

Indian Students To Be Rotary Guests

A&M students from India will be guests on Aug. 31 when Nitish C. Laharry of Calcutta, India, the new president of Rotary International, speaks to the Bryan-College Station Rotary Club.

The students also will have an opportunity to meet privately with Laharry after the luncheon meeting at the Triangle Restaurant, Club President Holly Rees said.

"We hope to have all 17 of the students from India as our guests," Rees said. He explained that individual Rotarians will invite the students to be their guests for the meeting. Approximately 200 persons including Rotarians from clubs as much as 100 miles away are expected to attend.

Aggies Are Half

Men from the A&M campus account for roughly one-half of the local Rotary Club's membership. Among these men is a long-time friend of Laharry, Assistant Professor R. D. Thompson of the Division of Business Administration.

"The Bryan-College Station Rotary Club has invited A&M students, especially those from foreign nations, to various meetings," Rees said. "We welcome this opportunity to bring together the

new president of Rotary International, the first Asian to hold this high post, and the A&M students from India."

The club has been working with Dr. Jack D. Gray, coordinator of the Foreign Programs Office, in making arrangements concerning invitations to the Indian students.

High Court Judge

Laharry became president of Rotary International on July 1. He is an advocate of the high court of Calcutta and a retired motion picture executive.

Club President Rees said that Laharry will come to the Bryan-College Station area after helping Houston Rotarians mark the 50th anniversary of the founding of the club. After spending the day here, he will go to Mineola.

Pakistani Visitors

Visiting A&M next week will be six farming leaders from Pakistan, who are attempting to learn more about the land grant system under which the school operates. Standing are Noor Ahmed, Malik Mukhtar Ahmad and Wakil Ahmed Talukdar. Seated left to right are Mohammed Owais, Dr. Ashabul Haque and Dost Mohammad Unar.

Plant Sciences Home To Be Largest Building On Campus

The new Plant Science Building, which will be completed this fall, will be A & M's largest building. Departments to be housed in the new building are Plant Sciences, comprised of Genetics, Plant Pathology and Plant Physiology; the

Floriculture and Horticulture section of Soil and Crop Sciences; Range and Forestry and the Botany section of Biology.

The building is under construction on the west end of the block already accommodating the Animal Husbandry Pavilion and the Herman F. Heep Building. The most advanced types of equipment and instrumentation for teaching and research will be available in all of the plant science departments and sections.

The site of the new Plant Science Building was at one time used for experimentation plots by the late Dr. J. J. Taubenhau, chief plant pathologist for the Texas Agricultural Experiment Station.

Here, during the late twenties and early thirties, Dr. Taubenhau grew hundreds of species of seed plants and inoculated them with the cotton root rot fungus.

From what he learned from his work came a very important Agricultural Experiment Station bulletin which rated plants as to their resistance or susceptibility to the fungus.

A&M Veterans Craig, Smith Die Here During Past Week

Two members of long standing on the A&M staff died this past week, representing 40 years of service to A&M between them.

Funeral services were held Sunday for Robert N. Craig, veteran member of the faculty who had worked with vocational agricultural teachers in virtually every Texas county.

Craig, 50, died Saturday in a Bryan hospital after a brief illness.

He was an associate professor and coordinator of the vocational agricultural services in the Department of Agricultural Education. A member of the Class of

1937, he first joined the faculty in 1940.

A veteran member of the maintenance staff, Harvey Smith, died Thursday in St. Joseph Hospital, Bryan. Smith, 61, had been a college employee for 20 years and had served since 1947 as maintenance foreman with the student apartments office.

He had been hospitalized since suffering a heart attack about a month ago.

Smith was a native of Milam County.

The family residence is at 405 Sulphur Springs Road, College Station.

God's Greatest Gift

I saw a miracle today. I visited a family with a tiny baby, and as I looked at him and held his chubby hand in mine, I felt the thrill that comes to me each time I gaze upon a new life.

In my work as a minister, I call upon many families. I see many babies. Yet that thrill is always there. For of all God's great gifts, this is the greatest. Nowhere, I think, does His power stand more truly revealed to us than when we see a small being, created in His image.

As I held this baby today, I knew a special gladness because his parents are members of my church and stand ready to bring up their son in the full, rich light of religious training. Would that all blessed babes were so fortunate! It is God who gives us our children—but it is we who must teach them the meaning of His love, His truth, and His eternal understanding.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Psalm	121	1-10
Monday	Luke	1	39-55
Tuesday	Romans	12	1-15
Wednesday	Isaiah	40	28-31
Thursday	Psalm	92	1-15
Friday	1 Thessalonians	5	14-23
Saturday	1 Corinthians	13	1-13
