

# Ag Baseballers Meet Bears In Waco Today

Coach Tom Chandler's league-leading Aggie baseball team put their undefeated conference standing on the line today in Waco when they take on the Baylor Bears, who came within a playoff game of winning the SWC title last year.

Going into today's contest, the Bears have mustered a 1-1 SWC mark, while the Aggies have com-

pleted a 3-0 conference record and are 9-2 for the season. The Aggies' only two defeats were to the paws of the Minnesota Gophers.

Of course, A&M's most renowned victory was the one on Kyle Field last Saturday afternoon. The Aggies, behind the clutch hitting and fielding of sophomore Robert McAdams, stopped the Texas Longhorns and Tom Belcher. It

was Belcher's first conference loss in three years.

With the win over the Steers, the Aggies have become the SWC favorite for the coveted crown.

Baylor has one ballplayer who is tops in football and baseball, Ronnie Goodwin. As a sophomore last year, Goodwin won the SWC batting championship and this year, he has been moved from third base to shortstop. Another man to watch on the Bear club is center-fielder Arthur Fuentes, who has been a menace to the Aggies in the past two seasons.

One of the best hurlers on the Baylor team is Gerald Erwin, a 6-2, two-year letterman who throws from the right side.

Coach Dutch Schroeder's Bears will be looking for revenge over the Aggies this season. Out of three games last spring, the Aggies took two, 7-6, 4-5 and 15-13.

Sophomores have been the apple of Chandler's eye this spring and five have found their way into the A&M starting lineup, which excludes the pitchers. Three first-year hurlers are among Chandler's top chunkers.

### McAdams Leads Hitters

After three SWC contests, McAdams leads the Aggie batters with a fine .571 average — four hits in seven trips. Pitcher Ed Singley is second with two hits out of four for a .500 average. Dave Johnson, the Aggies' sensational shortstop, is slugging .364 with four hits in 11 times at bat.

Three Aggie pitchers have received A&M wins — Richard Bell, Ed Singley and Chuck McGuire. Ace reliever Johnny Crain has made only one appearance in SWC play.

The Aggies hit the road again Saturday as they travel to Houston for a SWC battle with the Rice Owls. Next week the Cadets play host to the TCU Horned Frogs in two games on April 12 and 13.

## Casey Stengel talks about the Mets

At 71, Casey Stengel faces the biggest challenge of his life — building a big-league ball club from scratch. In this week's Saturday Evening Post, the Ol' Perfessor talks frankly about his brand-new team. He tells why he wasn't consulted in picking his players. Sizes up such veterans as Richie Ashburn, Gil Hodges and Charley Neal. And says how long he expects to stay with the club.

## Ags' Routt Named To Hall Of Fame

NEW YORK (AP)—Eleven players, four from the pre-1900 era, and former coach DeOrmond (Tuss) McLaughry were named to the Football Hall of Fame Tuesday.

They will be inducted officially at the annual awards dinner of the National Football Foundation next December. The Hall now has 154 players, including 15 from the pre-1900 era, and 49 coaches.

The modern players named to the Hall of Fame are Benny Lee Boynton, quarterback at Williams for three years beginning in 1917; Guy Chamberlain, halfback and end at Nebraska, 1913-15; Dan Hill, Duke center from 1936-38;

Robert (Cal) Hubbard, end and tackle for Centenary in 1922-24, and at Geneva, Pa., in 1925; John McEwan, Army center 1916-16; Joseph Routt, guard at Texas A&M 1925-37; and W. E. Spears, Vanderbilt quarterback in 1925-27.

The old-time players are Philip King, Princeton quarterback, 1890-93, now deceased; John E. Minds, fullback and tackle at Penn from 1984-97; Pat O'Dea, Australian-born halfback and fullback at Wisconsin, 1896-99; and Andrew Wyant, lineman at Bucknell and University of Chicago for nine years, the longest amateur career ever known.

many a knight was spent in rusty armor

In days of yore, men feared not only their mortal enemies, but the elements too. It was the medieval armorer's task to protect his chief against foemen, but weather-protection was a more difficult matter. Thus many a knight was spent in rusty armor.

Engineers and scientists at Ford Motor Company, engaged in both pure and applied research, are coping even today with the problem of body protection (car bodies, that is). Through greater understanding of the chemistry of surfaces, they have developed new paint primers and undercoatings, new rustproofing methods, and special sealers that guard entire car bodies against nature's corrosive forces—all of which add armor-like protection to Ford-built cars.

From other scientific inquiries will undoubtedly come new materials with protective properties vastly superior to those of today. This is another example of Ford's leadership through scientific research and engineering.
