

Magazine Prints Benson's Article

An article entitled "The Traffic Engineer and Urban Transportation," by Dean of Engineering Fred J. Benson appears in the September issue of Traffic Engineering.

The article was the keynote address at the recent Houston meeting of the Texas Section of the Institute of Traffic Engineers. It deals with private and mass transportation.

Hearne Grad Wins Grant In Aerospace

Danny R. Tidwell of Hearne has been awarded the \$2,400 graduate fellowship in aerospace engineering established by Librascope Division of General Precision, Inc.

Tidwell is working toward a Ph.D. degree in aerospace structural mechanics under a new interdisciplinary doctoral program. Directing his studies is Dr. Charles H. Samson, professor of aerospace and civil engineering.

"We are greatly interested in the advanced activities associated with the Department of Aerospace Engineering because of the urgent national need for increased technical competence in the aerospace sciences," W. E. Bratton, president of Librascope Division, said.

After earning his B.S. degree in aeronautical engineering here

Old Degree Comes Home

College Archivist Ernest Langford inspects an 1889 degree returned to the archives office by Mrs. Earl Sloan Middlebrook of Columbus, Tex. The degree was awarded Mrs. Middlebrook's late husband and is one of the oldest in the archives. The oldest is the first degree ever awarded by the college—to Walter Wipprecht June 2, 1885.

Timm Calls Program 'Tops' For Farm, Ranch Meeting

One of the top programs in the 11-year history of the Texas Farm and Ranch Credit School is rapidly taking shape, according to Dr. Tyrus R. Timm, general chairman for the school and head of the Department of Agricultural Economics and Sociology.

The program for the Nov. 26-28

school is being planned by committees of bankers working with Timm and other members of the staff of the sponsoring department.

"We can now announce," Timm said, "that several of Texas' most prominent bankers, along with business leaders of the state and nation, will be featured on the program. They will discuss such topics as — "What's Ahead for Agricultural Banking in 1963," "Credit Unions," "Operation Income — Will it Work in Your Region," "European Common Market and Texas Agriculture" and "Bankers and Community Improvement."

Other timely topics will be added to the program as it is put into final form, Timm added.

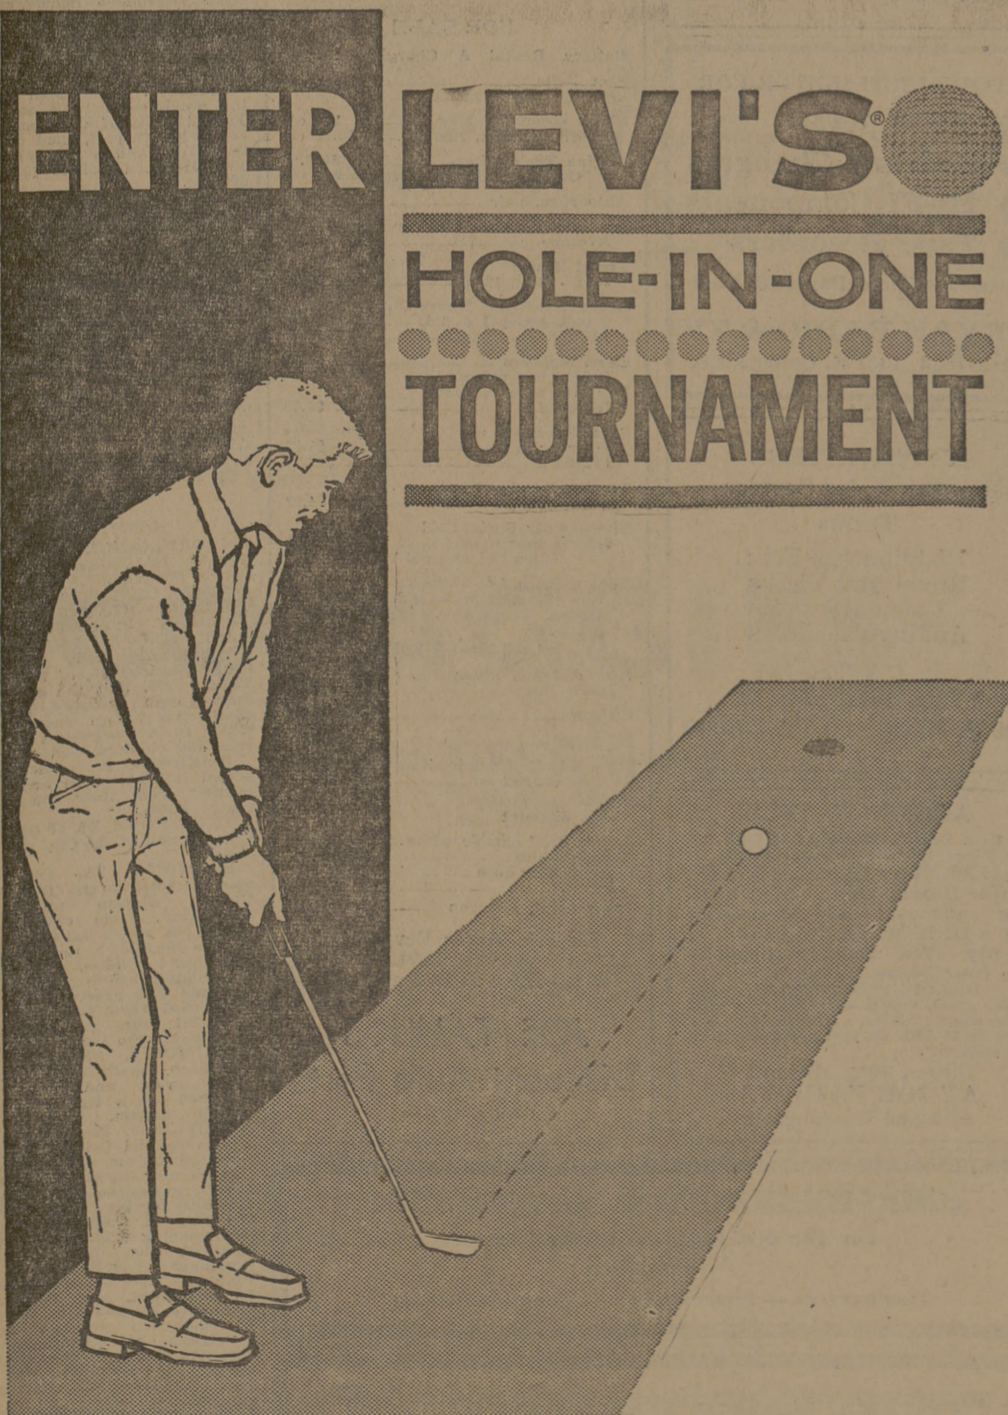

Inquiries being received regarding the school indicate, Timm said, that an attendance record may be set. Early registrations will insure participation and are suggested by the general chairman. They should be sent to the Texas Farm and Ranch Credit School, Department of Agricultural Economics and Sociology.

80-Year-Old Walks On Stilts

JAMESTOWN, N. Y. (AP) — While many folk his age stay close to their rocking chairs, 80-year-old Harry C. Wood likes to get his feet off the ground.

Wood appears on stilts (four feet off the ground), dresses as Uncle Sam, at fairs and parades. He has been doing it for 25 years.

Wood has walked as far as five miles on stilts and says he fell only once at a public affair — to avoid a child who ran into his path.

The 200-pound man works daily from about 6 a.m. to 3 p.m.

In 1959, Tidwell did structural research for General Dynamics in Fort Worth for two years. He was a structural engineer on F-102 and B-52 aircraft at Kelly AFB, before returning to A&M for graduate study.

Debaters Organize As First Fall Match Fast Approaches

The newly organized Aggie Debate Club will hold its next meeting Monday night, Oct. 15, in the Birch Room of the Memorial Student Center, Robert Denney, president, announced Thursday. He added all students interested in joining the club to attend.

Denney, '64 engineering major from San Antonio, was elected president at the club's meeting this week. George J. (Dick) Stengel, '64 pre-law major from Garden City, Kan., will serve as secretary-treasurer.

SANITARY
Farm Dairies

Larry is a fullback. You ought to see him finding those holes in the line . . . driving off tackle . . . slashing through the secondary. Oh, Larry has scored a dozen touchdowns!

But he can't kick an extra-point! The cross-bar is too high, the goal posts are too far away.

Just give Larry a year or two—with lots of practice. Then we'll win those close ones . . . 7-6 . . . 14-13 . . . 21-20!

Never worry about failure when its cause is being overcome. Don't lower the goal . . . keep trying. Grow stronger. You'll reach it!

That's one of the lessons of life that Larry has learned on Sundays when he goes to church with his family . . . one of many lessons that help us achieve our best every day of the week.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
