I WISH I'D SAID THAT!
They asked me how I did it. And I gave 'em the Scripture text: "You keep your light so shining a little in front of the next!"

Job Calls

The following firms will interview graduating seniors on the third floor of the YMCA Building:
Minnesota Mining and Manufacturing Co.—Chemical industrial and mechanical engineering (B.S., M.S.); chemistry and physics (M.S., Ph.D.).
U.S. Naval Ordnance Laboratory—Electrical and mechanical engineering and physics (B.S., M.S. and Ph.D.).
U.S. Naval Ordnance Test Station—Electrical and mechanical engineering, physics, math and oceanography (all degree levels).
Monday and Tuesday
Dow Chemical Co.—Chemical engineering and chemistry (B.S., M.S., Ph.D.); mechanical and industrial engineering, agricultural economics and industrial distribution (B.S., M.S.); accounting (B.B.A.); business administration (B.B.A., M.B.A.).
Atlantic Refining Co.—Chemical, electrical, mechanical and petroleum engineering, geophysics, physical chemistry and physics (all degree levels).
Boeing Co.—Aeronautical, civil, electrical, industrial and mechanical engineering, mathematics and physics (all degree levels).
Monday-Wednesday
Cities Service Petroleum Co.—Chemical, civil, electrical, industrial, mechanical, petroleum engineering (B.S., M.S.); accounting, business administration and finance (B.B.A., M.B.A.), and economics (B.A., M.A.).
Tuesday
Radio Corporation of America—Electrical and mechanical engineering and physics (B.S., M.S.).
Tuesday and Wednesday
International Business Machines Corp.—Electrical and mechanical engineering, data processing and physics (B.S., M.S.); mathematics (B.A., M.A.).

THE BATTALION
Opinions expressed in The Battalion are those of the student writers only. The Battalion is a non-tax-supported, non-profit, self-supporting educational enterprise edited and operated by students as a journalism laboratory and community newspaper and is under the supervision of the director of Student Publications at Texas A&M College.
Members of the Student Publications Board are L. A. Dueswall, director of Student Publications, chairman; Allen Schrader, School of Arts and Sciences; Willard I. Truetzner, School of Engineering; Otto R. Kunze, School of Agriculture; and Dr. E. D. McMurry, School of Veterinary Medicine.
The Battalion, a student newspaper at Texas A&M, is published in College Station, Texas, daily except Saturday, Sunday, and holiday periods, September through May, and once a week during summer school.
The Associated Press is entitled exclusively to the use for republication of all news dispatches credited to it or not otherwise credited in the paper and local news of spontaneous origin published herein. Rights of republication of all other matter herein are also reserved.
Second-class postage paid at College Station, Texas.
MEMBER: The Associated Press Texas Press Assn. Represented nationally by National Advertising Services, Inc., New York City, Chicago, Los Angeles and San Francisco.
Mail subscriptions are \$3.50 per semester; \$6 per school year, \$6.50 per full year. All subscriptions subject to 2% sales tax. Advertising rate furnished on request. Address: The Battalion, Room 4, YMCA Building, College Station, Texas.
News contributions may be made by telephoning VI 6-6618 or VI 6-4910 or at the editorial office, Room 4, YMCA Building. For advertising or delivery call VI 6-6415.

We're looking forward to meeting you

We'll be on the campus on the dates listed below, ready to give engineering and science seniors information on space-age careers in a dynamic industry. If you are looking for a company offering assignments on programs of unique interest and career potential, you'll be interested in the advantages Boeing can offer you. Boeing, for instance, is a major contractor on such advanced programs as the Saturn S-1B advanced first stage booster, the Dyna-Soar manned space glider, the solid-fuel Minuteman ICBM, and the Bomarc defense missile system. Boeing is also the world's foremost designer and builder of multijet aircraft, including the eight-jet B-52H missile bomber, the KC-135 tanker-transport, the C-135 cargo-jet, and the famous Boeing 707, 720 and 727 jetliners. In addition, Boeing's Vertol Division is one of America's leading builders of helicopters.

Research projects at Boeing are under way in such advanced fields as celestial mechanics, solid state physics, nuclear and plasma physics, flight sciences, space flight and propulsion. Expanding Boeing programs offer exceptional opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electrical-electronic and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster. Drop in to your Placement Office and arrange for an interview. We're looking forward to meeting you!

Monday and Tuesday — February 12 and 13
