

That was the start of many months of waiting and hoping, of discouragement and despair . . . and finally, success.

"I'll tell you, it took a lot of

patience on both our parts. I even tried to marry her by proxy, but complications through foreign embassies in Havana prevented this," said Jimenez.

Last September, Miss Prieto wrote to her uncle in New York seeking assistance in acquiring a visa. After seven weeks of effort, the uncle succeeded in securing the papers.

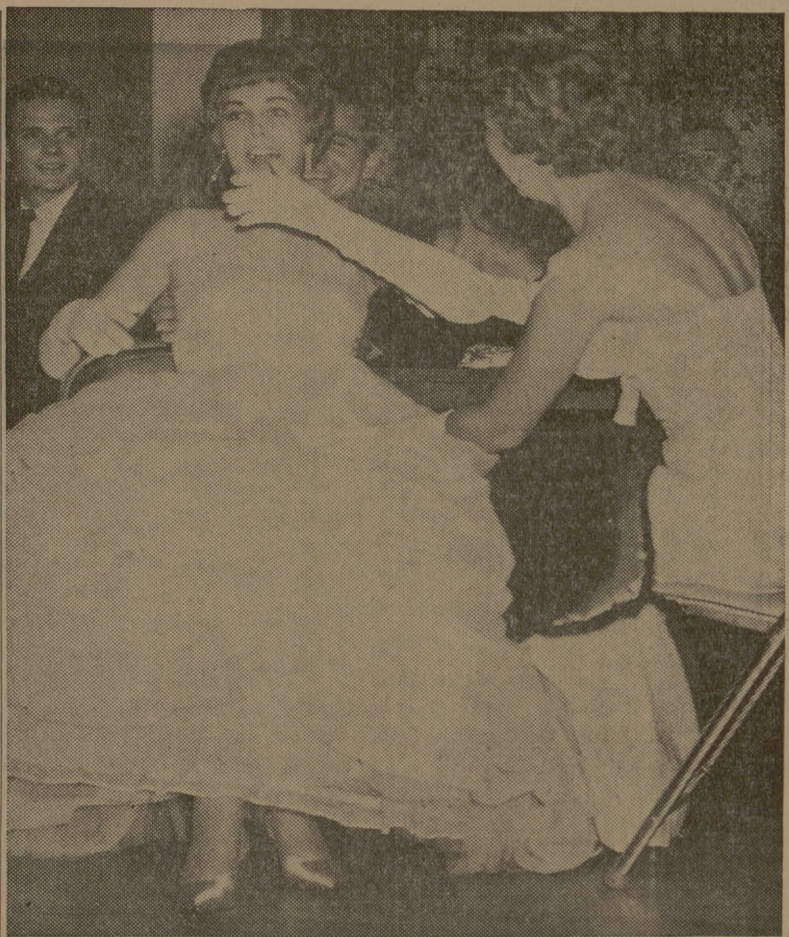

However, during this time a new law was passed in Cuba making the procedure for leaving the country more complicated.

This caused another prolonged delay in Miss Prieto's journey to her intended's side.

An unexpected telegram Nov. 23 informed the girl that she could leave Cuba within 48 hours.

Jimenez said a month and a half is the usual waiting time for air passage out of his country.

By Nov. 25 she was in Miami, and in for six days of customs and immigration procedures. A week ago last Saturday they met.

Surprised Winner

Claudia Boren registers the usual surprise at being announced "Mrs. Texas A&M" of 1961. She is congratulated by another unidentified candidate. The winner was picked at the annual dance sponsored by the Aggie Wives Council.

Weather Towers Keep A&M Professor Busy

Dr. William H. Clayton, associate professor in the Department of Oceanography and Meteorology, is working on two Dallas tower projects which will provide research data for objective weather forecasting. He also is doing research work on an improved meteorological simulator.

One of the projects is sponsored by the U. S. Army Signal Research and Development Laboratory, Fort Monmouth, N. J., and the other by the Geophysical Research Directorate of the Air Force at Cambridge, Mass.

The projects, sponsored by the Air Force and U. S. Army, are concerned with the measurement of meteorological parameters from 11 observation stations at Cedar Hill, near Dallas.

One of these towers is a 1450 foot TV tower on which measurements of temperature and wind are made at several levels. This station is operated by the University of Texas.

Of the remaining towers, two

MRS. A&M

(Continued From Page 1)

geland Florists and the cup was donated by the Bryan-College Station Chamber of Commerce.

Mrs. Wright received a \$15 permanent from Lady Fair Beauty Salon and Mrs. Croft was awarded a gift certificate from Beverly Braley.

Mrs. Boren said this was the first contest of this type she had ever entered.

Mrs. Jean Vaught, president of the Aggie Wives Council, said that one of the contestants, Mrs. Fran Harris, took part in the event even after being accidentally shot in the foot earlier last week.

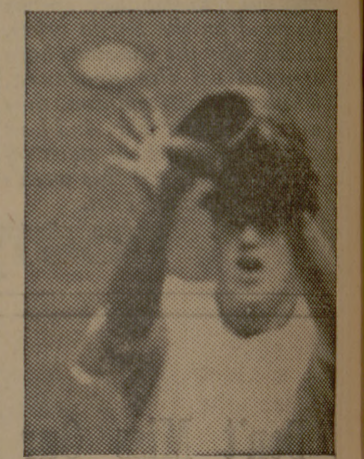

Music for the dance was provided by the George Vincent Sartet from Sam Houston State College.

Door prizes for the event were donated by Toy Lane, Hansons, Lester's, The Varsity Shop and Jarrott's.

Atomic Expert Sets Talk Here Friday

Dr. R. F. Scott of the General Atomic Division of General Dynamics Corporation will speak on "Experimental Plasma Physics" Friday at 4 p.m. in Room 211 of the W. T. Doherty Petroleum Engineering Building.

This seminar, held by the Department of Nuclear Engineering, is open to all interested faculty members and students.

BASEBALL IS NOT OUR NO. 1 SPORT!

So says the owner of the Washington Redskins. He lashes out at baseball ("it's cooked"). Basketball ("the public doesn't care"). Boxing ("doesn't even deserve to be called a sport"). And, in this week's Post, he tells why football is tops.

The Saturday Evening POST

Tears Of Joy Follow Nuptial Mass

Raul Jimenez reaches for a hankie to dry the tears that followed the nuptial mass joining the Cuban Aggie and his sweetheart, Carmen Rosa Prieto, in marriage Saturday in St. Mary's Chapel. At the left is Mrs. Daniel J. Gramatges, Miss Prieto's hostess before the ceremony.

AMONG THE PROFS

Microbiology Professor Wins \$20,000 Grant

Dr. Richard W. Moore of the Texas Agricultural Experiment Station and an associate professor in the Department of Microbiology, has received a research grant of \$20,000. He will use the grant to continue research on swine enteritis, which is considered the first ranking hog disease problem in the United States.

E. E. Liebafsky, economics professor, recently completed an article, "Some Projected Changes in the Texas Labor Force." In his article he pointed out that a rapid increase in the number of women over the number of men in the Texas labor force is expected to be the trend for the next 14 years. Liebafsky is now writing an economics textbook titled "Economics of Labor."

Dr. A. F. DeWorth, head of the Department of Floriculture, will chair a Christmas Workshop, Dec. 14-15 in the new field laboratory in the nursery adjacent to the Hensel Apartments.

Dr. J. R. Hildreth, assistant director of the Texas Agricultural Experiment Station, will give the official welcome at the Texas Turfgrass Conference next Monday in the Memorial Student Center.

Dr. W. C. Banks, of the Department of Veterinary Medicine and Surgery, has been elected president of the National Association of Educators of Veterinary Radiological Science.

Dr. Frank W. R. Hubert, dean of the School of Arts and Sciences, will chair a panel discussion on "TEPS Push in Texas" at the State Teachers Education and Professional Standards Conference in Dallas Friday and Saturday. Dr. Paul Hensarling, head of the Department of Education and Psychology, and Dr. D. M. Estes, assistant in the department, will also attend the conference sponsored by the Texas State Teachers Association.
