

THE BATTALION

Volume 60

COLLEGE STATION, TEXAS THURSDAY, APRIL 5, 1962

Number 99

AGGIE CLUB HOST

Quarter Horse Show Set Here

The third annual Aggie Rodeo Club Quarter Horse Show will be held Saturday on the A&M campus.

The show is approved by the American Quarter Horse Association and the National Cutting Horse Association and is supervised by the Aggie Rodeo Club.

Ken Dorris of Fort Worth and Willard Stuard of Aledo, co-chairmen, said the event will be held no matter what type of weather prevails. In case of rain, an indoor arena will be available.

They said free stalls will be provided for exhibitors at the auction barn and the shows grounds on a first-come-first-serve basis.

Exhibitors are urged to make their entries as soon as possible. Show time is 9:30 a.m. All entries should be mailed to Jerry Ann Bowman, 2200 Lincoln, Fort Worth 6, Texas, phone MA 6-5270.

Dorris and Stuard said all entries must be registered with the AQHA (permanent, tentative or appendix), and NQHBA horses are eligible. For halter classes, foals, yearlings and 2-year-olds listed in the appendix are eligible. Stallions

and mares 3 years old or older must have a registration number. Geldings need appendix registration only. Appendix registration only is necessary for registered performance classes.

Two years ago, the Aggie Quarter Horse Show qualified as Class A under AQHA classification, with 284 entries.

"At that time, it was extremely unusual for a one-day show to qualify as Class A, much less on its first show," Dorris and Stuard said. They added that in 1961, the show's entries rose to 287.

This show was among the top 10 shows of Texas for 1961, according to AQHA totals, which are based on number of entries in the halter division, performance division and overall total entries. The show qualified in all three categories.

Of the 695 AQHA-approved shows held in the United States in 1960, only 30 were Class A events. Of those 30, eight were held in Texas, and one of those was the first annual Aggie Rodeo Club Quarter Horse Show.

Dorris and Stuard said the show this year will be judged by R. A. (Jebb) Stuart Jr. of Fort Worth, Texas, and Paulden, Arizona.

SCONA Group Meets Sunday

A SCONA VIII general committee meeting will be held this Sunday to discuss this year's Easter finance drive, to be held April 13 through 24.

According to John Krebs, finance chairman, the drive should yield \$12,000 of the proposed \$18,660 Budget.

The meeting will be held from 2 to 4:30 p.m. in the Ballroom of the Memorial Student Center.

Also at the meeting tentative topics for the conference will be announced by the program committee.

Atomic Chemist To Speak Here

A chemist who served with the War Research Division of the famed Manhattan Project during World War II will be here Friday as another in the series of graduate lectures. He is Dr. Harold Kwart, now an Associate Professor in the Chemistry Department of the University of Delaware.

The public is invited to hear Kwart lecture on the topic of "Some Aspects of the Nature and Magnitude of Inductive Effects," Dean Wayne C. Hall of the Graduate School said in announcing the lecture scheduled at 3 p. m. Friday in Room 231 of the Chemistry Building.

Kwart received his A.B. degree from Brooklyn College in 1948. He was with the Manhattan project from 1941 to 1945 and was a teaching fellow at Harvard University from 1947 to 1949.

The chemist was an assistant professor at Byrn Mawr College from 1949 to 1951, and then joined the University of Delaware faculty.

Kwart's field of research relates to a study of the kinetics and mechanisms of change reactions in solution and other chemical reactions. He is also a specialist in spectroscopy in the near and far infrared and the ultraviolet region under vacuum.

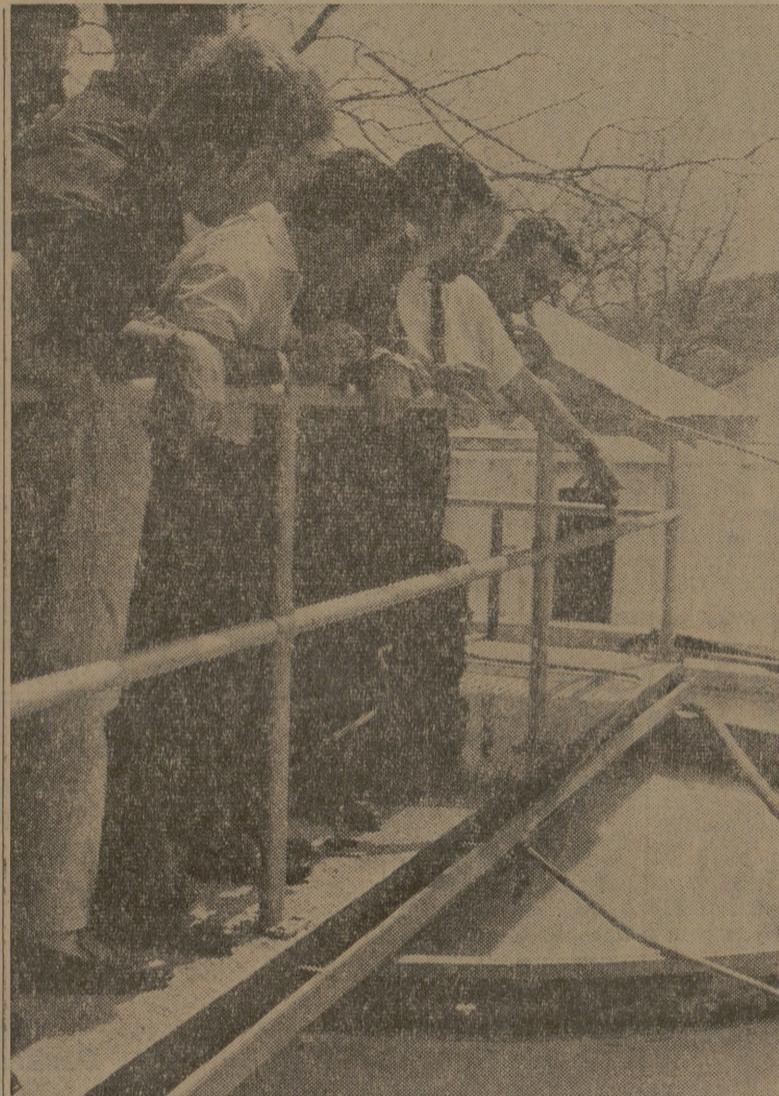

Senate Planning To Discuss Signs Asking Students 'Keep Off Grass'

Possible signs around campus warning students not to walk on grass will be one of three main topics of discussion at a regular meeting of the Student Senate Thursday night in Room 3-D of the Memorial Student Center.

According to the Senate agenda received by members Wednesday, "don't make a path" signs will be

discussed as a remedy to numerous paths appearing in greenery around campus. Prevalent are two large paths in the area west of the Academic Building.

Other items on the agenda include a report on a meeting with motel owners, reported last week in The Battalion. Senators will also discuss A&M's relationship with the World University Service.

Practical Training

Members of the CE 401 class went to Brenham on a field trip where they were shown the coagulation procedure used in the water treatment plant there. Water plant personnel conducted the Aggies on the tour.

Walker Says Red 'Collusion' Hindering U. S.

WASHINGTON (AP) — Edwin A. Walker, far-right ex-general told a Senate committee Wednesday that both he and the American way of life are victims of dark forces in 'collusion' with the international Communist conspiracy.

From President Kennedy down, Walker raked high officials and even suggested that a onetime ghost writer for former President Dwight D. Eisenhower would bear looking into. He didn't name the writer.

As for the state of the armed forces, he said that with the nation's survival at stake they are "paralyzed by our national policy of 'no win' and retreat from victory."

The big Senate caucus room was crowded with spectators, many of them Walker admirers, as the former major general came to defend himself against charges that he tried to sway votes of his troops in the 1960 elections, in violation of Army regulations.

Walker now is seeking the Democratic nomination for the governorship of Texas.

Junior Engineers Conference Registration To Begin Friday

Registration will begin at 4 p.m. Friday for the third annual Southwest Regional Conference of the Junior Engineering Technical Society (JETS) to be held Saturday in the Memorial Student Center, J. G. McGuire, assistant dean of engineering and chairman of the Conference Committee, said today.

The conference is sponsored by the School of Engineering.

According to McGuire, the annual meeting will entertain some

100 high school junior and senior students interested in engineering. The conference will begin with an address by Fred J. Benson, dean of engineering. Following will be talks by J. W. Martin of the Texas Research and Electronics Corporation, McGuire, and two past presidents of chapters of the Texas Society of Professional Engineers, Kelly Elliott and M. E. L. Misegades.

McGuire said that awards will be given for outstanding exhibits and one scholarship will be presented. JETS is a pattern for high school extra-curricular clubs to stimulate interest among juniors and seniors in engineering and science careers. It is a non-profit corporation with a board of directors composed of leaders from industry, education and the armed services. Members of the Conference Committee are McGuire, J. W. Amyx, J. H. Caddess, J. S. Denison, B. M. Gallaway, T. R. Jones, W. R. Tatum and R. E. Wainerdi.

Grant Received To Continue Study Of Thin Shell Shapes

A research grant of \$23,341 has been made to the Architectural Research Group of the Texas Engineering Experiment Station by Educational Facilities Laboratories, Inc., New York.

The grant will support a study of lightweight covering materials for use with thin shelled architectural shapes. These are formed by the new technique of laying out their pattern with steel reinforcing rods and mesh and spring-

ing them into shape by applying tension between opposite legs by means of cables and a winch.

One structure already erected here by this process is in Hensel Park, where a cover of concrete was made with lightweight aggregates.

The research will be conducted under the general supervision of Ben H. Evans, coordinator of architectural research, with James H. Marsh III, assistant professor of

Sperry Named 'Boy Of Month' In April By Exchange Club

The Bryan-College Station Exchange Club has chosen Neil Sperry, a senior at A&M Consolidated High School, for Boy-of-the-Month for April. Sperry was chosen for his accomplishments in the classroom, student government and community leadership.

The Exchange Club will honor Sperry on Monday at their luncheon where he will be presented a certificate by W. R. Matthews,

president of the club. Sperry is president of the student body at A&M Consolidated, and a member of the National Honor Society. He led his council recently in a project to beautify the school grounds by holding a work day on the campus and cleaning up the grounds.

He also helped push a project to put a bridge across the creek, and to put benches under the trees to provide a pleasant setting for those who bring their lunches and eat out.

Sperry, who has a rather natural talent for "ornamental horticulture," plans to become a plant scientist after graduation from college. He is the son of Dr. and Mrs. Omer E. Sperry, and lives at 1011 James Parkway in College Station. Sperry is a professor in the Department of Range and Forestry.

Two Ags To Speak At Dallas Forum

Two Aggies will be on the panel of conservative speakers for the first Youth Freedom Forum for the Dallas area, scheduled April 28 in the Theater of the Dallas Memorial Auditorium.

J. Douglas Cherry, senior mechanical engineering student, is scheduled to appear on a panel to discuss the topic "Fallacies of Communism and Socialism."

James L. Taylor, a graduate student in entomology, is slated to speak to the group during the afternoon. The meeting is designed for Dallas area high school students.

Delegates To Principia Return After Accident

Lady Architect-Historian Will Speak Friday

A noted architectural historian—Sibyl Moholy-Nagy of Pratt Institute, Brooklyn, N.Y.—will deliver the next guest lecture on current issues in design here Friday.

"The Future of the Past in American Architecture" is the topic to be discussed at 8 p.m. in the Memorial Student Center. The guest lecturer is sponsored on campus by the Division of Architecture. The public is invited.

Mrs. Moholy-Nagy is professor of architecture at Pratt Institute where she has taught theory of architecture and history since 1951.

A native of Germany, her father was Martin Pietzche, a pioneer architect and leader of German architectural associations. She was married to Laszlo Moholy-Nagy, painter, photographer, designer and educator, who was a close association of Walter Gropius in formation of the German Bauhaus. After living in Holland and England from 1931 to 1937, she and Moholy-Nagy were associated with the Chicago Institute of Design until his death in 1948.

Few Injuries From Mishap

Four of A&M's five delegates to the 24th annual Public Affairs Conference at Principia College in Elsau, Ill., have returned to campus after a one-car accident en route to the conference at Arkadelphia, Ark.

Hurt in the accident were David Trasher, '63, Paul Dresser, '64, and Jeff Wentworth, '62. A fourth passenger, Robert Hall, '63, was not hurt.

Trasher, who was pinned in the wreckage of the 1955 Volkswagen bus for approximately 30 minutes, is still confined to the College Hospital with a cut and swollen foot.

Dresser, who suffered a back injury, and Wentworth, whose left arm was badly cut, have both been released from medical care.

The accident occurred in downtown Arkadelphia, located approximately halfway between Texarkana and Memphis, Tenn., at 4:30 a.m. Tuesday.

Trasher was driving the vehicle, owned by David Killough, '65, when it went out of control on a sharp curve and slammed into a utility pole. Wentworth, asleep in the front seat, was thrown through the front windshield. Hall and Dresser, both asleep in the rear of the bus, remained in the bus.

Investigating officers at the scene said the Volkswagen was a total loss.

The delegates, all representing A&M's Student Conference on National Affairs at the Principia meeting, left Arkadelphia by train Tuesday at noon, arriving in College Station last night.

At the time of the accident, they were detouring by way of Memphis, Tenn., to pick up a fifth delegate to the conference, Dale Mason, '62. They were carrying Mason's clothes, therefore he also will not attend the conference and is returning to College Station.

The delegates were due to arrive at the conference site, near St. Louis, Mo., early Wednesday for registration at noon. The meeting, based on the theme, "The Strategy of Nuclear Politics: Disarmament," will end Saturday.

FFA Groups Due Saturday For Contests

About six hundred Future Farmers accompanied by vocation agriculture teachers from Area III of southeast Texas will compete here in their annual judging contests on Saturday according to Lester Buford of Houston, area supervisor of Vocational Agriculture.

The contests, conducted by the School of Agriculture, are designed to let the FFA members demonstrate their proficiency in six separate areas of agriculture.

The livestock judging contest will be conducted by the Department of Animal Husbandry and will be headed by L. D. Wythe. Fifty teams of three boys each will compete in selecting beef cattle, sheep and swine.

Dr. Murray Brown of the Dairy Science Department will be in charge of the Dairy Cattle Contest. Fifty teams are expected to compete.

Thirty teams will judge poultry and eggs at the poultry center, where Dr. Cecil Ryan will be in charge. A similar number of meats teams will be at work in the meats laboratory of the Department of Animal Husbandry under the direction of Dr. Gene King.

Wire Wrap - Up

By The Associated Press

World News

MOSCOW—Pravda, the voice of the Communist party, came out Wednesday for individual bonus payments and incentives to workers to speed production.

It means scrapping the system of incentive payments to work brigades and other groups. Bonuses for the individual worker have not been general.

Incentive payments to groups have been made to encourage team spirit and collective morale.

U. S. News

WASHINGTON—President Kennedy accepted an invitation Wednesday to visit Brazil some time this year, the White House announced after he concluded two days of talks with Brazilian President Joao Goulart.

Pierre Salinger, presidential press secretary who told newsmen of Goulart's invitation and Kennedy's acceptance, said he could be no more specific about the exact date of the U. S. chief executive's journey.

WASHINGTON—The Army has decided to eliminate four National Guard and four Reserve infantry divisions in a major revamping of Reserve-Guard manpower, it was learned Wednesday.

Informed sources said the four National Guard divisions to be reconstituted into independent brigades are: The 34th of Iowa and Nebraska, the 35th of Kansas and Missouri, the 43rd of Connecticut, Rhode Island and Vermont, and the 51st of Florida and South Carolina.

The four Reserve divisions were identified as: The 79th of Pennsylvania, Delaware and Maryland; the 94th of Massachusetts, the 96th of Arizona, Idaho, Washington, Utah and Nevada; and the 103rd of Iowa, and Wisconsin.

Texas News

PECOS, Tex. — A federal grand jury showed signs Wednesday that it may dig deeper into the Billie Sol Estes mortgage cases than the Justice Department originally asked.

The jury, meeting in El Paso, called at least three men not known to be connected with the one specific charge of fraudulent mortgage dealings filed by the FBI.

The charge was filed against Estes and three associates last Thursday.
