MOVIE go ROUND

**Palace**  
Through Tuesday—★★★"Love, Come Back" Movie-makers are nice people. For instance, aware that some viewers may have missed "Pillow Talk"—starring Rock Hudson, Doris Day, and Tony Randall, they have provided us with this hardly changed rehash—starring Rock Hudson, Doris Day, and Tony Randall. Where else can we get consideration like that?  
**Queen**  
Through Saturday—★★★★"Breakfast at Tiffany's" The screen adaptation of Truman Capote's hilarious—and pointed—novel, "Tiffany's" contains delicious Audrey Hepburn as the sophisticated New Yorker, George Peppard as the writer in her life, and a cat named "Cat" as the cat in the rain. A magnificent urban-bourbon tragicomedy.  
Sunday through Wednesday—"Love Is Better Than Ever"—unreviewed.  
**Campus**  
Through Saturday—★★★★★"Ben Hur" Minus a miracle or two, and an hour or two, no better screen-fare around.  
Sunday through Wednesday—"The Singer, Not the Song"—unreviewed.  
**Circle**  
Saturday only—★★★"Great Day

in the Morning" and ★★"Because They're Young" and ★★"Jet Pilot"  
Sunday through Tuesday—★"Ada" and ★★"Voyage to the Bottom of the Sea" "Ada"—previously reviewed. "Voyage" tries the viewer's imagination somewhat. Example: A giant squid temporarily delays a submarine crew from stopping a fire in space with a missile that nobody but the sub's captain thinks will work.  
**Skyway**  
Schedule not available. they said.  
**Guion Hall**  
Saturday—★★★"The Benny Goodman Story" plus "Never Steal Anything Small" In "Goodman," Steven Allen, primarily an m.c.-pianist, portrays Benny Goodman, primarily a clarinetist-band leader. "Small"—unreviewed.  
Sunday—★★★"The Naked Edge" Though Deborah Kerr comes off well as the suspicious wife, Gary Cooper, cast as the suspected husband, is as out of place as an intelligent prof at A&M.

Your Future in Electronics at Hughes

As the West's leader in advanced electronics, Hughes is engaged in some of the most dramatic and critical projects ever envisioned. Challenges for your imagination and development are to be found in such diversified programs as:

- Project Surveyor (soft lunar landing)
- 3-dimensional Radars
- Plasma Physics, Ion Propulsion
- Solid State Materials and Devices
- Communications Satellites
- Digital Computer Systems
- Hydrospace Electronics
- Infrared

These are among the more than 500 outstanding programs now in progress at Hughes. These programs require the talents of E.E.'s and Physicists who desire to work with professional scientists in research, development and manufacture.

In addition, Hughes sponsors advanced degree programs for academic growth. These programs provide for advanced degree study at many leading universities.
