

AMONG THE PROFS

# Potter Named Counselor For Physics Organizations

Dr. James G. Potter, head of the Department of Physics, has been named regional counselor for Texas by the American Association of Physics Teachers and the American Institute of Physics.

In this new post, Potter will work actively with educational authorities in Texas to improve the quality of high school physics teaching in the state.

Announcement of his appointment was made today by Dr. Frank Verbrugge, acting dean of the University of Minnesota Institute of Technology, president of the American Association of Physics Teachers, and Dr. Elmer Hutchison, Director of the American Institute of Physics.

**Highways Move Homes**  
What happens when home owners are displaced by expressway construction is told in a new publication by William G. Adkins and Frank F. Eichman Jr., of the Texas Transportation Institute.

Titled "Consequences of Displacement by Right of Way to 100 Home Owners, Dallas, Texas," the bulletin is designed to help in the evaluation of alternatives if any sentiment for changes in law or policy arise and to function as a yardstick against charges or assertions regarding the severity of non-compensable consequences of displacement by right of way.

**Edmondson Promoted**  
Dr. Vance W. Edmondson, associate professor in the Department of Agricultural Economics and Sociology, has been promoted to the rank of major in the U. S. Air Force Reserve.

The professor, a member of the 9807th Air Reserve Squadron at Easterwood Airport, has served the past four years as alternate instructor for two officer training classes in the squadron. He also has served as program monitor.

**Market Consultants**  
Two members of the Department

of Agricultural Economics and Sociology are working with the U. S. Foreign Agricultural Service as consultants on market development projects in foreign countries.

They are Dr. Randall Stelly, associate professor, and James E. Kirby, graduate assistant.

The discussions will end tomorrow in Washington, D.C.

Last year, Dr. Stelly and Kirby conducted an economic evaluation of market development operations in Italy under Public Law 480.

**Livestock Show Judge**  
Dr. M. A. Brown of the Department of Dairy Science served as an official judge of Jersey cattle in the annual Intercollegiate Dairy Cattle Judging Contest for Senior Colleges at Fort Worth's recent Southwestern Exposition and Fat Stock Show.

Dr. Carl Vanderzant of the same Department presented a paper, "Some Nutritional Characteristics of Pseudomonas Fluorescens," at the recent Southern Division meeting of the American Dairy Science Association at Jacksonville, Fla.

Dr. I. W. Rupel, head of the Department of Dairy Science, participated in the meeting as secretary-treasurer. With the close of the meeting year, Rupel completed his term and was advanced to the office of vice president of the

**Pre-Vet Society Reveals Officers**

The Pre-Vet Society has announced the results of their election of officers for the spring semester. Heading the group as president will be James L. Mosley. Named president-elect was Terry Oddson. Secretary-treasurer will be George Marshall.

Selected faculty advisors were Dr. Gene M. Gowing and Dr. Frank A. Fear, both instructors in the School of Veterinary Medicine.

Southern Division for 1962-63.

**Hall Plans Symposium**  
Dr. Wayne C. Hall, dean of graduate studies and professor of plant physiology, will participate in a Plant Science Symposium March 5-6 in Philadelphia, Penn.

Hall will be a discussion leader and will give a short talk on his research at A&M involving high light intensity and high temperatures on fruit set in tomatoes.

## Mayors Name Next Week For Engineers

Bryan Mayor John R. Naylor and Ernest Langford, mayor of College Station, have issued simultaneous proclamations designating the week of February 18-24 "National Engineer's Week."

Calling on the citizens to give "proper recognition an honor to the engineers of our communities, our state, and our nation," during this week, the officials pointed out that the observance is especially timely since the birthday of George Washington, who gained quite a reputation as an engineer before he began his military and political career, falls within this week.

Co-ordinating the observance of "National Engineer's Week" for the Bryan-College Station area will be the Brazos Chapter of the Texas Society of Professional Engineers, headed by Carl W. George Jr., president, assisted by Joe G. Hanover, chairman of the Engineer's Week Committee.

Various activities, including luncheons, talks and a banquet at the Briarcrest Country Club are planned for the week and many displays will appear in the windows and lobbies of co-operating business establishments.

## \$3,000 Scholarship Open For New Agronomy Student

A \$3,000 four-year scholarship will be awarded an agronomy student entering A&M next September, R. G. Perryman, secretary of the Faculty Scholarships Committee announced today.

Candidates must be residents of either Taylor, Nolan, Mitchell, Runnels, Callahan, Scurry, Fisher, Jones, Haskell or Knox counties, and plan to study agronomy.

Deadline for submitting applications is March 1, Perryman said. The forms may be obtained from high school principals, county agricultural agents, vocational agriculture teachers or Perryman.

The \$3,000 scholarship has been made available by Western Compress and Storage Co., with main offices at Abilene and compresses and cotton warehouses at Abilene, Hamlin, Rule and Sweetwater.

Previous winners of Western Compress and Storage Co. scholarships are David Than Rieburg, Roscoe, '60; Herman Ray Adams, Route 4, Winters, '62; Wesley A. Robinson, Route 1, Clyde, '63; Charles E. Hearn, Rochester, '64, and James Arnold Fuchs, Route 1, Ballinger, '65.

## Hillel Members Attend UT Meet

Members of the B'nai B'rith Hillel Foundation will attend the State Hillel Institute at the University of Texas Hillel Foundation Friday and Saturday.

Rabbi Oscar Groner, assistant national director, and Tom Friedman, director of the Echo Hill Camp and member of the University of Texas faculty, will be the principal speakers.

Students from A&M, Sophie Newcomb, Tulane, the University of Houston, Rice Institute and the University of Texas will participate in the institute.

## '56-'57 Corps Chaplain To Speak To BSU Friday

Dwayne S. (Dub) Bailey, '57, corps chaplain here during the 1956-57 school year, will be featured speaker at BSU Vespers Friday at 7 p.m.

While a student Bailey served as president of the BSU, president of the Arts and Sciences Council, president of the Accounting Society and member of the Intercoun-

cil Committee and wrestling team. Following graduation in BSU served in youth-led revival at the sponsorship of the Texas Division of student work of Baptist General Convention of Texas, and then entered the services in October of 1957.

Bailey is now doing graduate work at Southwestern Baptist Theological Seminary in Fort Worth in preparation for his mission service.

## Grant Awarded Ag Experiments

The Texas Agricultural Experiment Station has been awarded a \$4,291 veterinary research grant from the National Institute of Health.

Research funds will be used to study the epizootiology of ornithosis in domestic turkeys.

Dr. L. C. Grumbles, professor and head of the Department of Veterinary Microbiology, is the project's principal investigator.

## I\* Wish I'd Said So

Books are masters who inspire without rods or ferules, who words or anger, without loss of money. If you approach them they are not asleep; if you offend them, they do not bite; if you blunder, they do not scold; if you are ignorant, they do not stare at you.

—Author Unknown

## Our future is in the hands of men not yet hired

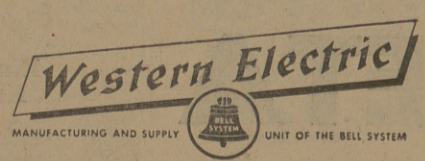

At Western Electric we play a vital role in helping meet the complex needs of America's vast communications networks. And a career at Western Electric, the manufacturing arm of the nation-wide Bell Telephone System, offers young men the exciting opportunity to help us meet these important needs.

Today, Western Electric equipment reduces thousands of miles to fractions of seconds. Even so, we know that our present communications systems will be inadequate tomorrow; and we are seeking ways to keep up with—and anticipate—the future. For instance, right now Western Electric engineers are working on various phases of solar cell manufacture, miniaturization, data transmission, futuristic telephones, electronic central offices, and computer-controlled production lines—to name just a few.

To perfect the work now in progress and launch many new communications products, projects, procedures, and processes not yet in the mind of man—we need quality-minded

engineers. If you feel that you can meet our standards, consider the opportunities offered by working with our company. In a few short years, you will be Western Electric.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6206, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J. Teletype Corporation, Skokie, Ill., and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 18 cities. General headquarters: 195 Broadway, New York 7, N. Y.
